26th May 2021

Son, you can let everything go and put your trust fully in Us as you seek first the kingdom and choose the reality that aligns with Our heart and your destiny.

You cannot choose a reality that forces or manipulates others to bend to your will, even if it is Our desire, as We have given all things the ability to choose.

It is important that you do not try to manipulate situations and people, as that is control.

Son, we allow Our children to choose even if those choices are not wise: you must do the same and trust Us to bring about good in your and their lives.

Everything will be woven into the stories that create the narrative of the ROAT as Our lovingkindness could do no less than good.

In a number of government group encounters we have been engaging the tectonic plates of the earth, releasing heavenly oil to reduce friction between the plates.

We discovered a void where there has been an absence of the light of sonship, creating a vacuum filled with darkness.

In those voids there is an order of fallen angels whose function it is to cause devastation both to the earth, through earthquakes and eruptions, and to man by the destruction of lives, crops and livestock, and property.

Devastation, Disaster and Destruction.

We discovered that the original function of those beings was preservation, conservation and construction, so not only do they promote devastation but there is an absence of preservation and conservation.

Conservation - The act of preserving, guarding or protecting; preservation from loss, decay, injury, or violation; the keeping of a thing in a safe or entire state; as the conservation of bodies from perishing; the conservation of the peace of society; the conservation of privileges.

The responsibility to work in cooperation with man for the preservation of life, species, natural balance and harmonious ecosystems has been twisted to create devastation through what are wrongly known as natural disasters or acts of God.

Vision Destiny 2022 – Session Nineteen

These fallen beings have corrupted the elementals to work against man and each other and that has resulted in chaos and disharmony.

Humanity, under the influence of the DIY tree path of independence, has been deceived into abusing its authority over creation, cursing it rather than blessing it.

As the sons of God are awakening to their identity, the truth is being revealed; and creation is responding as restoration is taking place.

The restoration of those fallen angelic beings is tipping the balance to accelerate the shift; and the earth and the elementals are awakening also.

As those restored beings participate in the earth shield, there will be an even greater global awareness and awakened consciousness to the responsibility to steward creation.

Son, Our government through mankind is responsible for the restoration of peace and harmony to creation, not to create war and conflict, because the power of unconditional love is Our primary weapon.

We have limitless grace at Our disposal, and an abundance of triumphant mercy, so love has won and will win and the restoration of all things will eventually be accomplished.

Legislate for a global awakening of consciousness to unconditional love that will reveal Our true nature to Our children and through them to all creation.

Son, trust in the power of Our love to overcome anything that is an obstacle or a hindrance to the restoration of all things.

27th May 2021

As I opened my heart to the presence of God within, activating the Merkabah with the spiritual energy of heaven by surrendering myself, spirit, soul and body, to union and interdependence, I felt a deep sense of acceptance.

Facing rejection, betrayal and disappointment is never easy but denial is never the answer; so the acceptance I felt from the Father as a son filled me with love, joy and peace and my whole being was at rest.

Son, live loved, and rest in the knowledge of Our acceptance, and you will still be able to rejoice and be grateful that life is worth living even when people hurt you; but you must choose to live loving, as forgiveness is at the heart of true rest.

Son, when you know you are loved unconditionally by Us you can overcome anything with the same love you have received by freely giving it.

Unconditional forgiveness is the power of love in action: so receive it and release it.

It is okay to rest in Our arms of love as you abide on the throne of grace which is limitless; and let Our compassion and lovingkindness sustain you as We heal your heart.

We can give you what no one else can, so abide and allow us to comfort you.

Healing is a process that is greatly enhanced by choosing to forgive continually so you can focus on the positives and generate a frequency of rest to heal in.

Vision Destiny 2022 – Session Nineteen

So many of Our children suffer pain and heartache in life because they are part of humanity, who live in independence. We are still at work in midst of that pain to bring good, but many do not allow it because they do not forgive.

Son, forgiveness releases the oil of joy and gladness, which is a healing balm, so be an example of this yourself in the difficult times you are facing.

Many may unfairly judge you but that is when Our acceptance will be important for you to rest in, as We support you through the difficult and painful times again.

Son, this is your opportunity to put into practice what We have been teaching you by living loved, loving living and living loving; and so staying in a state of rest.

7th June 2021

Son, rest and wait in Our presence in the light of love and truth; this is where you are learning to be who We desired and made you to be.

Our desires formed you in Our image to be creative as We are but you must be at rest to be able to be.

The deception of lost identity has trapped Our children in a repeating cycle of trying to be by performance, independently of Us.

Seeking to become who you already are by works is a heavy weight to bear and makes Our children weary and exhausted by their self-effort.

Son, when you learn to fully rest in love's light and truth you will discover the full scope of the vast sum of Our thoughts and desires for you.

Every thought your mind is renewed to brings about an alignment with true reality and an expansion of consciousness to what is possible.

