

Vision Destiny 2022 – Session Seven

I am going to review some of the things that were key in 2021

I will share my journals that will include:

What God said in 2021

What God did in 2021

What does that mean for 2022?

Key themes 2021

- Realm of light
- Unconditional love, limitless grace and triumphant mercy.
- Exposing the great deception of the DIY tree path.
- Time, Union and cosmic dimensions.

18th February 2021

Son, continue to release the light and the frequencies that will draw Our children out of the darkness into the light of truth so that they can find their true identity, position and destiny.

Creation is waiting for the sons to be revealed in their glory to be set free; but Our children must be free first and that is the priority.

There must be a bright light that shines in the darkness to show the way back home to the origin of Our desires and thoughts.

Only face to face encounters can reveal the fullness of identity that produces a state of being within I AM that I AM.

Be diligent and keep focused on the priority by paying close attention to the rhythm of Our heart and that will direct you, guide you and move you.

The knowledge of the heart is pure and true knowledge, unpolluted by your own understanding.

If you stay close to Our heart you will receive the wisdom and understanding that are associated with the truth.

Sadly, many do not dwell here but only visit so they receive knowledge but twist it to their own understanding and frame it by their own belief systems.

So much knowledge has been given but few stay close enough to be able to use that knowledge effectively for the purpose it was given.

The knowledge that We have given many times ends up being used to create identity and promote self so it becomes polluted and mixed with deceptions of the wrong tree.

All truth comes from Us as We are the only source of truth; but most truth is hidden under the deceptive coverings that have come from independent understanding within the heart of man.

Truth is hidden within lies and lies masquerade as truth so that most of Our children remain controlled by the agenda of darkness without even knowing it exists.

Following that which appears good from independent knowledge is still evil because it has its own independent, selfish agenda.

Evil has the appearance of being good to those who are being deceived.

Vision Destiny 2022 – Session Seven

Evil is the slavery of independence.

Unconditional love is the only hallmark of the genuine truth that originates from within Us but be aware that love which is not unconditional is the sign that the truth has been polluted.

The passionate causes that Our children have, that originated within Our heart, are easily polluted when there is a lack of love, wisdom and understanding.

The end can be used to justify the means; and when that state of mind exists, you know self is involved and deception has already twisted the truth.

So many of Our children have succumbed to deception even when they have been seeking to fulfil Our desires because they have not sought Our kingdom first.

When a mission and ministry takes priority over relationship, deception is not far behind; and then trusting in their own understanding is the result.

Many are deceived by the passions of their own hearts as their identity is tied to their mission.

Son, it is vital to stay in the light, close to Our heart, so that the motivation to act is always unconditional love and limitless grace.

Lovingkindness will always be the way to outwork Our desires; all other emotions such as anger, fear, frustration, pity, empathy and injustice will make anyone susceptible to deception.

Focus on releasing the light, not exposing the darkness, as that produces positive energy. When you focus on attacking the negative, you will produce a negative destructive energy that is counterproductive.

Only by operating in the opposite spirit to that which is an obstacle can that hindrance be removed safely.

The opposite spirit, when facing anything from the tree of the knowledge of good and evil, will always have an unconditional love motivation at its core.

Never seek to fight fire with fire, use water; in fact never seek to fight at all but always seek to overcome with true love so that restoration is the result.

There can be no warfare, even if there are biblical analogies that have been used to promote that concept: those analogies were there only to encourage perseverance, not aggression.

You can be an army but it must be an army which conquers and overcomes by love not violence, intimidation, fear or strength of arms as that only causes escalation and proliferation.

Only unconditional love can truly win in the end, as it will always seek reconciliation and restoration, not victory.

Be careful not to win an argument or debate but lose a friend, as competition and conflict are always counterproductive.

Vision Destiny 2022 – Session Seven

22nd February 2021

Son, the glory of sonship is being unleashed to increase the light that will create a global awakening to love; and that will change the very fabric of creation.

When Our children discover unconditional love and begin to feel its impact then societies and cultures will transition away from an economic foundation to a wellbeing-based value system.

The personal must drive the corporate, not vice versa.

The responsibility of sonship for creation will begin to replace the selfishness of the desire for independence which is the foundation of most societies.

Nationalism will be replaced by true globalism based on family.

Love for each other will end the conflicts that arise from competition as Our children begin to become more secure in their identity.

The global control systems will begin to fall one by one as the deceptions of the origin of independence is revealed.

The light of love and truth must shine brightly to awaken Our children to the truth of who We are so that they can become free from the delusions they have been living in.

Son, only love can overcome the darkness with light and only love can overcome the deception with truth; so focus on living loved, loving living and living loving and be a light in the darkness.

Those who think they are representing Us by following various causes are becoming more extreme and their agendas are taking them further from love and truth.

Those who are unwilling to embrace the truth of their deception will begin to become more susceptible to even greater conspiracies and manipulation.

