

Vision Destiny 2022 – Session Twenty-Five

I am going to review some of the things that were key in 2021

I will share my journals that will include:

What God said in 2021

What God did in 2021

What does that mean for 2022?

Key themes 2021

Realm of light

Unconditional love, limitless grace and triumphant mercy.

Exposing the great deception of the DIY tree path.

Time and cosmic dimensions.

We have a mandate to restore the union of the planets with the earth and discover their original name and purpose; to restore them to their glory by renaming them.

The union of planets was designed to bring harmony and balance to the earth.

All of the planets, except for Earth, were named after Greek and Roman gods and goddesses.

The old Roman and Greek assigned names of gods were a reflection of their fallen identity and their need to be restored.

It may not be obvious that the planets are named after Greek gods and goddesses. This is because the Romans, who worshipped the same gods but gave most of them Roman names, were the ones who named the planets.

Sun - Initially, the Greek god of the sun was 'Helios' but, later, 'Apollo' became the sun god.

Jupiter, Saturn, Mars, Venus and Mercury were given their names thousands of years ago.

The tradition of naming the planets after Greek and Roman gods and goddesses was carried on later for the other planets discovered as well.

Mercury was named after the Roman god of travel.

Venus was named after the Roman goddess of love and beauty.

Mars was the Roman god of War.

Uranus was named after an ancient Greek king of the gods.

Neptune was the Roman god of the Sea.

Pluto, which is now classified as a dwarf planet, was the Roman god of the underworld.

Mercury - Named after Hermes. Hermes was the fast messenger god and Mercury is the fastest moving planet.

Venus - Named after Aphrodite. Aphrodite was a beautiful goddess and Venus is the brightest planet in the sky.

Mars - Named after Ares. Ares was a hot-tempered god and Mars is a fiery, red planet.

Jupiter - Named after Zeus. Zeus was the most powerful god and Jupiter is the largest planet in the solar system.

Saturn - Named after Cronus. Cronus was Zeus' father, always in a power struggle with Zeus. Saturn is the second largest planet.

Uranus - This name did not change. Uranus was Cronus's father. Uranus the planet has the same colouring of the sky and Uranus was the sky god.

Vision Destiny 2022 – Session Twenty-Five

Neptune - Named after Poseidon. Neptune is bright blue and resembles the ocean waves where Poseidon ruled.

Pluto - Named after Hades. It may no longer be a planet, but Pluto is the farthest object in the solar system just as Hades, the god of the Underworld, was far removed from everyone else.

As I/we have engaged the solar system we have found that there are 4 sentient entities.

Guardians

Elementals

Angelic beings

Planets

So, the solar system restored to union and harmony will play a significant role in the restoration of the cosmos as an example of the restored union and relationship between man, the planets, the guardians, the angelic and the Elementals.

This session is a transcript of a restoration government ascension with five people attending and interacting. I will narrate.

It is unedited and is a mixture of different people's styles of operating but all remain in a union of hearts and minds.

We jumped straight into the engagement.

We honour the blueprints for the solar system.

We thank you for the Archangel Sandalphon.

Sandalphon engaged with us in the ascension.

I pray Lord, I ask that you would expand our hearts with the knowledge of that blueprint that we would know things we have never known that we would see things we have never seen so we can administer in this hour.

Reveal Your heart for this family of planets and beings, angels and structures that make up our solar system.

So, Father, we thank you for Sandalphon; we thank you for the blueprint.

I feel like the Lord was pouring in Sapphire liquid into us and it was filling us up with knowledge, wisdom, being poured out. Sapphire, like a liquid, flowing; Sapphire was being poured into us now, I hear the Lord speaking in it.

That for what is required of us, He is going to massively expand our consciousness: the way we think, the way we see, the way we talk.

It's been superseded by another expansion, again, where the knowledge of the Lord, the knowledge of Christ, the mystery, is filling us.

