

Vision Destiny 2022 – Session Two

I am going to review some of the things that were key in 2021

I will share my journals that will include:

What God said in 2021

What God did in 2021

What does that mean for 2022?

Key themes 2021

- Realm of light
- Unconditional love, limitless grace and triumphant mercy.
- Exposing the great deception of the DIY tree path.
- Time.

11th January 2021

Son, the fruit of the poisonous tree is toxic but its roots have infiltrated the whole of worldly culture and society, hidden from most of Our children's knowledge.

All that is considered normal everyday life in every culture is unrecognisable from Our original intention and this must be acknowledged if true restoration is to take place.

We cannot try to just make things better versions of DIY.

You have come to the correct conclusion that everything that has come from the source of the DIY tree path is unrestorable because it is independent from Our desire.

We will give mankind future choices that will affect the end.

Son, this is hard for mankind's ego to accept because man has used the creativity that comes from being made in Our image to accomplish all that is seen.

Technological ingenuity is no substitute for true creative reality where mankind and creation are in total harmony.

Restoration will remove all that is man-made and sourced from following the independent path so that only that which has been inspired by the tree of life will remain.

This process must be one of reconstruction and renewal, a creative renaissance that restores garden not city life.

Technology will not be man-made but organic and living in creative harmony where the frequency of all light will be restored to perfect balanced.

The living light Quantum Lumens will be harmonised to the sound of many waters that will be the voice of man that speaks the thoughts of God into existence.

Son, mature mankind were always designed to be gods but the false gods who usurped man's authority will have to be exposed, rejected and then restored to bring back true harmony.

The gods have hidden behind many guises so that humanity will worship them but all that is a deception that has trapped Our children in lost identity.

The light of true sonship is beginning to shine with the hope of true restoration to counteract the despair of the world as its systems fail and fall.

Vision Destiny 2022 – Session Two

The dawning of a new age of enlightenment where the light of truth shines brightly is being ushered in through the government of the sons of God who are revealing sonship.

As Our children are awakened to love consciousness to discover their true identity, which is found only in the tree of life, then creation itself will begin to respond favourably.

Son, only with the life and fruit that flows from the source of the tree of life can humanity become all that is intended to be as mankind made in our image.

The fruit of true being in rest must replace the work of doing that is poisonous to the soul of man, so that their true identity and relationship with creation and their status as gods can be revealed.

Only being at rest, living with gentle and humble hearts, can counteract the ego of a works-driven existence.

Son, there is creative beauty that has been inspired by Our image within mankind to be seen in the world but it is still less than Our intention.

Many things were created by the desire to bring Us glory and that is good and admirable but it is but a pale imitation and a shadow of what it would have been.

We must make a distinction between mankind and humanity as they have different fathers.

As I pondered all these things I engaged the Cradle of Life to brood over true creativity and I saw glimpses of indescribable organic creative beauty beyond my ability to express.

Only by brooding, cocooned in the thoughts and desires of the Father, can we hope to be able to call forth that which is not as that which is.

Son, you have discerned well, so abide and dwell in the creative light of Our thoughts that will truly inspire your creative being.

12th January 2021

Son, there are many dark clouds and each has its purpose, as you have experienced for yourself; but there are more encounters that are a continuation of the processes that you are in.

Some dark clouds express the processes of transformation that need to be in isolation as mystery for them to be successful, as in the separation and reintegration of your soul and spirit.

Some are places of safety, where the transformations can be away from the eyes of those who would hinder the process, as you have discovered in the restoration of the fallen ones.

These are places and processes but the most significant is the dark cloud within the realm of perfection, where you experience the creative light of Our being, face to face.

Son, now we invite you into the dark cloud of light within the created realm of eternity, as this process is key for the next stage of your maturity; but first you must encounter the fire stones.

As I reflected on this invitation, wondering what this stage could be, I set the desire of my heart on the fire stones.

The fire stones encounters have been key milestones on my journey to mature sonship.

