5th May 2021

Son, mankind was made in Our creative image to steward creation with us as coheirs to learn how to establish and expand Kingdom governments and maintain peace and harmony.

Our children, as Mankind, were made from created material to form a bond and connection to creation itself but although the possibility of that connection still exists it has been lost along with mankind's identity.

When mankind renamed itself humanity, based on the humanistic knowledge of the DIY tree, it fell even further from Our original intention for its quantum creative mandate to make a name for itself in independence from Us.

When mankind lost their identity they also lost their creative abilities, relying on traded fallen angelic and dimensional technology rather than the creative power of consciousness.

Humanism is the result of independence; and the great Luciferian agenda has deceived Our children into losing their creative identity while simultaneously striving to discover their identity and purpose through their own self-effort and performance.

Mankind has been enslaved into a performance-oriented desire to prove itself by independent humanistic advancement.

Son, because we placed eternity in the heart of all Our children, there is the desire to reconnect with Us and return home; but that desire has also been twisted to invent religions based on more dead works and performance.

The religious and political spirit, which are the humanistic front for the Luciferian agenda for a counterfeit kingdom, have manipulated mankind into establishing its own humanistic political and religious systems.

Whilst glorying in their own technological achievements and advancements, humanity has lost its heart, true identity and creative purpose and abilities.

Humanity is but a puppet, with others pulling their strings to accomplish the deception of the Luciferian agendas of which they are not coheirs but slaves to the control systems.

Vision Destiny 2022 – Session Sixteen

Our goal and intention was for the ascension of mankind to mature sonship so all Our children made in Our image would eventually become ascended fathers themselves.

Son, We are restoring the creative abilities of those We trust to not act independently for their own agendas as forerunners for all mankind.

We did not complete creation in the beginning it was good but not finished so Our children could expand and complete what We began.

Creation is waiting and longing for its freedom from decay so it can be completed in harmony and peace; but that has always been dependent on the maturity of Our children.

Son, you are just beginning to grasp your creative potential, and that has been a stretch that is designed to awaken you to your full potential and expand your consciousness.

You cannot go back, only forward, so it is vital that you continue to abide in the light matrix of Our intentions in the realm of perfection.

You can engage history and deal with the past that affects the present but you cannot change it.

Even though you have been enthroned in the realm of eternity to converge the eternal now with time, it is the creative realm of light where your creative potential is developed as it is connected to creation more closely than with eternity.

Son, there are other realms that are incomplete and remain in the shadows, waiting for the creative light of sonship to illuminate them into reality.

We are not holding Our children back from their intended purpose: they are doing that themselves by identifying themselves as independent humanity, and not mankind that is made in Our image and likeness.

The great deception which offers advancement through humanism has enslaved Our children in a lost identity which drives them to achieve through evil and not love.

The hardship, toil and heavy labour that is evil is the result of independence and slavery to the self-effort, self-centredness and self-promotion that serves the Luciferian agenda.

Humanity is seeking to advance in independence but in reality it is being deceived into serving the agenda of a false god.

Mankind rejected a loving, benevolent Father to become humanity, enslaved to a malevolent, harsh taskmaster who is only using them to further its own agenda.

Son, Our intention has always been for mankind to be free and mature in the union and relationship of oneness and that is what is behind our desire for the restoration of all things.

Vision Destiny 2022 – Session Sixteen

6th May 2021

In a Restoration government ascension, I entwined in the light matrix of the Father's intentions; and when I engaged the earth shield, those intentions were directed by Wisdom, Knowledge, Understanding and Prudence, who surrounded me out to the cosmos.

The light intentions formed a connection that entangled me to the constellation of Cancer; and, like engaging a wormhole, I was instantly there when my choice, aligned with the intention and the resonance, energised the connection.

I engaged with the guardians around the fiery portal, which was glowing; they gave me permission to enter, and when I did, I was drawn to group of golden portals connected in formation like the Merkabah.

Some beings emerged that I recognised as the Servici who we meet before and who committed themselves to Our service.

They informed me that I needed to help those who were in deep need. Their countenance and frequencies indicated a sense of urgency and desire.

