

## Module 05 – 17 Responsibility - New vs. old – Evangelism 6

### Session 17

Isa 42:9 “Behold, the former things have come to pass, now I declare new things; before they spring forth I proclaim them to you.”

God is revealing new things in our day, we have been comparing and contrasting old and new so we can make sure we are embracing the new and not clinging on to what is old by default

- **The Joshua Generation are forerunners of new things which are characterised by establishing everything beyond the veil in the heavenlies first**

We are looking at evangelism from the new perspective

Context being a supernatural embassy of heaven a storehouse ready for the harvest

At the heart of evangelism is the gospel or good news

- **The heart of the good news is a love relationship that God has with the world**

John 3:16 “For God so loved the world, that He gave His only begotten Son, that whoever believes in Him shall not perish, but have eternal life”.

John 3:16 Mirror The object of God’s affection! And he is not about to abandon his creation - the gift of his son is for humanity to realize their origin in him who mirrors their authentic birth - begotten not of flesh but of the Father! In this persuasion the life of the ages echoes within the individual and announces that the days of regret and sense of lost-ness are over!

Matt 5:13 TM "Let me tell you why you are here. You're here to be salt-seasoning that brings out the God-flavours of this earth. ... "Here's another way to put it: You're here to **be light**, bringing out the God-colours in the world.

### **Light has amazing properties**

- It can occur in many wavelengths as different visible colours and invisible ones
- Light illuminates enabling us to see
- There are many wavelengths of light that we can't see but can feel the effects
- Infra-red light can heat and cook
- Halogen light can heat and cook
- Ultra violet light can give us sunburn but also reveal things invisible to the naked eye
- Fluorescence chemically produced light through exciting various gases
- Light can create fire through lenses
- Light can luminescence in the dark e.g. watch faces
- Some creatures produce their own light bioluminescence
- Light can send information through fibre optics
- Light can be focused to cut through metal eg. lasers

- Light therapy can be used to treat diseases eg. Newborn jaundice
- Full sunlight or exposure to bright light from a light box is used to treat seasonal affective disorder (SAD).
- Red light therapy is used in skin care, wound care and pain relief.
- Ultraviolet light therapy or ultraviolet phototherapy is a form of treatment for certain skin and atopic skin disorders
- Light invisibly remotely controls our electronic equipment
- Medical applications include CT (computed tomography) scans, MRIs (magnetic resonance imaging), ultrasounds, and X-rays (a form of radiography).
- Light aids the production of vitamins e.g. Vitamin D
- Research labs and classrooms use microscopes to see small things
- Telescopes enable us to see far distant things e.g. space
- Technology such as high resolution cameras, laser microdissection, and molecular probe development all aid in the understanding of our natural environment.
- Plants need light to photosynthesise food the process turns CO<sub>2</sub> into oxygen
- Would be not be able to breathe or eat without light
- Without sunlight we would not live as the planet would be too cold
- Spectroscopy: used to analyse in medical and other fields
- Light is used for analysis of compounds by spectrophotometry, colorimetry, atomic absorption spectroscopy, chromatography.
- Solar energy: Sunlight helps to generate green energy or renewable energy.
- Solar panels imbibe sun rays and convert it into electric energy which can be used for domestic needs.
- Signal system: Light is the key visible signals.
- We use light as traffic signals and navigation signals
- Light houses, warning lights, indicator lights
- Ultra violet light is a good sterilizing agent.
- The UV rays kills the microbes in the air keeping the area sterile
- Light maintains body clock or circadian rhythm
- Every day light keeps plants and animals ticking with time.
- $E=MC^2$  light effects solidity of matter
- Light influences energy becoming matter and vice versa
- Speed of light effects time itself
- Speed of light has slowed therefore our concept of time in the past would change
- If light was a billion times slower then a day would be the equivalent of a billion years relatively

- Light transfers energy and consciousness and enables us to be translated spiritually in time and space and transrelocated physically in space
- ➔ **We need to understand light and how to use, be and radiate light**
- ➔ **As light to the world we need to shine, but what does that mean?**
- ➔ **We need to understand how to use light - what does light mean physically, spiritually or morally?**

John 8:12 Then Jesus again spoke to them, saying, "I am the Light of the world; he who follows Me will not walk in the darkness, but will have the Light of life."

1 John 1:5 This is the message we have heard from Him and announce to you, that God is Light, and in Him there is no darkness at all.