So, Lord, we receive that Sapphire

The sapphire liquid is being poured into our minds, the spirit of wisdom and understanding of the blueprints and the knowledge of God in creation.

Vision Destiny 2022 – Session Twenty-Five

What I'm seeing right now is we're so human in our culture and our thinking.
He's taken us beyond human into language that we've never seen; ways of communicating, ways of thinking that are beyond Earth.

Just seeing swirling of rainbows in us, around us and through us to the cosmos.
I was just instantly in my home in heaven, in what I would think of as an angelic conference room: it's just where I meet with them. (angelic beings)

This was in a wonderful, circular room. Lots of white marble you can feel, but I was in there instantly and I was just seeing who was showing up, just asking them... All right, you know, you can come on in; and you know my first impression was the planet Pluto, the righteous real of Pluto.

I know him by the name Hades, and he was there.
Also the righteous real of Neptune, which again I know as a feminine angelic presence, but they were the first ones that came in.

They were Pluto and Neptune. So I was just participating with them, I had some great music going on in the background which was making everything you were saying just sound so epic.

It was really awesome.

Thank you, Father, we thank you for Pluto, thank you for Neptune,
We expand our hearts to include them.

Wow, thank you that it is for the man that you've given them as angels, the blueprint that they carry.

Thank you - Can you just look at Neptune and say what you're seeing about him at this present moment.
Okay, yes, I feel that there's a strong focus there.

I don't know why I saw this: the moment you said to see, I saw like a shimmering huge diamond.

And I don't know what the connection is.

It almost feels like, you know, like the priests had the stones on them, almost feels like it needs to be put in place again, I don't know, I don't understand that.

I saw like a blue diamond, just a shimmering sapphire-coloured being.

I don't know if I'm seeing Neptune in another form now, or the angel, looks like a shimmering thing. I saw like a quarter of a diamond, shimmering with light

I saw a sapphire-like being, yeah, we're seeing right now, but sounds about right.

Yeah, I mean Sapphire diamond colours as sapphire blue colours.

Yes, I learned them by jewels when I originally met them; I learned them by the gemstone that they seem to represent, so it wouldn't shock me at all, if that's a sapphire and diamond kind of feel of that spiritual being.

This being seems glorious, so it seems very different to the other being, the other met you, and I saw it looked really fallen.

This looks incredible, like unreal, like the majesty, the sapphire, the diamonds, the form of it; it just seems glorious. I think I'm seeing the angelic form.

Vision Destiny 2022 – Session Twenty-Five

We love you. We love you. Thank you for showing us the multi-faceted, multi-dimension, multi-reflection, refraction.

Actually I see him, shining right now, in a very prismatic form.

And I see all of the colours of the seven spirits beginning to increase as the light is being refracted, and it's like coming from the inside out, it's not from the outside in.

Thank you, Father, I see the reflection of the colours of the light now beginning to hum.

Yeah, they're humming in progressive notes that keep going from lower to higher and lower to higher.

This is weird. I got a word that I've never even heard of before. Nubulus (not sure of spelling).

I've just looked it up. It matches the kind of fallen being, and I saw the word was Nubulus.

It means gloomy, troubled, clouded, sad, melancholy.

That's exactly what that being felt like, the first one I saw, and then calling it a sad, gloomy, clouded being.

You guys ever heard that word before.

Yes.

Oh yeah, that's so cool. Like, I don't get words normally, that's so cool. Thank you.

I feel like honestly what I'm just seeing, what I'm sensing of what you're seeing, is the pre-adamic manifestation of what Nubulus was before it fell.

And so, with the refraction of all of the light and the glory, and the sound and the humming that's coming off him...

I feel like what the Lord wants us to do is just bring Nubulus out of that position of dejection and despair and frustration and disappointment and release him to become the reflection of the light of the issue.

Another meaning is somebody who could take a husband: marriageable, somebody that needs a husband.

And you know the Lord our maker is our husband.

