

## Vision Destiny 2022 – Session Twenty-Seven

I am going to review some of the things that were key in 2021

I will share my journals that will include:

What God said in 2021

What God did in 2021

What does that mean for 2022?

Key themes 2021

Realm of light

Unconditional love, limitless grace and triumphant mercy.

Exposing the great deception of the DIY tree path.

Time and cosmic dimensions.

10th August 2021

I engaged the light, face to face with the Father; and the light wove an intricate pattern around me of the Father's intentions.

I felt wave after wave of emotions concerning creation that moved me with deep compassion until my whole being was conformed to His intentions.

Then the desire for restoration hit me with such force that all I could see, feel, and sense was the groaning of creation; and the contrast between the desire and the present reality was the motivation that moved me to action.

I shifted my focus to the Cradle of Life, where I began to brood, at rest in the knowledge of the Father's heart's desires but focused intently on the freedom of creation.

In a quantum moment, all the scenarios for creation's freedom played out in my mind until the only option left was union and that thought filled my whole being.

Union, union, union: there was just that single thought, with no other option; and I began to vibrate in resonance with that one thought until I was that one thought of union.

Union consumed me on every level of being: there was nothing else possible, no alternatives or options, just the one simple but overwhelming reality that existed at that moment.

I was one with creation in the oneness of being in that glorious union: no other thought could enter, as I was one pure thought.

Oneness of being: mind, heart, purpose unified until nothing else existed. I had brooded before, many times, but nothing was like this.

Creation's freedom and restored union was all there was when the transition to becoming the sound that would counteract the groaning took place.

I was not just a sound or a voice but a glorious combination of all things: the thought, emotion, light and sound energy of being one.

I could not feel myself within the oneness of that union of all created things, as I was as it was before there even was a 'was' in the oneness of God.

## Vision Destiny 2022 – Session Twenty-Seven

This is the eternity placed within the heart of all things: that glorious moment, the memory of being, that will eventually draw all things to become one once again in the glorious union of fatherhood and sonship.

This is the moment of the revealing of the sons of God when creation will be set free to become restored to the union of oneness.

All is one and one is all; and that is what it is within the oneness of God's being: just glorious bliss and nothing but love light, where all truth is oneness and nothing else.

That one moment is enough to motivate me forever to be one in the glorious union of oneness. Son, now you know in your being what is Our being, so just be.

All the different aspects of union that I had experienced previously: the union of body, soul, and spirit within itself; the Perichoresis union of Father, Son, and Spirit; the union of the thrones of the heavenly realms, the union of the great cloud of witnesses; the tri-part union of the spheres;

the union of the earth and the elementals; the union of the planets in our solar system; the union of the constellations; the union of the circle of the deep; the union of the wheels within the wheels within the wheels; the union of the oracles of the Father's heart and so many other unions that I had experienced on my journey: all merged into one glorious moment of the oneness of union.

One is all and all is one restored reality.

11th August 2021

Son, let the light of love and truth guide into all truth by being at rest: face to face, heart to heart and mind to mind.

I engaged in the light and was bathed in love in the midst of the matrix of the light of the Father's intentions, where I rested in being.

Son, come with Me.

We began to travel through the solar system initially beyond the furthest planet Pluto and eventually circled the planets one by one.

Each planet or celestial body had its own frequency, song and light characteristics and each was so beautiful but I felt its broken or twisted connection to the Father and the earth.

I focused my being on connecting and began to feel the groan and pain of disharmony and its deepest longing for restored relationship.

I have been in a number of encounters with Neptune, Pluto and Saturn that are the beginning of the process of restoration but there is so much more to do.

The planet, elementals, guardians and fallen beings all need to be reconnected and restored to relationship with each other, the sons and the earth.

We began beyond Pluto, where I was surprised to see a number of other dwarf planets that I had never heard of; and as we circled each one, I felt their lostness and isolation.

Son, these are waiting to become part of the union but Pluto as gatekeeper has excluded them because they refused to follow the rebellion into idolatry and their names and identities have been lost.

It is the sons of God who have responsibility to bring them all into connection with the earth and the union of planets.

There is much to be accomplished but do not be overawed: stay in rest and all will be good.