Vision Destiny 2022 – Session Two

I stood before the throne of the Ancient of Days, where the Father gave me a large golden key and a scroll before beckoning me to sit next to Him on His left (which I thought was rather odd).

As I sat there, three very powerful and imposing angels stood around me and I felt very encouraged strengthened and emboldened.

They were Limitless, Liberty and Union, who I had met previously a number of times.

I looked at the scroll and it was a mandate for exposing the great deception; and the key would open the way for the truth to come into the light.

Inspired I got up went to the fire stones ,where the river of fire was flowing from the throne, and began walking down the 11 steps, remembering the encounters when the last two steps were formed.

I stood on the bottom step, with the desire to engage the dark cloud burning within me. I felt such passionate love burning in my entire being, transforming me once again, so I embraced the fire and rejoiced in such passion.

Suddenly, as I stood there, I was aware of the enormity of the task of writing the book to expose the great deception that was ahead of me but the task, daunting as it was, became sharply in focus.

In that moment I felt passionate about the book but also knew I was incapable of writing it in my current state, even with the key and the scroll that I had received.

That made me even more determined but also at rest.

I ascended the steps one by one very slowly so that each one could have its transforming effect on me.

Each step birthed a greater passion, almost painful in its intensity; this was another stage of ascension and part of the maturation process.

With each step I felt stronger yet more aware of my own weaknesses, so I knew that I had to become more dependent on the revelation of intimacy that I would be entering into within the dark cloud invitation.

As I ascended and stood on the last step I felt a great surge of energy.

This was energy at a level I had not experienced before in this way and form but it felt familiar and comforting.

I was enveloped in the frequencies of sound and light that were so breathtaking in their beauty that my whole being was spaghettified and swirled within the light, moving to the rhythm of the frequency.

I was and wasn't, all at the same time, as my whole being was charged with energy that I had never felt before.

It was like I was continually blinking in and out of conscious time-based existence.

This process felt eternal, as if my whole existence was phasing, moving in and out of eternity, my being energised with each cycle as I mixed in and out of God.

Vision Destiny 2022 – Session Two

I knew from my limited past experiences that I was encountering Perichoresis at a very different level of truth and reality.

Then abruptly it ended and I ascended into the created realm of eternity where I was standing before the dark cloud.

I waited patiently, knowing that although I had an invitation to enter, I had to let all that had just happened sink in and do its work.

The longer I waited, the more I knew that I would never be able to complete the mandate I had been given without what was to come.

Desire, to the point of desperation, grew within me yet my being was totally at rest. There was no striving: I was filled with love, joy and peace and totally content and satisfied like never before. I did not enter the cloud until later.

Following some debates around the US election with people online and in mentoring sessions, I felt that I was mandated to respond publically.

I had previously kept silent on social media about this issue, choosing to wait to see events unfold.

This was my Facebook response to the political deception surrounding the US election and the politicisation of the prophetic movement.

In light of the horrendous posts from Christians inspiring hatred-making death threats against prophets who have repented and against anyone that disagrees with their political views, I can remain silent no longer.

I am shocked by the deception so many seem to be living in, even amongst those in the mystic community.

As one by one their hopes are being removed and their fears realised, they become more in denial and more desperate, clinging on to the hope of President Trump's re-election.

Believing more and more wild conspiracy theories and falling deeper into deception.

It is time to wake up and get real.

The Father spoke to me plainly in November before and following the election that President Trump would not be re-elected in 2021 and I included those conversations in my Vision Destiny 2021 teaching series where I share my journals publicly.

I have no political skin in this game.

I believe that both the left and right wing of the bird, politically speaking, flew straight out of the tree of the knowledge of good and evil.

No political system is going to solve mankind's problems and no president or prime minister is going to be our saviour.

The only thing remaining after all the shaking of our man-made systems, including the political and religious ones, will be the Kingdom of God that will fill the earth.

I call for peace and reconciliation. There is no need to humiliate those who got it wrong because God is an unconditionally loving God with limitless grace and mercy.