So on the one side it means sad and gloomy; on the other side, it means somebody that needs a husband. Okay. I think it's good to research that as much as I can.

In the sense that, you know, you're talking to them, calling them by name, saying out loud what it is that you're seeing, what they look like.

I think that's all those positive steps to seeing them the way that God intends them to be.

And when we were doing this and I was just in my home and I was asking again to know Pluto and Neptune that I would know them personally.

I was just asking them:

Okay, why is this happening why now, why are you kind of drawing, and close, and I felt like they said Well, you know, the planets are like a cosmic vitamin, you know, that humanity desperately needs.

They need to take that vitamin and like they would a mineral, or some other compound or molecule that you take in for your health.

Vision Destiny 2022 – Session Twenty-Five

But then also it felt like they said, but we're really living out our existence in humanity, just like we're connected to God, we have to be connected to humanity. So there is a kind of a deep existence kind of reason why they want to be revealed.

I think I'd like to just speak over Nubulus new beliefs that it's called be married to the Lord, the Lord is your maker, the Lord is your husband.

You know, and let's see what happens. Does that resonate?

We thank you for this word, 'Nubulus'. We bless you, Lord, that we recognize this being is sad and gloomy.

But we call you into your redemptive name, which means marriageable.

That you're fit to be married, that the Lord is for you, not against you.

And we're really hopeful for you.

So we just speak over Nubulus the restoration of his original purpose, the restoration of his original scroll: we speak over him, love, joy, peace, bliss.

Let the joy of the Lord become his strength, that he becomes the reflection of your glory, Lord, that he will shine out.

Oh, whoa. Well, thank you Father, Thank you.

I see that the diamond, like a multi-faceted thing, is beginning to spin.

it's just spinning and spinning and it's getting faster and faster and faster, and as it's spinning faster,

All of the facets of life that are being reflected are coming together as one huge rainbow refraction of that light.

It is spinning over the top of him and it's actually producing blue-white shoots.

Thank you, Father.

I feel like we're meant to go into the atmosphere of Neptune and release light, does that resonate?

It feels like there's a gloom there, that they need the light; we need to come, arise and shine.

And, you know, when I spoke, I saw like locks, padlocks, coming off the sphere, because just before you said those are all changed and I didn't know what to say or do.

And then when you started to speak it was like these angelic beings were unlocking this thing and then I just almost saw the planet, how it's shrouded and it needs light.

It needs like one of the meanings of Nubulus, as it is kind of shrouded and overcast.

Do you guys want to go into the atmosphere of the planet and release light? Does that resonate?

Let's just do that.

The word I was hearing was 'fiery waters' and so there's also something about the fire and the water together for the planet.

Lord, we together, we know we've been called to expand the kingdom, and your government of peace.

We hold Neptune in our hearts, and we engage the blueprint of life.

That life is meant to come to this planet.

Vision Destiny 2022 – Session Twenty-Five

We engage with light, the light of life, and we call forth the blueprint of life.
That Neptune will be restored, that Neptune will come forth with life and with joy.

This planet is made to be like a glorious sapphire diamond.
You are made to be glorious.
We honour you, we release you into your blueprint.
Hey, into your song, into your sound.

I am seeing the diamond refresh and the action of the light and the reflection of the light just spinning
faster and faster and faster.
It's like he's just getting smaller and smaller and smaller and smaller to disappear.

Thank you. I can just feel like glory particles being released into the atmosphere of Neptune, into the
core of it. I see that life is going to come in their light.
We decree a new blueprint being released to create a new timeline.

We decree new structures, angelic structures, be released into the atmosphere.
Angel of Neptune, awaken to restoration.
Thank you. I'm almost hearing music, like harmonics.

I even believe there's something going on in the atmosphere
I don't know whether it gets in the aurora because it's quite far away from the Sun but it will seem like a
roar of new harmonics.

