

MODULE 12: THE RESTORATION OF ALL THINGS PART 2
SESSION 19

We have the Holy Spirit of Truth in us and with us as our guide
We have Jesus, the way, truth and life, in us and with us to disciple us
We have our loving Father in us and with us to Father us into sonship
Agape love should be what we use to measure and test everything against

The 4 streams of thought that are converging into one mighty river are:
Mystic sonship, Realised eschatology, Universal reconciliation, Energy frequency healing
We are going to look at energy gates and frequency generation in this session

Restoration includes personal wholeness
Energy frequency healing is being restored in this transition period to help us be made whole
Energy and frequency are related to many different healing methods

It is also related to consciousness and creativity using the revelation of frequency and quantum physics
As a son radiating the frequency of heaven in the earth
Choosing to create the reality of restoration

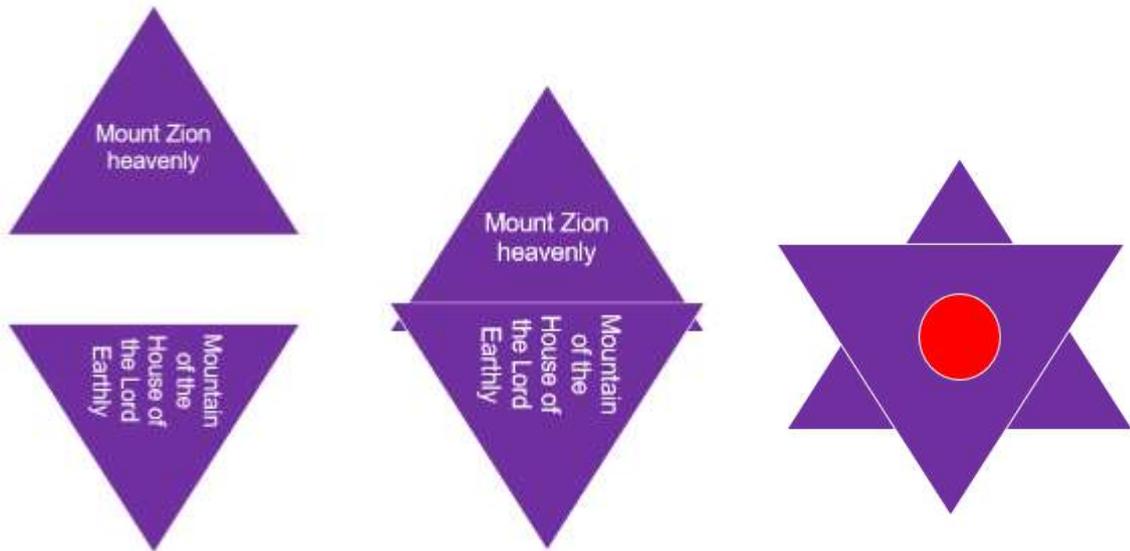

Our birthright is immortality
Man was created immortal
Sin ushered in mortality
Jesus came to restore us to life
Therefore in His death we have immortality restored
When we die with Him, we are raised with Him to immortality

2 Tim 1:9-10 according to the power of God, who has saved us and called us with a holy calling, not according to our works, but according to His own purpose and grace which was given to us in Christ Jesus before time began, but has now been revealed by the appearing of our Saviour Jesus Christ, who has abolished death and brought life and immortality to light through the gospel

The Merkaba and creation realities
'Mer' means a light that rotates within itself,
'Ka' means spirit
'Ba' means the physical body.
The parts have many other similar meanings, and so does the word 'Merkaba'.

Merkaba Symbol –

Sacred Geometry. Merkaba, also spelled Merkabah, translates literally to light, spirit, body.

The Merkaba Symbol is a shape made of 2 intersecting tetrahedrons that spin in opposite directions, creating a 3d dimensional energy field (a wheel within a wheel – Ezekiel).

A platonic solid is a regular, convex polyhedron with congruent faces of regular polygons and the same number of faces meeting at each vertex...