John 9:5 While I am in the world, I am the Light of the world."

Matt 5:14 "You are the light of the world. A city set on a hill cannot be hidden"

We can be radiators or emitters of that light as sons of light if we are not hidden behind a mask or a veil

- Light can refer to electromagnetic energy
- Light can be used as an analogy for the various attributes of God or His presence or moral character
- We will look at what it means to be light in these contexts

### Who is God?

- **God is Spirit, God is light, God is love**
- **God is Father, Son and Holy Spirit**
- **God is the perfect expression of a love relationship**
- **We need to experience God's love to be able demonstrate it to the world**
- We were created as light beings in God's image
- Our spirits are still light
- When we are non-physical and non-local, quantum physically in the spiritual or heavenly realms we are light
- **Light is God's way of transferring energy through space.**
- We can complicate it by talking about interacting electric and magnetic fields, quantum mechanics, and all of that, but light is basically just energy.

Ephesians 5:8-10 You were there once, trapped in the same darkness, but now you are light; your life confirms that light rules. The spiritual harvest of light is evident in all that is excellent, innocent, and of impeccable integrity. This gives certain evidence to the life of God's delight.

Ephesians 5:14 This is the message of light; Christ awakens you from your intoxicated slumber and resurrects you out of the death trap of enslaved thought patterns.

- ➔ **Our testimony is a powerful light that can draw people**

## Light definition

- The natural agent that stimulates sight and makes things visible.
- Can people see God by our light?
- Light is part of the electromagnetic spectrum, which ranges from radio waves to gamma rays.
- **God is light, light is energy**
- God is spirit therefore light is spiritual energy that travels as waves and becomes particles as we observe it.
- We move things out of the different realms of heaven dimensionally with light energy.
  
- **There are different speeds of light in the different heavenly spheres**
- Therefore light is faster the closer you get to God who is pure light until there is no time in God
- We call it eternity or what was before anything was which is outside of time and space
  
- 6 light speeds and forms of light
- **God is light – pure ultimate speed and highest frequency**
- Pre-existing light of our spiritual identity
- Lucifer light bearer reflected light of angelic realm
  
- Creative greater light of the spiritual realm
- Created lesser light sun stars etc. in the natural realm
- Transfigured light spiritual light frequencies that engages the physical realm through us
  
- Light is subject to our consciousness and the frequency of our voice creatively.
- God said - God saw - let there be and there was
- God called things that are not as if they are and they became.
  
- **Love illuminates God; it lights Him up for all to see through our light**
- **God is spirit and God is love, neither of which can be seen physically but both can be felt as vibrating energy fields**
  
- God being light radiates as vibrating energy a frequency or a wavelength of electromagnetic energy through us
- The glory is the weight of God's essence displayed as light energy

John 12:32 “And I, if I am lifted up from the earth, will draw all men to Myself.”

What have we been lifting up?

It is love's light fully expressed in Jesus that will draw all people

- All matter that can be seen is created by energy operating at the speed of light.
- Light energy becomes matter, a wave becomes a photon particle because of conscious observance.
- Manifestation of love through various miracles, healing, creativity etc.

- **Light expresses love as spiritual energy that can be experienced.**
- Love energises and refreshes like the cooling waves or ripples of a stream of living water flowing from God's throne through our inner most being.
- **Love being the very essence of God is vibrating at the highest frequency carrying the information that reveals His very nature**
- **We are sons of light to be the light of the world so God can be seen**
- Light of love can be experienced and known through the power of healing, miracles, grace, mercy and forgiveness
- Love brings reconciliation and restoration of relationship
- This is our responsibility to demonstrate love's light to reveal God
- ➔ **Light carries the essence of love as spiritual energy that changes the very world around us including people.**
- ➔ **Love is the most powerful thing in the universe.**
- ➔ **God is love and love is God His very nature and essence displayed in light's energising frequencies.**

1 John 4:7 Beloved, let us love one another, for love is from God; and everyone who loves is born of God and knows God.

John 13:34 A new commandment I give to you, that you love one another, even as I have loved you, that you also love one another.