Thank you, Lord, thank you. They're emanating from the restored creature, because the refraction of the
light that's coming off is like humming, and the humming is producing a brooding effect over Neptune.
Thank you, Father.

Have you ever done anything with untethering planets from all the stuff that's been decreed over them,
from idolatry stuff and all that incantation stuff?
Yes.

Is there something we could do for next time?
And I was feeling like it was almost reframing it, renaming what it is, and that the negative words that
have been framed on it will come off.

Absolutely. I think it's like we take all of the virtue and cast off all of the vice.
You know, all the things that are associated with, in the case of Neptune, temper, mental illness, anger,
addictiveness and earthquakes, you know, destructive earthquakes.

All of those things were negative, negative connotations, negative words that were spoken about
Neptune in particular. So absolutely, it's a great thing to make a practice to take all of the virtue and cast
off all the vice.

Yes, we decree a new relationship with Neptune.
As a planet, as an ecosystem in an angelic realm, as a gateway, to the old words being broken off in the
name of Jesus through the blood and the frequency of life, breaks off corruption

Vision Destiny 2022 – Session Twenty-Five

And a new framework is released that Sandalphon releases, the blueprint of Neptune's future and its relationship with us, and the solar system, and the angelic, and the frequencies and the sound.

You are not alone, we see you. We see you, planet Neptune; we see you, angelic beings; we release joy on you, the planet, joy.

Thank you, Lord. Its interesting that it was mentioned 'fire, water'. Now it seemed like a fiery stone in the core of the planet. Like a fire stone from the Lord. Thank you, Father, for that fire.

Thank you. This belongs to you, Lord; we pray for the activation... I don't even know what this means... but the activation of that fire stone, the activation of your government, and your glory in Neptune.

I went and engaged with the guardians and went into a council room; and there were guardians, chancellors and ambassadors who were there.

The Father came and took centre stage and started asking for strategies for the restoration of the cosmic realms.

And there was a lot of interaction going on and then the Father said "Well, what do you think?"

And I thought "Why are you asking me?"

But I just thought, and said, I think we need to expand the earth shield around the solar system.

Yes, that is the next step.

Then I went on to say there needs to be shields around all of the dimensional spheres.

The cosmic, the dimensional and the earth; and then the Father started to interact with some of the angels that came in.

There were the three angels we dealt with who were Devastation, Disaster and Destruction (and their restored names were Conservation, Preservation and Construction) that were present there.

And it felt like they have a role to play in bringing balance and harmony to the solar system

Our immediate next stage is bringing that into a place where there would begin to be restoration.

I feel what we're doing is absolutely right; everything that's been going on is just as I said, you know, separating the virtue from the vice.

I feel that while we obviously need to make sure that all the vice goes but the virtue is preserved.

The planets and the union with the planets has been taken from man and given to others who have abused it and the restoration will restore our union and our connection to the planets in a completely restored way.

It doesn't feel like to me that the names that we know them as were their original names

I believe we're going to get an understanding of the original purpose of all of those planets, and then redefine them in union with us.

We are actually involved in participating and protecting this process

Just fascinating. I felt there was a council going on as well.

This being was shrinking away - do you feel something is being removed and the being is being restored?

Or is it that the being or the beings shouldn't be there, could you say some things are not sitting in the right seat, that they don't belong there?

I would say that what I was seeing shrinking away is first the capacity for vice to overcome virtue. Yes. So, not so much the shrinking of the being itself because the being itself has not been restored.

I would like to go back into what was said about beginning to create like a shield around the other planets.

Yeah, I think that's a real strategy from the Lord.

Again, if we can do it. Maybe we, you guys, can continue, or we can put that on the agenda for next week because I feel like that it may be a very lengthy ascension, to call the light shields around the planets.

I guess there is like a connection been restored, like a gateway connection; so there's a flow, like a communication, and a flow between the angelic and elementals.

You know, it's like when we're engaged in the blueprint like this. I saw that beautiful diamond being. You know if you think, is this a system? There's a lot of complexity to it isn't there?