The platonic solids include the tetrahedron, cube, octahedron, dodecahedron and icosahedron

In sacred geometry, Metatron is an angel who is the key and time keeper of the heavenly realms and gives name to a mystical cube known as Metatron's Cube, in which there is a flow of energy and which contains all of the geometric shapes in creation and represents the patterns that make up everything God has made

Metatron's cube contains every shape that exists in the universe God has created, and those shapes are the building blocks of all physical matter.

They are known as platonic solids because the philosopher Plato linked them to the spirit world of heaven and the physical elements on Earth.

Those three-dimensional shapes appear throughout creation, in everything from crystals to human DNA God made shapes fit together throughout creation and how He designed people's bodies and souls to fit together like the puzzle pieces..

"The cube represents the three-dimensionality of space."

The Golden Spiral is based on the Golden Mean ratio. This ratio is found throughout all life. Phi = 1.618...

Also, when a person is transmitting love, the heart actually creates a sound that is made up of golden mean harmonics.

MODULE 12: THE RESTORATION OF ALL THINGS PART 2
SESSION 19

Within the cube lies the sphere. The cube represents the body with our third-dimensional reality of manifested thought.

The sphere within represents the consciousness of spirit within us, or, as it is commonly known, our soul."

"Ancient Hebrew scholars believed that by studying sacred geometry and meditating on its patterns, inner knowledge of the Divine and our human spiritual progression can be gained."

There is truth there but it is better to connect to the creator

Chakras are the concentrated energy centres of the body.

Chakra is a Sanskrit term and it means "wheel" or "disk" and is derived from the root word "cakra"...

MODULE 12: THE RESTORATION OF ALL THINGS PART 2
SESSION 19

Chakras have the loving responsibility of taking in, incorporating and emanating energy to keep us functioning at optimal levels.

What are chakras?

At our inner core, there are seven spinning wheel-like energy centres called chakras.

They are measurable patterns of electromagnetic activity, centres for the reception, assimilation and transmission of life energies. Each chakra reflects essential aspects of consciousness

Mark Virkler, who I totally agree with:

First, I don't see any truth as being a "New Age truth". All truth is God's truth! He is the all-knowing One, and He reveals His knowledge to ALL, even evil men (or New Agers, or Hindu or Chinese, or Americans).

For example, God gave Pharaoh, the evil king of Egypt, dreams of seven fat cows and seven skinny cows (Gen 41), which gave him wisdom as to how to provide for his kingdom for the next 14 years.

So just because an evil king, or a New Ager, a Hindu or an agnostic American has received some insight, I still call it God's insights.

I never bother to ask if New Agers or unbelievers believe something or not, as it is irrelevant to me what they believe.

I do not live in reaction to them or in rejection of what they know. I live in God's truth, and for sure, they can and do pick up some of God's truth, and that is not a problem to me.

So for example, I believe in aero-dynamics, as do many New Agers.

Not a problem as far as I can see.

Second, there is nothing in the Bible that specifically discusses chakras. We cannot point to a specific verse that mentions the word chakra to give us God's view on the topic.

So then I ask the question, "Do chakras violate any biblical principle, or are they compatible with any biblical principles?"

We should start by defining "chakra" so we know exactly what we are talking about.

Let's go with the following working definition if we can: "Chakras are believed to be centres of energy, located on the midline of the body.

There are seven of them, and they govern our psychological properties."

Chakras are considered both transmitters and receivers of energy. "Meridians" are energy pathways in the body which this energy flows through.

The idea is that one must have balanced chakras and meridians in order to be physically, emotionally, mentally and spirituality healthy.

A body can get problems in different areas with blockage or instability in either the chakras or meridian pathways.

So do we run on energy?

Are there energy pathways in our bodies?

We know for sure there are pathways for blood in our bodies, and pathways for nerves, and pathways for lymph, so why wouldn't God have created pathways for energy to flow through our bodies?

I have no problem believing that He did.

I have no problem believing we are energy organisms, infused by God's divine energy, for the Bible declares that God is all and in all (Col 3:11) and in Him all things hold together (Col 1:17).

Act 17:28 in Him we live and move and exist

MODULE 12: THE RESTORATION OF ALL THINGS PART 2
SESSION 19

Our school science class taught us that all atoms have electrons spinning around them, and that it is the flow of electrons that produce energy and current.

Beyond any doubt science has confirmed that we are energy beings on the molecular level.