Vision Destiny 2022 – Session Two

Yes there is a need for accountability if we publicly make statements that turn out to be false but we should hold our brothers and sisters accountable in a loving, respectful and honouring way.

We have all got things wrong and will undoubtedly all do so again, so we will need the mercy and grace of our brothers and sisters to help us bear our burdens at those moments.

We have all been deceived in our lives, believing things we do not now believe; and we are all still deceived in some areas of our lives - myself included - but there is no shame in that, as we are all on a journey of enlightenment, discovering progressively revealed truth.

I call for all my friends who have been embroiled in this deception, which is the work of the religious and political spirit agenda that Jesus warned us about, to take stock, go back to the Father with open hearts and minds and honestly ask Him to reveal the truth to you.

I do not expect anyone to believe me and I am prepared for the fallout from this post but please, please do not continue to go deeper into the deception of denial but come into the realm of light surrounding the Father to receive true enlightenment.

For those of you who become angry at this post, please ask yourself why, and what should be the appropriate response.

Jesus, as Prince of Peace and not war, called for us to forgive those who seem to be our enemies and pray for them, not shoot them or put them to the sword.

Please let's treat each other with love, honour and respect as we are all children of God, therefore brothers and sisters and part of His family, even if we disagree about issues and have different political or theological views.

I will remove any offensive or conspiracy-orientated posts and any that incite violence.

Blessings

Mike

All the so called dates came and went and none of the Qanon and prophetic movement predictions came to pass.

The political and religious spirit is very deceptive, so let's be careful about our motivations.

13th January 2021

Son, live loving. That will bring you to a place of peace where you can speak the truth in love to all those who need to hear the truth.

Only the real Truth can set Our children free - but only if they know it. And there lies the problem, as they cannot know what they have not experienced.

Truth and knowledge cannot be intellectually assimilated information, but experiences.

Those who have been hoodwinked into the darkness of deception sincerely think that what they believe is the truth and therefore are unwilling to back down as they see that as compromise.

Vision Destiny 2022 – Session Two

The issues that have been used to cause division and separation by the religious and political spirit are emotive in people and they are passionate about them because they think they reflect Our heart.

If they truly knew Our heart, they would not be open to division as they would have no enemies and no one to fight against.

These passions, if they incite anger and hatred, are not based in love and are not from Our heart.

Passion for causes has placed the importance of the cause above relationship and that is what causes them to see their brothers and sisters who hold different opinions to be their enemies.

They have been deceived into thinking they are fighting against flesh and blood and that they need to be at war with those who they see as the perpetrators of crimes.

If they knew Our heart for the restoration of all things, they would be ambassadors of reconciliation, not division, strife and enmity.

The way to discern the truth is through the lens of love and an opposite spirit to division.

Their passion for their causes has caused them to personalise and therefore personify their causes with individual people who they see as being against them and they become the focus of their anger.

The strongest emotions are raised by the pro-life agenda as they confuse Our desire for immortality to mean that We hate abortion and therefore all abortionists and those who have had abortions.

Son, you know the Truth, that hate is never an emotion that We feel as the oracles of Our heart are always passionate towards Our children, irrespective of what they do.

We have as much love and burning desire for relationship with the perpetrators as with the victims, as they are all living in lost identity.

They do not understand that We are never taken by surprise and know all things, including the date of Our children's birth and, unfortunately, their physical deaths.

All these things are factored into their eternal destiny and yes, they can be changed and corrected from the eternal perspective.

You have seen what happens to all who are miscarried, aborted or die in childhood: they are nurtured and perfected for the fulfilment of their destinies.

Sadly, passion for the unborn life is often directed as anger towards those who are vilified and made enemies.

This is not, and never will be, Our heart.

Son, you will have to tread very lightly over this issue and be very gentle in the way you challenge this cause with the truth that all lives matter to Us, not just the unborn.

All are victims in some way and everyone needs love and compassion, whoever they are and whatever they have done. Never lose sight of that, but be careful not to make enemies of those who disagree with you.

Vision Destiny 2022 – Session Two

All lives matter to Us but We never make enemies of those who take life, as that would compromise who We are.