Would it be true to say there's a lot of complexity in the structures of the planet and what's there and how it functions? Or is it a simple realm that opens up, like a domino effect?

In one sense there's less complications because there are no people on it.

Yeah. And we create most of the complication within us.

What we've done and what we're authorizing and the sort of division and separation there is on earth we don't want it to go back.

Yeah, people, and that creates an environment where a lot of negative things can function.

I feel that the word that keeps coming to us is union.

There needs to be a union that we come into agreement with, and then that connection gets restored. But we don't want to restore something to actually release bad stuff from the earth into it.

This is why I feel what we need to do is to connect the earth shield and shield the planets so they connect with the shields around them.

So those are also in union, because there isn't anything bad going to come out of the union, it is only going to be positive.

Whereas if we reconnect it to the earth at the moment, it creates a risk that negative things can go the wrong way into that.

Therefore, I think that's why a shield would be needed.

What we're doing is safe with God. I do think it's a process.

Not many things happen instantaneously. I think there's an ongoing process that will open up as we continue.

I've seen times, had encounters, where you see what comes as thousands of years in the moment, like, you know, there's a knock-on effect that goes on and on.

So how do we expand the shield over the planets?

Well, what I saw and what the Father said was that it cannot just be made up of us.

Just as the earth shield is made up of us and angelic beings and some of the cloud of witnesses,

The shield around the planets needs also to be occupied with the guardians, and with others that we are calling from the cosmos, to come and join us in a union. It feels like it needs to be a cosmic union working together.

Well, the Father is saying it is a tri-part union of the sons of God, the Council of angels and also the Guardian council. So there is a sense where what we're doing is together in union with others for establishing this.

Do you think the reason the Lord is showing us this stuff is because you can't really restore the earth without understanding it's part of a wider community and ecosystem, in a way, it's a holistic environment?

Yes. All of the dimensions I've engaged and I've engaged 40 of them, plus another 84 recently, are mostly the ones that are in bondage because of their connection to the earth. The Tower of Babel was a communication device.

It communicated things dimensionally which are actually now far worse in those dimensions as they seem to take on the worst of what was here on earth and then take it to an extreme.

Also because they have not had sons in their dimensions they have not had anything to help balance things.

So there have been really terrible things on the earth but you also have the covenant people right throughout history who brought a balance.

They have stabilized things with good, and with grace and love and mercy, but they haven't had that in those other dimensions which is why they're reaching out to us now.

They are detecting the frequency of sonship that we are broadcasting.

And they're reaching out to the sons because they're hearing our sound and they're feeling our frequency - particularly from the earth shield, because it's actually shielding them from the negative frequencies that are on the earth.

We are not only shielding the earth from wrong things externally, but we're also shielding those things from the earth.

I think that's why shields of light is a key because they give a safe place for things to take place.

The shield gives us access points to establish relationship, and union with others, so we don't operate independently.

Then transformation can take place as in union we work and legislate together.

Part of the problem is that man has operated independently using the wrong source of knowledge

Today we started off receiving an infusion of knowledge, the sapphire liquid knowledge, to help us in this process.

I think that it is the knowledge which joins us in union with others, and it is not independent knowledge. We need to be in coheirship with other spheres and not independent, as that will create a union that brings blessing.

One of the things for me that I'd like to understand is, when you engage these different dimensions and stuff, do you consciously choose to do it?

I've never really functioned like that in the spirit. Maybe God will give me an infused knowledge but I feel like it's partial the way I function, it's like I need to explore how you function. So how does one function like that?

Well, for me, I hang out with the Father continually, so I'm continually in that realm of light, face to face; it is one of my dimensional places of engagement, but I can also do that in multiple places. So that gives me a continual sense of the Father's heart.

And then in my interactions with the Father, more recently in that light realm, which is in the realm of perfection, where everything is how it should be. The light forms a matrix of the Father's heart and intentions and conforms me to it.