I suspect it may be possible that chakras are spiritual energy centres that receive and release the spiritual life force of Almighty God in and out of our physical and spiritual beings.

I know when Jesus laid hands on to heal, there was a flow of God's energy from Him into those He prayed for (Mk. 5:30),

So I see the release of the healing anointing to include the release of God's energy into our bodies to right things that are messed up.

So for me, I believe in energy and energy pathways and energy healing.

Now if I were going to limit God to being simply a mass of energy, rather than a personal loving God (as some religions do), then I would object to that.

God is much more than a flow of energy.

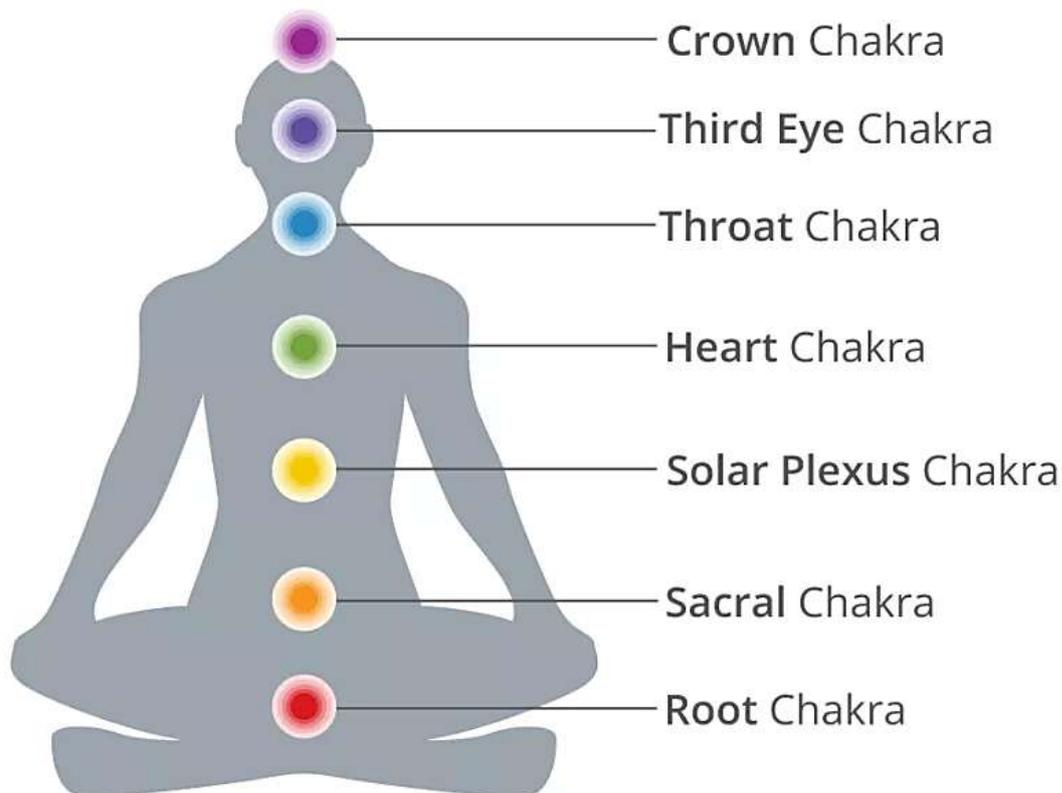

He is my Dad

Healing is much more than a flow of energy.

It begins and ends in the compassion of a wonderful and loving God (Mk. 6:34).

God is love and health is totally consistent with His essence, character and nature as our healer

So even though these energy pathways or chakras may be true, and even though Hindus (not New Agers) may have discovered these energy pathways, I would not embrace any belief that reduced God to a mere energy field.

MODULE 12: THE RESTORATION OF ALL THINGS PART 2
SESSION 19

Chakra balancing is the process of reaching a place of balance between the spirit, soul and body in health. It ensures that there is a harmonious flow of energy throughout the body.

From focusing on the overall well-being to feeling relaxed and grounded, each of the 7 main chakras is of unique importance.