What you have experienced in the last few days from those who think they are representing Us is just the beginning; there will be even more extremes of behaviour as they descend into greater delusion.

The global nature of the shifting and shaking is beginning to expose the true motives behind the agendas that have twisted and manipulated their passions and have blinded them to the truth.

Do not confront or argue with them as they will not be able to see what is plain and obvious to you; and do not allow them to use your platforms to proliferative their delusions.

First it was the coronavirus conspiracies and now it is the vaccine conspiracies; and in between, the political conspiracies that they hoped would end abortion, trafficking and many other issues.

When you see people who are normally loving resort to emotional outbursts and irrational logic, you must not give them a platform for their views.

Love them by not confronting them and trust Us to deal with them.

Son, always act with lovingkindness but do not bow to the pressure to get personal or confrontational as that will just entrench their position further.

Vision Destiny 2022 – Session Seven

Do not allow the political or religious spirit to manipulate you into division, competition, conflict or tribalism just keep speaking the truth in love for the positive and not against the negative.

Love wins because love has already won and there will be an awakening to unconditional love and the light of truth will eventually overcome the darkness of deception and lies.

23rd February 2021

Son, brood within the Cradle of Life as you bask in the truth of the light of perfection.

The glorious light from the Father's face inspired my thoughts and the light of truth filled my being so I knew that I knew.

Shifting my focus to the Cradle of Life, I engaged the heart of God: completely at rest, yet moved and motivated by the desire that the truth had created in me.

I began to vibrate and resonate with such love, passion and compassion that I became alive, energised with creative potential.

My being was focused on just one all-encompassing thought that I was so pregnant with expectation for that I thought I might explode.

My whole being was consumed with anticipation for the great love awakening that will change the whole of creation.

The frequency of that momentous thought became transformed into the living word of the sound of many waters and my destiny.

That amplified voice began to resound with creative intention, so much so that this reality was already in creative existence when I engaged with the Chamber of Creation.

The living light began to dance with excitement and the energy increased to such an extent that I felt as if it already was, such was its creative force.

As the quantum moment of creation expanded before me I saw the glorious living light, the building blocks of all reality, stream from the portal to form that reality.

That creative moment had more energy, life and light than I had ever experienced before, as unconditional love is the Father's glorious obsession.

An awakening to unconditional love, filled with such limitless grace that nothing will be able to stop its restorative power, but –and there was a 'but', which in itself seemed impossible – there needs to be a oneness of heart, mind and purpose within the sons of God to focus Our intention into reality. There are many that are being side-tracked by lesser or self-created agendas.

Son, use the governmental groups to become part of this creative force to form the reality of the great love awakening and other desires of Our heart.

In the present world reality of deception and darkness, the light of love is the only thing that can awaken Our children to the truth of their present slavery to the DIY tree agenda.

Vision Destiny 2022 – Session Seven

Focus your love towards those of Our sons who are becoming more entangled in the deceptions of conspiracies because their passions for certain issues have blinded them.

Their obsessions for issues they have drawn from Our heart has made them susceptible to deception because they have created their own independent mandates.

What you have observed amongst your connections is but the tip of the iceberg and this deception runs deep.

So many are so blinkered by their own obsessions that they have lost perspective and are the pawns of the very systems they want to see dismantled.

Son, keep absorbing and releasing the light of love and truth into the darkness of the deceptive conspiratorial delusions so many of Our children and sons are trapped in.

24th February 2021

Son, restoration is a progressive process, as you have experienced in your own journey to enlightenment. Each encounter has multiple layers of revelation that unfold as you mature in character and in the ability to love unconditionally.

I shifted my focus to the realm of light that I abide in and mused and pondered what the Father had just said about my journey.

The light of truth that was streaming from facets of their face like a data stream of memories that illuminated my mind.

Memories of progressive revelation focused my attention, as I recalled those precious remembrances of previous encounters that took me deeper into truth.

The fire stone encounters that have always been life-changing and responsible for the many challenges I have faced over the last 13 years.

That is where the latter part of my journey began in 2008 with encounters of love that started to reveal the true character and nature of God as love.

That first love encounter was the catalyst for my journey of deconstruction that would later cause so much cognitive dissonance as my experiences of love challenged my belief about P.S.A. and eventually hell as E.C.T.

Those theological doctrines that had programmed me to believe in a God of judgment and wrath who would consign the majority of creation to eternal torment and separation were melted away and consumed by love.

Love encounters revealed the oracles of the Father's heart that showed me how limitless and unconditional love is and therefore by definition who God is.

I remembered the encounters not just as memories of experiences but began to relive those precious and life-changing engagements at a level only now possible because of my expanded consciousness towards love.

Vision Destiny 2022 – Session Seven

A love so strong that death itself could not defeat it and that is constantly at work to overcome every negative thought and action within everyone at every moment.

As I discovered under the waterfall, a love so powerful that it is unconditional towards all created things, treating all without prejudice.

