I am going to review some of the things that were key in 2021

I will share my journals that will include:

What God said in 2021

What God did in 2021

What does that mean for 2022?

Key themes 2021

- Realm of light
- Unconditional love, limitless grace and triumphant mercy.
- Exposing the great deception of the DIY tree path.
- Time, Union and cosmic dimensions.

10th June 2021

This is a transcript of the restoration government meeting ascension where we engaged a fallen being called Devastation.

This is an example of governmental legislation with a group of people using different styles and methods but still remaining in union.

We were discussing encounters that I and some EG governmental groups had with Time and consequently an order of beings hidden in the earth in places of tension.

The being was Devastation, previous called Preservation.

We can call them into the highest court and rule for justice to begin to strip away the shame that is on them.

Seeking justice from the courts of heaven with agreement and mandate.

At the present moment we have to find out whether or not we ourselves have the mandate to begin to strip away all those layers of shame, because that's something that has to be adjudicated from on high.

Father, we just thank you and praise you that you've called us and privileged us and blessed us with being your ambassadors in this specific time in the earth realm.

We just thank you that you have opened the door and prepared the way for us that wherever you are and whatever you are doing, we can follow.

So, as one body, with one thought process, we take on the mind of Christ; we ascend into the courts of heaven and we stand before you and present this case.

We just yield our own thoughts, our own ideas, our own expectations; and we just yield to your mandate, to whatever you want to initiate in us and through us and by us and between us and round about us.

You know what's in our heart, so you've heard all of our words and all of our conversation today.

So we come before you humbly, just asking your permission, Lord, to co-work and to co-create together with you to bring about the stripping away of shame, especially over the one called Devastation, that he might be restored to his previous place in the beginning, called Preservation.

Father, we ask you to forgive us from any way that we ourselves have fallen short.

We thank you that all of our authority comes through you through the blood of Jesus.

(We were engaging the court and seeking direction for administering justice.)

Vision Destiny 2022 – Session Twenty

We surrender right now to that blood which is the highest form of sacrifice, thank you that your name is above every other name, every other name named in heaven and in earth; that the name of Jesus is high above the name of Devastation; that the name of Jesus is high above every other name.

Lord you have put it in our hearts now to be your instruments for restoration.

So we just present our petition right now and we just ask you, is it okay and is it time for us to deal with this issue?

We lay our petition on your bench.

We want to stay within the perfect timing designated by you.

We want to restore justice.

We call on the being of Justice to come and stand with us along with Time.

So what I'm seeing is a cloning effect amongst these beings.

So I'm going to call it a cloning effect because I don't really know how else to describe what I'm seeing.

What I am seeing is that whilst these beings have been assigned to different places in the cosmos, they are separate parts but still part of a whole.

As one so-called natural disaster takes place, it actually layers and impacts through every being.

It impacts on every geographical area that that being is sitting over.

So I just see that as we as we do whatever it is that we are going to do, in the same way that it has a cloning kind of effect: as it had a negative impact, so it can have a positive effect.

As we begin to unpack this and impact the one being of Devastation, it actually impacts on the whole.

So, this is exponentially positive as we begin to reverse out this stuff.

What I'm seeing now is, I'm seeing a cluster of beings that look like green lights.

Not sure if they are lights but if they are they are very green and they are mandated to work with us.

I sense and feel that they are part of the Elementals and that they are connected to some of the elements of nature, which is why they appear in green, in that way.

I also take it to mean that we have a green light.

Okay, so I'm seeing the green light beings and they are mandated to work with us.

But I am seeing them looking to us, asking for instructions.

Well, since they are mandated to work together with us. I'm thinking that may be what the Lord's intention is: for us to commission them to begin to go and strip away the layers of shame.

So, Father, we just speak to the green light beings right now and we just commission them to go and begin to strip away the shame from Devastation.

We thank you that because these are elemental, that the stripping away of this shame will ultimately cause things to be restored and put back into divine reposition and brought into accurate alignment with the Father's will.

We just commission them right now to go and work together with us.

Vision Destiny 2022 – Session Twenty

So we lift you up and work with you to begin to strip away these layers of shame.

I feel that the mandate they have is to take our declarations, and almost lay them over the areas of shame, almost like an oil that would soften the hard areas of the hardest things.

It feels like we need to release forgiveness to Devastation.

It is almost like the earth itself is traumatised by the history of past events of devastation, the things that these beings have done, and the justice is in a sense to release forgiveness, so that that trauma can be released and the restoration of the earth will come about, and I think the Elementals are going to help us with that; and it feels like what we declare, they can take, like healing oil or softening oil, to soften the layers that are over this being, so those layers can be peeled away.