We will not remove the right for Our children to choose and make their decisions, as that would make them slaves, but We are actively involved to bring good out of every wrong choice.

The truth is that only unconditional love and limitless grace can restore all things and that is who We are and We are overflowing with mercy in lovingkindness.

Son, there has to be just as much of an awakening to love amongst those who already believe in Us as in those who do not yet believe.

Feel how We feel, think how We think, see how We see by actively engaging within Us within you, so that you can be moved by what are the true oracles of Our heart.

Tomorrow you can enter into the dark cloud, as the Father said.

I became aware that my spirit was still standing before the dark cloud in the realm of eternity.

14th January 2021

I stood looking at the dark cloud, a cloud like none other that I had seen or entered. It was intense but also seemed to be a living thing.

I felt apprehensive as I watched it pulsating, swirling, shifting, like it was ready to engulf me.

Son, you have your invitation: there is nothing to fear but this will bring greater changes than you could ever imagine or think.

So I took a step and the cloud moved towards me, engulfing me in complete darkness that went through every particle of my being.

The deeper the darkness, the more intense the light that filled my mind.

It was as if I was totally cocooned in a darkness which was in reality the brightest light.

My senses were heightened, my consciousness enlightened with a light so bright it matched the depth of darkness that I was in.

The darkness was the light, the very light of God that was truth itself; and then one by one I saw the darkness of deception overwhelmed by the pure creative light of truth.

All of the deception that I was wrestling with in writing the book was transformed by that light so I could see the truth of who and what was behind it.

I saw figuratively the tree of the knowledge of good and evil engulfed in the purest of light that exposed its agenda.

I saw the great deception of “I will” that has enslaved humanity. It was like a mass of living darkness, as tendrils attached to all humanity and all that we have made in independence.

I saw the light of truth overwhelm each tendril of darkness until each one retracted, until all that was left was one dark ‘I’ that itself was then consumed by the light.

Vision Destiny 2022 – Session Two

My mind, a consciousness that had been shattered, splintered by the darkness like everyone else's, was being bathed in the most amazing light.

Each lie, like a splinter I had learned to live with, was consumed by that healing light of pure truth and I knew that I knew that all I had been wrestling with was not a conspiracy theory but a conspiracy to hide the truth.

Mankind has been totally deceived into living a lie: an eschatological lie has been accepted as a truth that promotes the Luciferian agenda of one world government who will try to make a name for themselves.

That name has been called many things - Babel, Egypt, Sumeria, Babylon, Greece, Rome, Britain, Russia, Germany, Spain, Israel, Zion - and was now revealed as Lucifer.

I could see the depth of deception that could cause men to murder millions of innocent people to fulfil their objective.

Pharaoh, Stalin, Hitler, and the Zionist elite behind the holocaust, willing to sacrifice millions, those slaughtered to hide the truth behind the great deception.

The bright and morning star, the light that is the false sun and son who has deceived mankind and most of Christianity into supporting his agenda to be worshipped as God.

I could see more clearly now, so I did not have to water the deception down to make it more palatable or tone it down for fear of the anti-Semitic accusations and reprisals.

I heard the comforting voice of the Father gently say: "Speak the truth that you now know in love to bring the great deception into the light."

The dark cloud receded, drawing back from me, leaving me exhausted but inspired; but now I know I can write what I have been hesitant to write in the knowledge of what I had seen.

Rest is the key to restoration, revelation and creativity.

Start to focus on your breathing, slowing it down, and start thinking of the name of God, YHVH.

Breathe in deeply the unconditional love of the Father.

Be still and feel loved.

Be still and know that I am God.

I am love, I am joy, I am peace, I am truth, I am limitless grace, I am triumphant mercy.

Invite love, joy and peace to flow in you and through you to create an atmosphere of rest around you.

You are in a safe place.

Start to think of an open heaven and set your desire upon engaging the Father's heart.

Engage the realm of light to experience the light of love and truth at deeper levels of being.