As I was resting, the light began to form into an intricate matrix of thoughts around me and all I had to do was reach out with my mind to engage a thought.

As I chose a thought, the light of truth exploded and my mind was connected with and at one with that truth.

Each thought was harmonious with my being and did not disturb my rest but seemed to enhance it until I touched a thought that jarred.

I was disturbed by that thought and could not grasp it. Shocked, I reached out to the Father, who gently smiled.

Son, you have reached the boundary of your current level of maturity and that is why you could not believe what was beyond; but you will be able to go beyond if you do not strive.

My mind was drawn to a familiar and comforting point of light that, as I engaged it, cocooned me with the truth of creation's restoration.

There was no curiosity as there would once have been, as I just rested in the light of love, feeling completely accepted and not judged.

The possibilities of a restored creation and my union with it reconnected me to all my previous experiences with creation in a quantum moment that captivated my being with pure unadulterated joy.

Vision Destiny 2022 – Session Nineteen

I was overwhelmed by the wonder and awe of union and oneness, part of the symphony of the music of the spheres.

Light and sound frequencies danced within my being in a moment of such beautiful, blissful harmony that I was transfixed.

The oracles of the Father's heart swirled around me, weaving in and out of my being, their sounds alive with emotions of anticipation.

In that blissful quantum moment all was as it was intended to be and I was enjoying it to the full in union and oneness.

I knew at a deeper level the connection that creation has with the glory of our sonship identity and why it is so vital that we discover who we are.

The whole agenda of the deception of independence can be boiled down to keeping us from the truth of who we are.

Division, competition, conflict and tribalism is the strategy that continues to obscure the truth of who we are as sons of God, disconnecting us from union and oneness with God, ourselves and creation.

The light of love and truth is revealed in union, covenant, peace and family; and that is what comes from being at rest.

Conflicts keep our children living independently of Us and one another and that prevents blessings.

8th June 2021

Son, as you dwell here at rest, abiding in the light of love and truth. you can also be anywhere (and eventually, everywhere) within Us.

The Father lifted me out of my body, or at least the mental image of my body that I was still anchored to in the realm of light, face to face.

We began to travel through the realms of heaven, looking down on the rivers, waterfalls, beautiful gardens and pools.

It was like we were surveying the heavenly realms, not flat but semi-circular spheres within spheres which we went into and around.

I remembered and connected to all my previous encounters with what I was seeing.

We first began in the centre and went outwards, until I recognised the mountain ranges of the kingdom of God realm, with the courts and councils that I was familiar with.

All the spheres had the layers of the angelic canopy within them and through them like light within light. There was movement and activity but also everything was also peaceful.

I saw areas that were very active, with the angelic beings moving within the layers and courts, and there were some areas that the sons of God were actively engaging in.

The activity was like the light smears that appear on time lapse photos, like I was seeing everything at different speeds of light where some realms appeared slower and others faster.

Vision Destiny 2022 – Session Nineteen

There were also areas that were not illuminated but were not exactly dark, they just seemed slow and inactive.

I knew these were areas that needed to be engaged with and occupied by the sons of God.

We went back to the centre instantly, where I knew the thrones and councils in the centre of the wheels within wheels that were revolving around the four thrones and the four faces that seemed to be superimposed as if they were interacting and intersecting with different dimensions.

The deeper we went, the faster the light was moving; yet it felt like we were in slow motion as we observed.

Spatial awareness - terms like going in or out, up or down, deeper or higher - was very difficult to define.

We went through the familiar dark cloud, through the realm of light, where I saw myself and the Father still connected as if motionless.

There were intersecting light tunnels going in every direction, with light moving through each, and it reminded me of a neural net of firing neurones in pictures I had seen of the brain.

Then we went through a matrix into another realm of pure light where everything was slowed down or speeded up - it was so difficult to define in relative terms.

Were we travelling faster or were the realms slower? Only God knows.

There was activity here that I felt but could not really see. Either I was moving too fast or too slow to see, as it felt like I was out of sync with it.

The Father had been totally silent during this journey but now I was aware of His heavy, weighty presence in this realm like never before.

Son, you have rarely been here; and that is why you feel disconnected and uncomfortable in this reality, as you are seeking to move too fast, so reality is blurred.

Breathe slowly; focus on My voice, and rest. Feel the connection to the realm of light, which is your anchor. As I did so, everything began to come into focus.

I briefly glimpsed such wonders that I sharply drew breath, as the sound, colour and frequency patterns that were all around me were awe-inspiring.

Then we went through another matrix and we seemed completely still; but this was the 'now' that I was more familiar with, surrounded by the comforting light thoughts that were not moving but just were.

Son, there is more beyond everything that I have shown you today that you will be able to engage with as your consciousness is expanded and you mature in creative sonship.

I saw what was in the Father's mind, His thought at that moment, which was of three interconnected places that I needed to focus on like a multidimensional triangle.