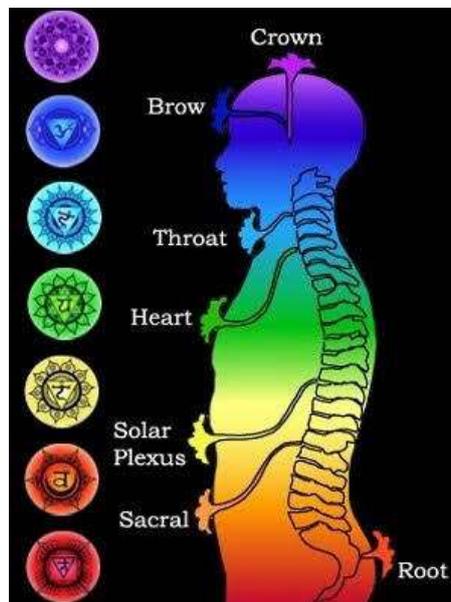

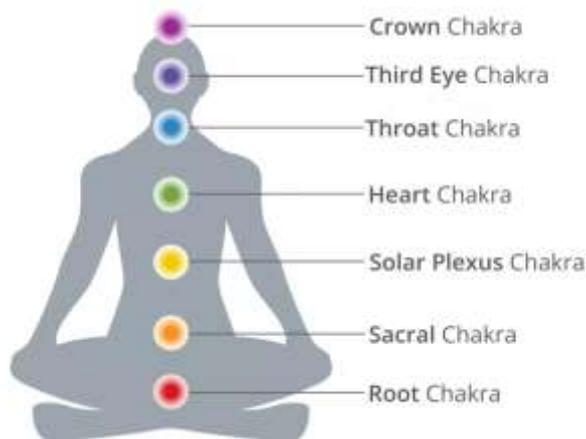

They start from the very end of your spinal cord and go all the way to the pinnacle of your head.

According to the meditation practices, if the chakras ever become out of sync, they can negatively impact your physical, mental and spiritual health.

Each of the chakras is associated with a particular body part and its proper functioning.

It is important to become aware of the 7 chakras present in your body as it will help in detecting any deeply-rooted issues in the body before they come to the surface.

They are aligned through the core or centre of our being.

So, the chakra gates are connected to specific places within the heavenly realms and each has a flow for a specific purpose.

You can activate each gate by intention to receive and channel the flow into your body and through your body to dimensional realms.

MODULE 12: THE RESTORATION OF ALL THINGS PART 2
SESSION 19

There are three gates connected to the eternal now that are represented by the heart (love) crown (mind) and root (gut)

There are four gates representative of being in the four faces of God as the order of Melchizedek. Throat – oracle, third eye – priest, sacral – legislator and the solar plexus – king.

Spirituality, awareness, communication, love, wisdom and power, creativity and trust

Son, become aware of the source so that rivers of living water flow from your innermost being.

John 7:38 He who believes in Me, as the Scripture said, 'From his innermost being will flow rivers of living water.' Compare with the Ezek 47 and Rev 22 river of life

Ezek 47:9 It will come about that every living creature which swarms in every place where the river goes, will live. And there will be very many fish, for these waters go there and the others become fresh; so everything will live where the river goes.

Rev 22:1 Then he showed me a river of the water of life, clear as crystal, coming from the throne of God and of the Lamb, 2 in the middle of its street. On either side of the river was the tree of life, bearing twelve kinds of fruit, yielding its fruit every month; and the leaves of the tree were for the healing of the nations.

The Merkaba is your consciousness's ability to connect and converge the eternal now and time through the four faces of the cherubic nature of man in the order of Melchizedek government.

Lion – king, Ox – oracle, Eagle – legislator, Man – priest

Develop these abilities and consciously choose to activate them to flow into your mountain spheres and connect to the dimensions.

The three and the four combined represent the seven and multiplied represent the twelves.

Representing complete government, they are connected to the 7 spirits of God

The root chakra

The root chakra is the first chakra of the body and is located in the base of the spine.

Its role is to connect your mind, body and soul with the Earth or grounding with creation

Colour of the chakra: Red – Spirit of the Lord

The sacral is located right below the belly button – three inches below the navel, to be precise.

This chakra is associated with the lymphatic system and is responsible for expressing emotions.

Colour of the chakra: Orange – Counsel

The solar plexus chakra

The third chakra is located behind the naval region below the rib cage. It is associated with self-confidence, self-discipline and wisdom.