1 Cor 13:4 Love is patient, love is kind and is not jealous; love does not brag and is not arrogant, 5 does not act unbecomingly; it does not seek its own, is not provoked, does not take into account a wrong suffered, 6 does not rejoice in unrighteousness, but rejoices with the truth; 7 bears all things, believes all things, hopes all things, endures all things. 8 Love never fails

1 Cor 13:2 I could predict the future in detail and have a word of knowledge for everyone. I could possess amazing faith, and prove it by moving mountains! It doesn't make me any more important than anyone else. Love is who you are! You are not defined by your gift or deeds. (Love gives context to faith. Moving mountains is not the point, love is.)

1 Cor 13:3 Love is not about defending a point of view; even if I am prepared to give away everything I have and die a martyr's death; love does not have to prove itself by acts of supreme devotion or self-sacrifice!

1 Cor 13:4 Love is large in being passionate about life and relentlessly patient in bearing the offenses and injuries of others with kindness. Love is completely content and strives for nothing.

1 Cor 13:5 Love is predictable and does not behave out of character. Love has no desire to make others feel inferior and has no need to sing its own praises. Love is not ambitious (for self). Love is not spiteful and gets no mileage out of another's mistakes

1 Cor 13:6 Love sees no joy in injustice. Love's delight is in everything that truth celebrates. 7 Love is a fortress where everyone feels protected rather than exposed!

Love's persuasion is persistent! Love believes. Love never loses hope and always remains constant in contradiction. 8 Love never loses its altitude!

- **If we are to be the light that energises the world then we must radiate and emit a frequency of love that the world can experience.**
- **We must arise and shine displaying God's glory as the glory of sonship to bring creation freedom.**

We must live loved, love living and live loving to display true freedom.

- John was known as the apostle of love

John 13:23 There was reclining on Jesus' bosom one of His disciples, whom Jesus loved.

- John was resting close to Jesus heart

Cardiognosis - knowledge of the heart in a metaphysical sense.

Act 1:24 And they prayed and said, "You, Lord, who know the hearts of all men, show which one of these two You have chosen

- This is telepathy, telekinesis

Ps 90:8 You have set *our iniquities* before you, our *secret sins* in the light of your presence.

- Light exposes things hidden in darkness

Mark 4:22 "For there is nothing hidden but it must be disclosed, nothing kept secret except to be brought to light".

1 Cor 4:5 He will bring into the light of day all that at present is hidden in darkness, and he will expose the *secret motives* of men's hearts

Our light will reveal things if we are willing to shine in the world

2 Cor 4:2 We have renounced secret and shameful ways... 6 For God who said, "Let light shine out of darkness," made his light shine in our hearts to give us the knowledge of the glory of God in the face of Christ.

We will live as light - truth revealers

John 3:13 No one can fully engage in heaven's perspective, unless one's heavenly origin is realized! The son of man declares humanity's co-genesis from above! Living in dual or multidimensional realms from our true identity as sons enables us to shine heaven's light

John 3:19 And this is the crisis: the light is here right now, yet people are so addicted to their own darkness that they prefer a life of labours, annoyances and hardships! Those things may become much less attractive and love's light more so when we shine

John 3:33-36 Whoever lays a hold of this testimony has the evidence of God's truth embossed like the impression of a signet ring resonating in their inner consciousness. For the one sent from God communicates God's gift language from the limitless resource of the Spirit. The theme of this conversation celebrates the extravagant love the Father has for the Son - and in him every gift of God is revealed - his hand extends God's touch; he is God's embrace of the human race!

John 1:14 “Suddenly the invisible eternal Word takes on visible form! The Incarnation! In him, and now confirmed in us! The most accurate tangible display of God’s eternal thought finds expression in human life!

John 1:14 The Word became a human being; we are his address; he resides in us! He captivates our gaze! The glory we see there is not a religious replica; he is the authentic begotten son. The glory (that Adam lost) returns in fullness! Only grace can communicate truth in such complete context!”

1 John 1:5 My conversation with you flows from the same source which illuminates this fellowship of union with the Father and the Son. This, then, is the essence of the message: God is radiant light and in him there exists not even a trace of obscurity or darkness at all.

James 1:17, “Without exception God’s gifts are only good, their perfection cannot be improved upon. They come from above, [where we originate from] proceeding like light rays from the source, the Father of lights, with whom there is no distortion or even a shadow of shifting to obstruct or intercept the light; no hint of a hidden agenda.

1 John 1:7 We are invited to explore the dimensions of the same light that engulfs God; when we see the light in his light, fellowship ignites! In his light we understand how the blood of Jesus Christ is the removal of every stain of sin! The success of the cross celebrates our redeemed innocence!