The realm of light face to face with Him, the eternal now within the Perichoresis of I am that I am, and the four faces of God within His living and active word, His name, are to be my basic or foundational state of being.

Vision Destiny 2022 – Session Nineteen

Later I would understand the connection between those three realms of intimacy and the three realms that would later engage to be part of shields.

The cosmos, starting with the earth shield, but expanding; the spiritual realm and the dimensional realms.

Son, everything will expand from this state of being as it becomes your creative reality.

I was instantly aware of the infinite possibilities that I could creatively be connected to from this foundational state of being.

I could not possibly describe everything I saw on this amazing journey but I absorbed it all and it is now part of me and now I am more aware of my multidimensional identity.

From this reality I went into myself, centred in the Merkabah of my innermost being, but still connected to that foundational reality that is to be my focus.

As I looked out of the window at my garden, everything seemed more beautiful, harmonious and at peace, as if I was seeing it from another perspective.

9th June 2021

During a group ascension, I engaged the realm of light and the Father's thoughts formed a matrix of light around me, filled with His intentions for the earth.

Time, Wealth, Union, Blessing, Gold and Silver stood by me. Light streamed from them, connecting with the Matrix of intentions.

The filaments of light were like highways or portals that were connected to places, dimensions or timelines.

I felt the desire to engage the earth shield; and all those beings came with me and their light became one, like a laser pointer scanning the earth.

I followed the path to engage the earth's core and plates and felt the tension it was under at certain points around the globe.

At each place of tension, there was darkness or something hiding; so I engaged one specific place in Iceland and saw a being.

I began to engage it but it did not communicate; but I felt deep shame within its dark covering so I continued to offer restoration, without any immediate success.

Restoration is a process that requires commitment and perseverance.

Time came with me and I asked Time to show me the being's original purpose and name. As I saw its origin, I knew it was another being of Devastation, that was originally called Preservation.

With that knowledge, I reminded it of its original name and function and began to call forth its identity that was hidden under the scales of darkness and shame that covered it.

I saw that there were dark filaments connected to this being, as if it was tethered and being controlled, having its strings pulled by others for an external financial agenda.

Vision Destiny 2022 – Session Nineteen

I felt the shame was associated with causing natural disasters that caused financial crashes or situations that were taken advantage of to make money out of the misery or misfortune of others.

The disasters were used to influence the financial markets and control or destabilise governments. I saw the timeline of devastations that created famines and loss of property and livelihoods through history, and I understood the deep shame it was covered by.

I released forgiveness to it for the financial devastations and again called forth its true identity as Preservation; and as the quantum moment expanded, I began to see light breaking through the darkness.

I felt its true purpose to preserve life, health and blessing, and prevent destruction, loss and decay; and I began to declare jubilee and wellbeing over it, producing hope. The process breaks down the objections and resistance to it believing it could be restored.

The other beings of Wealth, Gold, Silver and Blessing began to engage as I surrounded it with my spirit and love, creating a safe place for the process to continue. It was afraid of reprisals from its own order and from mankind.

Eventually the light being of Preservation emerged in its glorious identity; and we engaged it and asked it to participate in the earth shield to preserve the earth from devastations leading to financial crashes etc.

It agreed to be part of surrounding the earth like a cloak of preservation. We began to sense the other beings of devastation still connected by the black tentacles to dark pools and webs of deception within the global financial control systems.

There is more work to do to see those control systems removed and the connections between world events and financial gains and control severed. There are people in global cabals pulling the strings, using these beings to maintain their control.

Son, there are many such manipulations that have occurred throughout history that have a Luciferian agenda behind them; and today there are strategies of the political and religious spirit that need to be exposed and dismantled.

The events in history that caused devastations that were financially manipulated need to be revealed so people can be disentangled from global financial control and manipulation. Look carefully to discern what is behind world events and who benefits from them.

Eruptions, earthquakes, tornados, hurricanes, typhoons, famines, revolutions, coups, stock market crashes, wars, conflicts, red terror of Russia, Holodomor, Chinese genocides, holocaust, African genocides, Irish potato famine, terror attacks, Krakatoa, Atlantis, floods in prehistory, Chernobyl and Fukushima nuclear disasters, pandemics.

We need to become more discerning when viewing world events, not operating in nationalism, fear or conspiracy but in understanding, to help legislate for the revealing of the agendas behind those events.

Rest is the key to restoration, revelation and creativity. Start to focus on your breathing, slowing it down; and start thinking of the name of God, YHVH.

Vision Destiny 2022 – Session Nineteen

Breathe in deeply the unconditional love of the Father.
Be still and feel loved.

Be still and know that I am God.

I am love, I am joy, I am peace, I am truth, I am limitless grace, I am triumphant mercy.

Invite love, joy and peace to flow in you and through you to create an atmosphere of rest around you.

You are in a safe place.

Start to think of an open heaven and set your desire upon engaging the Father's heart.

Engage the realm of light to experience the light of love and truth at a deeper levels of being.