And that's when then I go and engage the places that I have access to or I've seen before. A lot of those things that I can access are because the Father has initially taken me there.

Then once I have this sense that He's opened this up for me and He's taken me into a realm, I know I can go back whenever I am aligned with the Father's heart and it is His intention. I do not go just because I can but only when He directs me.

So I don't just decide, I'd like to go back to that realm today. I always do it because I'm connecting to those intentions, the desires and the intentions of the Father's heart.

And then I just feel led to go; and then because I have done it before, I know how to access it again. But I always, always want to be dependent on only doing what I'm seeing the Father doing or doing what I'm feel the Father is really conveying in terms of His intention.

But I do think it is part of my particular mandate, you know, it's like the dimensional realities are things which I think the Father has prepared me for.

And I've gone through a long process of getting to where I am more confident of engaging. But sometimes I don't go into those dimensions, I just stand on the event horizon and I impart into it, and I sense what is coming out.

So, when we recently engaged through the fiery portal in Cancer we went through and we saw a lot of other dimensional portals connected together in groups ordered like the Merkabah.

They were all made of different components, different things, colours, like gold, silver, all sorts of different components.

I just felt they needed mercy. So, I released the mercy that I have freely received.

Vision Destiny 2022 – Session Twenty-Five

Having released the mercy. I stood there and I was looking for what came back and that gives you the clue to the response and what you do next.

Because if nothing would come back, I would have known that I needed to impart more mercy into it.

They need to receive our light; they need to see hope, you know, they need an injection of hope and mercy. That was one of the things that I felt.

You know, I felt so moved by their need because I felt their deep despair.

Mercy just seemed to be my instinctive response to their situation.

I then felt there was an echo or there was a response come back, and that then gave me confidence that it was okay and that we've made a good start.

That is really how I do it.

Then I might not do that for another few weeks, and then all of a sudden I'm engaging the Father and that stirs in me with desire for that place again.

So then I go back there, but I mostly have no idea what I'm going to do, no idea at all, most of the time, but then I instinctively do whatever it is I feel it is right to do and sometimes that will be going into the dimension.

Sometimes it will actually be connecting with those who become ambassadors from that dimension of what they've received.

I am careful of what I do because I don't want to be a mediator for those realms.

I want to equip them to function and come into restoration, and therefore they need their own ambassadors, because they are races of beings that have been deceived

They need someone who carries the light that brings the truth and starts to illuminate.

It's almost like we're mostly only responsible for putting some leaven in there and then the leaven begins to work its way through the societies in those dimensional realms.

You know, some of it has been pretty direct action because that was what I was led to do.

I really challenged some of the things that were going on there.

Those ambassadors then took that on, so then what I do then is just go back and observe.

I sometimes ask the Father, "Is there anything else that I need to do?"

Sometimes there is a no and sometimes there is a yes.

The Father does not often tell me what else there is to do at that moment.

It is very much when I feel connected to the Father's heart it moves me, then I do something.

I think that's why the Lord asked you in the council what your thoughts were because you've got the Father's heart and you come from the Father's heart.

I think I've got a lot of work to do. I'm realizing that I've got to spend more time in that realm of the Father's heart, and the realm of light and be more proactive.

I think I've been a bit passive with some of these things as I am waiting for them to come to me, rather than me going to them and participating more and I think I'm not always doing the things I should be doing.

I think it's a recalibration season but I do believe I've got a connection to the cosmos and those dimensions as well because the Lord showed me the future where I was dancing in the stars and I was like an energy being.

I looked incredible. I hadn't seen anything like it. So, I know my future is connected there. One of the things we engaged in one of these meetings, a while ago, was that we went into the Council of Guardians.

Three beings, I think it was Limitless, Revelation and Breakthrough angels, came around us and they spun light around us.

And they took us up into a pillar of light, and we were transfigured into different forms of energy.