They directed me to another group of portals that were giving off a strong sense of dread, foreboding and deep loss; and although I did not enter, I tangibly felt the darkness.

I released all that I had encountered in the light and connected that place with the Father's heart, where I was still entangled, and a stream of unconditional love, limitless grace and triumphant mercy entered the central portal.

I felt a disturbance within and eventually a faint but encouraging response that the light of love and truth that had entered had produced hope in that dimension.

Again I felt like I was a straw and a giant pipeline was needed, as there was such darkness and despair that it would require a union of many hearts to overcome that darkness with love's light.

The Father also revealed that there was a system of connections, like a network of veins and arteries, like a cosmic circulation system, that was blocked.

When we reengaged, the being Time appeared. I had met it before but this was new to the others.

Time declared again, I am for you not against you; offering partnership but indicating that our attitude, vocabulary and thinking needed to change towards it.

Each of us asked for forgiveness for our negativity towards Time and severed the connections we had made with time and aging, not having enough time, losing time, time running out, connecting time's passage with death etc.

Time offered to partner with us so the limitations and restrictions in our minds to past, present and future would be removed so we could access everything across space-time.

All sorts of possibilities and opportunities began to form in our minds for this partnership with Time and a great sense of excitement and anticipation was activated within us.

Vision Destiny 2022 – Session Sixteen

There were beings composed of angels and the cloud of witnesses that symbolically held hands across space-time to indicate that we could engage it.

We engaged the circulatory system at the blockage points and began to expand to force the vessels open, like inserting a stent.

There seemed to be a lot of energy stored up that began to flow strongly, as if it was being pumped by the Father's heart in time.

It was like the blood of Jesus carrying the intentions of the Father's heart, as anointing was being pumped through this system of networks to the constellations and dimensions.

We thanked and honoured Time for partnering with us and there was a sense of rejoicing that something lost was now restored.

Son, Our sons are beginning to rise up into their positions of responsibility to steward the restoration of all things in some of the realms and dimensions of creation.

As the restrictions and limitations on the minds of the sons of God are removed and consciousness is awakened and expanded, creation will begin to respond even more than at present.

Son, continue to release the call and frequency of the blue light of destiny to draw those willing to accept the responsibility for creation's stewardship.

For many, the cost to pursue their destiny is too great, as they have experiences of heavenly encounters but they have not embraced the transformation these engagements have offered.

Many have recoiled at the level of commitment needed to embrace their identity and position and have rejected the governmental aspects of being a son of God.

Son, do not be disappointed as they have not been untethered from their wrong thinking about time, so have not learned to work with time creatively.

Most are still living with time constraints and do not yet believe they can expand and contract to enable them to fulfil their destiny.

It is important that Our sons learn to partner with Time effectively so they can be free from their restrictions and limitations.

Those who have enjoyed the heavenly experiences but who have not connected face to face and heart to heart with Us are those who have not yet embraced restoration and its implications.

Only experiencing the oracles of Our heart towards creation will create the passion and desire necessary to overcome the inconveniences and produce the perseverance needed.

The revealing of the sons of God to creation is not an event, but a long process of maturity that requires much transformation and metamorphosis.

The only way to become who you are is to go through the chrysalis of restriction and the struggle to emerge to become as beautiful and free as the butterfly.

Vision Destiny 2022 – Session Sixteen

10th May 2021

Son, the restoration of all things is the desire of Our heart: it is the big picture of creation that the 'all things' refers to.

All the little things that Our children may desire concerning their lives, marriages, financial investments and businesses are not part of the big picture; but there is a degree of legislation that an individual can do, if it is in alignment with Our big picture narrative.

We desire to bring good out of every moment of Our children's lives because We are good, and that is consistent with the bigger picture narrative; but how We accomplish that may be very different from what Our children would do themselves.

We constantly adjust the narrative to ensure that everything Our children do will ultimately not affect the big picture of restoration but everything becomes part of the story of restoration.