So I choose to declare forgiveness for past disasters: past devastation of eruptions, of earthquakes, tsunamis and famines.

I release forgiveness for the areas where the earth itself has been affected.

The tectonic plates have been divided and pressured.

I choose to release forgiveness upon this being of Devastation.

I declare Jubilee.

A Jubilee where the economic systems of greed and profit that are in control will fall.

We want to see a wellbeing economy: we want to see a change in the global economics.

[Testimony of G7 tax equality and justice against corporations.]

So we call for jubilee and we declare jubilee.

We declare the reality of all things being restored and for Devastation to be restored to Preservation.

We call the earth itself to also release its forgiveness, to come into agreement with us, to come into an alignment where we will be one heart and one mind and one purpose.

We call for the Elementals to interface with us and for us with the earth to come into agreement, that we would layer healing oil like a balm that would soften the dark scales of shame, removing those layers of shame.

I just want to engage with those green light elemental beings and I release you to engage with the union of this being with every part of this being that is connected globally.

I release you to release peace as I see that you are peace carriers.

There is an infusion of peace in your green colour that, as you engage with this being, that you will infuse your peace; and to bring that being into a place of peace, so that it can begin to engage outside of the negative into the positive.

I see the green light beings, they are pouring out the oil on the top of the head of the one called Devastation; and Devastation has all of these other ones that are attached to it, that are all tethered to it.

This oil is flowing down from the head and down these tethers into the multiples of other beings that are attached to Devastation and have the same mandate from darkness to bring destruction.

Vision Destiny 2022 – Session Twenty

So the oil is actually moving down the tethers like oil down a string or down a thread, and it is actually beginning to affect and impact all of the other beings that are tethered to Devastation.

On the right hand side, I see the oil has now penetrated two of these beings: one is called Destruction. So I speak to the green light beings right now to prophesy over Destruction that Destruction would be restored to Construction.

We bring our hearts and our minds into agreement with the green light elemental beings right now as they stand over this one called Destruction.

I see - this is really strange - I see that the green light beings are just quivering with delight, because they're releasing their green light into the one called Destruction.

Destruction is shaking like crazy as its opening up and receiving the green light.

Something really similar, but the green lights, they had joy on them, and they were infusing themselves into Destruction. That is where the shaking took place, that Destruction was actually intended to bring forth life, and that the green is a new life, like spring coming forth to bring new life, rather than to take or destroy.

It was never intended to be that way.

So the shaking is coming, so that everything inside of them is being restructured to be able to bring about its original and designed intent.

I see that, as the green peace and joy is being infused into this being, that there is an order coming back as there has been a constant tug within this being of Destruction.

It has kind of shrunk away from everything that it has been forced to engage with, yet as these green beings are infusing this peace and tranquillity and calm into Devastation and Destruction, it is bringing an order

It is bringing an ability for this being to start to see construction, to start to see a different way of being. We call upon Time to reveal and unveil to these beings what their original purpose was, to bring memory of who they were, the glory that they carried, the light that they once carried; to remind them of who they were, their real, true identity, which has been covered by layers of shame and dark scales.

So we call upon you, Time, to unveil your secrets, or ancient truths and mysteries, to these beings; to reveal to them the memory of who they were, to open up the avenue for them to be restored, that they would remember what it was like in their original form and purpose.

We call you, Time, to enable them to remember what it was like to be a preserver, to be in construction, to be bringing wholeness and life rather than death and destruction.

We call on you, Time, to open their eyes, the eyes of their heart, to see themselves, to know their true identity, the light that is still hidden within them.

Father, we just call upon the spirit of wisdom and revelation of the Lord Jesus Christ to overwhelm and overtake them that the eyes of their understanding would be opened up, that they might know that they

Vision Destiny 2022 – Session Twenty

were initially called by God for the restoration of all things, which was paid for by the blood of Jesus, so we just ask you right now to go and open up the eyes of their understanding.

Thank you for revealing their preadamic identity.

That even as our forgiveness for all of their previous devastation has been extended, that that shame is now being stripped away.

I see it actually coming off, like layer upon layer upon layer of shame being stripped away, like a serpent that would shed its skin.

It's beginning to be peeled back. I can sense a fluttering within that being, a fluttering of hope, but that being doesn't really know what that is.

Father I just release the realms of wisdom around that being, the realms of revelation, to take it back in time to where it remembers hope and anticipation and excitement and Kingdom identity.