So we changed our appearance, we changed our frequency, and we changed into different forms of light: photonic light, protonic light, nano light. I felt really connected with creation after that engagement.

I could connect in a more strategic way, because it felt like I'd been transformed.

Yeah, that's very interesting because in an encounter with the future I was literally an energy being that danced and sparkled and I looked incredible.

And I think we're starting to live in our future now; and that's what I'm realizing, is that what we do now, counts.

If you just think about, you know, how much of an effect these planets have in the solar system at large.

I mean there is a massive effect and humanity these days has kind of just relegated them to 'these inanimate objects that one day we'll explore with a satellite, but who really cares? Because it's just inanimate, it doesn't really affect us in any way, you know.'

But to meet them, I think it is really precious, it's a privilege. I mean, it really is a privilege. So the only other thing that happened with me, when we were still in the spirit is that (this is like a recurring theme for the summer) is that Daniel was there. And that's so fitting, because here's the Babylonian astronomer, you know, he was just super-encouraging.

He was like, way to go, guys! Like way to go, realizing the importance of the planets and making an effort to, you know to visualize and to talk to and to relate to and to do it all in a Christ-centred way.

It was like the impression that I was getting from him was, you know, it would have been great if we could have done that in my day like you are, you know, it's your time, this is the time to do it.

It's like a long story coming to its fulfilment, with the planets, I mean there's a lot of myth. There's a lot of history, all surrounding the planets.

So to be in the position that we're in, and to be finally, like, resolving

You know, that kind of the planetary involvement is, it's a big deal - or at least Daniel seemed to think so. I even feel a difference in the sound of Neptune and I don't know how to describe it, it's just a sense that even the sound of the planet has shifted.

Did you hear me say what I saw, like a fire stone too? That make sense to anyone? Yeah.

Vision Destiny 2022 – Session Twenty-Five

The word I heard was 'fiery waters'. So I didn't see it as a stone but I do feel like part of the restoration is this burning, purifying of the planets in that process of restoration.

Yeah, it was like a big fire stone, huge, and it seemed to be in the core of Neptune. And you know, scripture talks about walking on the fire stones, doesn't it?
I don't know why but it was like I think I saw like the core of the planet or something.

Every time I've seen inside the planet, they always look like crystals.
To me, first time I ever saw Mount Zion, first time ever in an Ian Clayton meeting, it looked like crystal mountains. Yeah.

When I've engaged the fire stones in the garden of God it's always been about destiny, connecting me deeper to my destiny.
I feel strongly that every planet has a destiny. Everything has been created has a destiny, and maybe each one of them has a stone, which is actually encoded with their destiny at the core of their being.

If I just had to take a guess, as to why Neptune was the subject of conversation today and not another planet,
I was thinking, you know, this, again, the vice here with Neptune is instability.

I think even the Lord knew that that was the vice of the waters because He tells Reuben it's unstable, as waters.
You know, so the virtue of the righteous real, the opposite of that vice, would be stability, and I was just thinking about how our conversation started about all of the instability in the world.

And it just doesn't seem that surprising that the thing that should be like releasing stability, you know, in the waters, and as a kind of, as a governing angelic presence, that that's kind of the one that we've been focused on in this process today.

I was doing this when I was in my home in heaven with you all.
Lord, let's have Neptune release stability; especially in our lives, but in general, because the world is unstable at the moment so, yeah.

Rest is the key to restoration, revelation and creativity.
Start to focus on your breathing, slowing it down; and start thinking of the name of God, YHWH.
Breathe in deeply the unconditional love of the Father.
Be still and feel loved.

Be still and know that I am God.
I am love, I am joy, I am peace, I am truth, I am limitless grace, I am triumphant mercy.
Invite love, joy and peace to flow in you and through you to create an atmosphere of rest around you.

You are in a safe place
Start to think of an open heaven and set your desire upon engaging the Father's heart.
Engage the realm of light to experience the light of love and truth at deeper levels of being.