Our children's plans and desires, when not aligned with Our heart or motivated by independence, often fail; but that does not change the bigger picture, as those things are purely temporal and have no eternal value.

Son, all relationships, including friendships and marriage, are not eternal: only Our relationship with Our children and creation is eternal, and that is why all things that We created and intended will be restored.

Son, you are an overcomer so be passionate for what you believe in and do not be passive; but do everything in love, honour and respect.

Our children continually do things that have negative effects on each other and that is why forgiveness is at the core of unconditional love.

We hold nothing against anyone or anything We have created and have already brought about reconciliation so We desire that you live the same way towards all things that We have created.

We desire all of Our children to be responsible for creation as coheirs but that requires that they are oracles of Our heart and speak with Our voice.

To become an oracle requires a face to face relationship of restored innocence and identity and that can only be accomplished when you abide in the light realm of perfection continually.

11th May 2021

Son, it is time to strategically target the earth, the atmosphere and constellational dimensional portals with frequencies of hope to awaken creation to love.

To be able to do this effectively you need to engage the Council of Guardians and Time to create the strategies needed to facilitate the restoration of all things agenda.

Hope's frequency will stimulate the belief necessary for an awakening, as it will lift creation out of its bondage to inevitable decay.

Decay and entropy will be replaced by restoration, increase and expansion.

Vision Destiny 2022 – Session Sixteen

The great deception has used the fear of judgment and punishment to trap creation into the belief that corruption and decay is its fate because of the lie that it is independent and separated from Us.

All division and separation is a fabrication to deceive and create the fear that causes resignation to inevitable destruction.

We are creators, not destroyers, and Our intention is the restoration of all things; but for that to eventually happen, there must be an awakening that reveals Our true nature and desires.

The religious mythology of an angry god who needs appeasing by sacrifice, pain and loss must be exposed as the lie that contradicts the reality of reconciliation.

All creation has been reconciled from the beginning and separation is an illusion and delusion to promote independence.

Son, as oracles of Our heart, mankind has been given the responsibility to be coheirs of creation with Us; but humanity has been deceived into thinking that it is an independent tyrant with the right to control and dominate.

There is an awakening taking place to restore humanity's identity back to mankind, to come to the realisation that it is made in the image and likeness of the Creator.

In spite of all the division, competition, conflict and tribalism that has kept mankind from its true identity, union, covenant, peacemaking and family will overcome because unconditional love wins through limitless grace and triumphant mercy.

The love awakening transformation is taking place and mankind is throwing off the shackles of humanity's restrictions and independence.

Relationship is being restored between all things that have been falsely separated: for some of Our children that is between them and creation; for others between them and others; and for some between them and Us.

What is certain is that We are behind all reconciliation and restoration and whatever the order it takes placed in, it will eventually result in the union, harmony and oneness We intended from the beginning.

Son, do not allow what is taking place in your own situation to deflect you from your restoration of all things mandate, as however painful things may be in the present, they are only temporal.

The joy you have found in Us is far greater than the sadness of the present, so stay in the rest of living loved and ensure that you live loving.

You will need to live in constant forgiveness so that you do not lose your rest and give room for disappointment to make your heart sick.

When you have a mandate for restoration, it is hard to accept when people choose separation rather than reconciliation.

Sadness is temporary, but joy is eternal and rejoicing will return; so keep your focus on the union you have with Us, and you will be comforted by Our lovingkindness.

Vision Destiny 2022 – Session Sixteen

Son, We love you unconditionally. Rejoice in that truth and be mindful of the purpose and goal of restoration.

Rest is the key to restoration, revelation and creativity.

Start to focus on your breathing, slowing it down; and start thinking of the name of God, YHVH.

Breathe in deeply the unconditional love of the Father.

Be still and feel loved.

Be still and know that I am God.

I am love, I am joy, I am peace, I am truth, I am limitless grace, I am triumphant mercy.

Invite love, joy and peace to flow in you and through you to create an atmosphere of rest around you.

You are in a safe place.

Start to think of an open heaven and set your desire upon engaging the Father's heart.

Engage the realm of light to experience the light of love and truth at a deeper levels of being.