So I just see Limitless stepped into that realm.

I see that these beings of Construction and Preservation were once called to work with Limitless.

This being has been enslaved and forced to bring devastation but actually even while being in the negative it has shrunk away, so as not to deliver limitless destruction.

I just invite engagement now between Limitless and these beings, which starts to open a new way for Kingdom construction Kingdom preservation.

I am seeing a very tentative engagement now with Limitless.

I am just seeing an untethering and more untethering and even more untethering taking place.

As this untethering is taking place. I see that the cloning effect is beginning to be reversed to what they were before they were all clones of devastation.

They're taking back their original shape and form, so that they are actually escaping the cloning.

So one of the things I am seeing is forests, rainforests popping up from nowhere, and I feel like it is going to be a sign.

We are going to see this in the natural that they are going to find new rainforests.

The Father is giving us a sign of what of what we are doing and a confirmation of what we have done tonight.

That is exactly what I was seeing too, when the green beings were intermingling and becoming part of, was new life coming forth, in that it will be a sign and a testimony of what it was that took place.

I just feel the delight of the Father - Thank You Lord - that He is delighted that, at long last, someone is coming into agreement for the restoration of all things which has been His divine purpose, that the unfolding of his sovereign plan is going to be testimony.

Father, we come into agreement now with the establishment of the new rainforests that you are raising up and we thank you that as these testimonies begin to manifest themselves in the earthly realm, that it will be conclusive proof that we are working together with you.

Vision Destiny 2022 – Session Twenty

One of these rainforests is actually going to spring up in the middle of what today is known as desert land. Thank you.

Thank you that, in a place where nothing good can survive and nothing good can live, that you are going to descend with such great power that nobody will be able to refute the fact that it is you.

We just want to confess our belief that you are able to do far above anything we can know or understand or comprehend to fulfil your divine purpose, to bring to successful completion the good work that you've done.

We thank you, Lord, for the de-cloning process that is going on right now amongst all those beings. We thank you that they are going to cease to be linked together, that they are going to cease to function as one negatively.

I feel like this is the beginning of a dismantling process that the Lord has given us line upon line, the capacity to begin to see the devolution of the cloning and the coming together as one of all of these beings functioning together as one and being connected as one.

I feel like we have future work to do with this yet, that it is something that the Lord wants us to continue to work this process.

Because these beings will be detached from the one that is called Devastation and the deep cloning of their capacity to function as one will cease.

There is a lot that the Lord wants us to continue to do, to bring this up before Him and to continue the process of devolution, because it is going to be a process.

What has begun here today is going to continue, as long as we stay in agreement.

I know this is a really crazy picture, but the Lord is giving me a picture of a game of solitaire, and all of the kings have been put into position and all the cards are falling in line.

I am going forward in time right now.

I'm looking down from a position and what I'm seeing is the whole earth is filled with Your glory. The whole earth is filled with Your glory.

We come into agreement with You right now Lord, that the whole earth will be filled with Your glory. That the whole earth will be covered with Your light, the light of Your glory. Thank You, Lord.

Your word is true. Your word is perfect.

Therefore we say, let it be done unto us, according to your word.

Let it be done to the earth, according to your word.

Let it be done in the galaxies.

Let it be done in the universe, according to your word, that all things will be one in you, and you will be one with all things.

What we've done is quite significant and it is part of a bigger picture and strategy that is going to be at work. I do feel some of the tethers have been disconnected, and we're going to see some global financial things begin to shift.

Vision Destiny 2022 – Session Twenty

It definitely feels like all these tethers to clones and tethers to control systems are like a dark web. It is a dark financial web that that has been there, but normal people cannot access it, but it has been affecting everybody.

I think we are beginning to disrupt - but not just disrupt, but restore - and we are going to see the positive preservation and construction start to take place.

I think we're going to start to see evidence in the area of finances and economics of some the positive changing and exposing of these things.

There were four people involved in this legislative process and each flowed together as the encounter proceeded.

Rest is the key to restoration, revelation and creativity.
Start to focus on your breathing, slowing it down; and start thinking of the name of God, YHVH.
Breathe in deeply the unconditional love of the Father.
Be still and feel loved.

Be still and know that I am God.
I am love, I am joy, I am peace, I am truth, I am limitless grace, I am triumphant mercy.
Invite love, joy and peace to flow in you and through you to create an atmosphere of rest around you.

You are in a safe place.
Start to think of an open heaven and set your desire upon engaging the Father's heart.
Engage the realm of light to experience the light of love and truth at a deeper levels of being.