This chakra is also responsible for the 'gut feeling'.

Colour of the chakra: Yellow – Wisdom

The heart chakra

The fourth chakra is known as the heart chakra and is associated with love and compassion.

It is located in the centre of the chest and not where the actual organ lies. This chakra is responsible for emotional healing and sound mental health.

Colour of the chakra: Green – Understanding

The throat chakra

This chakra is associated with voicing your expressions and being creative. The throat chakra is located right above the heart and is responsible for expressing the truth and sharing your opinion with others.

Colour of the chakra: Blue – Might

The third eye chakra

The sixth chakra is the third eye chakra, which loosely translates to “beyond wisdom”. This chakra is responsible for garnering information about yourself and beyond the materialistic world. It is located in between eyebrows – the third eye.

Colour of the chakra: Indigo – Knowledge

The crown chakra

The seventh chakra is known to be responsible for the direct connection with God and the mind of Christ. This chakra is located on the top of your head and is associated spirituality and gaining insight into yourself in relationship with the Father to balance your other chakras.

Colour of the chakra: Violet – Fear of the Lord

You can activate the energy gates by various methods including sound, light, movement and consciousness-directed frequencies

You can access the dimensional gateways within the Merkaba to access dimensions like a chariot that moves you by the wheels within wheels

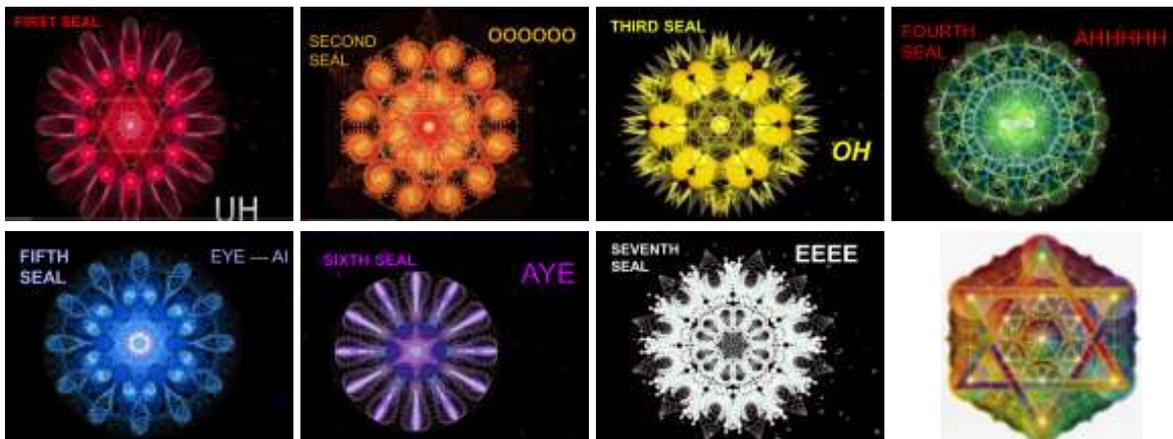

The patterns and the frequencies of heaven are multifaceted, as are the seals within you
They each generate energies at different levels of creativity.
They can be activated by specific frequencies and sounds

I activate my energy gates along with my spirit, soul and body gates through focusing the river of life flowing through my first love gate through each energy gate charging it with living waters or life force energy

Nancy Coen used the following activation using sound and body movements at the ROAT conference in 2019

You can engage with it or use your own version to activate the Merkaba and your energy gates

MODULE 12: THE RESTORATION OF ALL THINGS PART 2
SESSION 19

Rest is the key to restoration and revelation

Start to focus on your breathing, slowing it down; and start thinking of the name of God, YHVH

Breathe in deeply and exhale slowly: Yod

Breathe in: Hei and out: Vav

Repeat: in Hei, out Yod, in Hei, and out Vav...

Invite love, joy and peace to flow in you and through you to create an atmosphere of rest around you

You are in a safe place

Be still and know that I am God

I am love, I am joy, I am peace

Engage your energy gates

Open your first love gate and feel the flow of living energy

Now consciously choose to direct that flow to your gates

Start with the root gate at the base of your spine UH frequency