The victim and the victimiser, the abused and abuser, trafficked and trafficker, loved equally: a concept that so challenged my idea of justice and fairness, but I soon realised that justice and mercy are synonymous terms to a loving Father.

I remembered how hard it was to accept that all of creation could be restored, including the fallen angels and dimensional beings, but all my objections were consumed one by one in my encounters with the fire of God's love.

My journey to discover how limitless is God's grace towards all and everything because love can be nothing but unconditional or it is not love at all.

My journey to discover how to live loved, love living and live loving that transformed my understanding and experience of legalism, obedience and works-based performance-orientation that had kept me trapped under old covenant law mindsets.

My journey to find the true rest of love, joy and peace within an expanded consciousness that enabled multidimensional living with exponential energy production.

That journey took me through the cosmos, reuniting me with creation itself, where I engaged the harmonious music of the spheres, spaghetti-fied to be at one with creation, experiencing no absence of light in the beginning and reconnecting with the Elementals.

My journey to discover true creative reality that I could choose aligned with the Father's heart, where desires became thoughts and thoughts became sound frequencies that excited the living light grace strings to form reality.

I discovered the Cradle of Life, the waterfall of the sound of many waters, the chamber of destiny and the chamber of creation and remembered the groan of creation emanating from the black holes.

The progressive journey to be free from the entanglement to time where I learned how to expand and contract time, bend time and space, journey in time, expand quantum moments, translate, translocate and be multidimensional.

The journey to discover portals and gateways of spirit, soul and body, to eventually experience the Merkabah, dimensional portals, energy gates, and energy production within the core of my innermost being.

My journey to discover the state of being that is my true creational identity within I AM that I AM and to know I AM that I AM is in me.

Vision Destiny 2022 – Session Seven

My journey to discover the nature of government in love from fire stones to judgment seat, fiery altar, holy of holies, four faces of God, order of Melchizedek, oracles of the Father's heart, circle of the deep and the twelve chancellors' houses and thrones.

My journey beyond beyond continues to expand me, enlighten me, transform and restore me to sonship and I am sure that there is so much more to come.

Multiple threads of experiential encounters, intricately woven together to create a wonderful tapestry of my journey to love, enlightenment, sonship and restoration.

A wild ride of exploration and progressive revelation, full of ups and downs, twists and turns.

I AM that I AM fearfully and wonderfully made by the passionate desires and vast and amazing thoughts that my loving Father has about me that enable me to be me.

25th February 2021

As I stood in the realm of light in perfection, my desire was to go deeper and further into the light of truth within the Father's heart.

Son, you have been faithful with all the quests that you have been tasked with and have shown us the motives of your desires are pure, without agendas, so come.

I did not know how, of course, so I just walked towards the light of their face until I was absorbed by the light into another light, which felt different yet strangely familiar.

The Father's thoughts of love flooded my senses to the point of overload, yet I was in a state of being like never before.

All that I was shown yesterday regarding the progressive nature of my journey was now put into a different context which was a deeper mystery.

I felt the bigger picture was all around me and I saw the connections where all the pieces fitted together into a coherent whole.

Here in this state of being, my journey seemed small in comparison to the whole, yet I knew that mine and each other's part was still vital to restoration as a whole.

My progressive journey to restoration was mirrored in so many others on parallel tracks, all similar yet so different.

I felt comforted that I was not alone but part of creation and then I began to connect with those others at a level of oneness that I never could have imagined.

I opened my heart and was filled with joyous wonder as I began to engage in multiple simultaneous cardiognosis experiences.

There was no need to be guarded or seek to protect myself within this wonderfully peaceful state of union.

The connections were of heart, mind and memory that brought such joy, comfort and peace, as I discovered the true nature of family that far surpassed any earthly experience.

Vision Destiny 2022 – Session Seven

This was a brotherhood, a deep connection within I AM that I AM, that was beyond beyond yet again and was so precious and beautiful.

This was a state of enlightenment, being in union and connected by a oneness of heart, mind and purpose with those with the same restoration intention.
Similar to the mind of Christ experience but also deeper and more emotional.

I felt their journeys as they felt mine: “we were” is the only way I can describe it but it was wonderful and so beyond any bond I had previously felt.

Son, this is the reality of being that we intended for all things; and this is being restored, as all things were never intended to be separated or independent of each other.

I felt so inspired and satisfied that I never wanted to be anywhere else or be anything else other than in this mystic union.

Rest is the key to restoration, revelation and creativity.
Start to focus on your breathing, slowing it down, and start thinking of the name of God, YHVH.
Breathe in deeply the unconditional love of the Father.
Be still and feel loved.

Be still and know that I am God.
I am love, I am joy, I am peace, I am truth, I am limitless grace, I am triumphant mercy.
Invite love, joy and peace to flow in you and through you to create an atmosphere of rest around you.

You are in a safe place.
Start to think of an open heaven and set your desire upon engaging the Father’s heart.
Engage the realm of light to experience the light of love and truth at deeper levels of being.