Planets in the Kuiper belt were excluded in cosmic conflict and are known as Ceres, Eris, Haumea, Makemake, Sedna, Orcus, Quaoar, Gonggong and Chiron.

Eris has been wrongly named after the Greek goddess of strife, indicating its history of conflict.

We moved on to Pluto; and as we circled I began to see Pluto through the Father's eyes and how amazingly beautiful it was and how vital its role is as guardian and gateway planet.

We moved on to circle Neptune and followed the same pattern where I saw and then connected and felt the deepest desires of the Father's heart for its full restoration.

Neptune was breathtakingly beautiful and some of our work to restore it had revealed its destiny and purpose in connection with the earth.

Son, each planet must be restored to connect with each other so Pluto to Neptune is the first step and then to Uranus.

As we engaged Uranus and began to circle it I saw its many moons and also the almost fluid nature of the surface, like molten ice.

The frequency it was giving off was far less intense and it felt almost like a cold colour with less emotion and distant.

Uranus was also rotating very differently than the others, almost like it was off balance and very disharmonious and disturbed, with vertical rings.

There was something very off about what I was sensing but I could not put my finger on what it was.

Son, there has been much conflict over this planet and it is very disconnected from its original purpose because it was involved in the fall of the watcher angels.

Uranus' original function was to connect the earth with the heavens but it became twisted and aligned with the false heaven and throne of the fallen one.

I had much to ponder and learn about the planets and their relationship with the earth that I never even imagined until recently.

We've moved on to Saturn and circled around the rings feeling and sensing the oscillation and energy being generated for the replenishment of the earth; it was a beautiful song of life.

Son, renaming Saturn as Fruitfulness was apt, as it was created with the purpose of replenishment of the life force necessary for abundance and overflow so the earth could be a source of life and creative energy for creation.

Son, the planets themselves were created to give life to their moons which were originally designed for habitation and only Venus and Mercury have no moons yet.

## Vision Destiny 2022 – Session Twenty-Seven

There are even more than the 214 moons currently known, that were all originally capable of becoming fruitful through the increase of Our government and peace.

There was much that We left for Our sons to complete within the union of planets and then beyond; but independence halted that process and corruption took the place of fruitfulness.

Restoration of the union of planets will present the way for a return to the original intention for Our sons to fill the whole solar system with life and abundance.

We continued to circle each planet in order: Jupiter, Mars, Earth, Venus and Mercury, feeling and sensing each frequency and destiny and their disharmony.

Lastly we circled the sun, sensing its violence and turbulence and control over the whole; and I felt its anger, but what I was sensing was more the fallen being Apollo's destructive need for worship and adoration that so twisted its original nature and character.

Son, the union of planets must be shielded from the negative influence of the sun by the light shield of the sons, which has far greater glory.

There is so much more for Our sons to know and understand concerning their role in creation and the union of planets is the place to begin.

The tri-part union that is forming between the spheres is what has prepared the way for engaging with your union of planets and this will be a prototype testimony that brings hope to the dimensions.

12th August 2021

As I was engaged with the light of the Father's face, I was drawn to go deeper into the emotions that I was feeling of compassion for the lost, isolated and divided within creation.

As I empathized, my whole being became one with the emotions I was feeling: that was the groan and cry of disharmony and separation.

Son, go deeper. And as I descended into despair, there in the midst of that pain was the frequency of love within the memory of eternity.

Son, you will find Us at the core of all things as We have placed Ourselves as eternity within the heart of all things.

It is often when Our children are at the bottom, in the depths of despair, with no one left to turn to, that they find Us.

We are there in every quantum moment of all things, never separated or disconnected from any of part of creation, as We are Immanuel and immanent.

The feelings of despair were immediately transformed into great joy and rejoicing as the hope replaced the fear at the heart of despair.

Son, We are never separated from anything that We have created, as We exist within all things and all things exist within Us.

## Vision Destiny 2022 – Session Twenty-Seven

Now reach out with your feelings to engage the earth and your solar system. And as I did, there, deep within the layers of confused emotions, I detected that now familiar, comforting compassion that signified the Father's presence.

Son, go beyond the form of the planets to reach their heart and the memory of what was and what will be again as restoration continues.

There I felt relationship and purpose, hidden deep within layers of guilt and shame; so I began to brood, fixing my intention on the core of the planets in turn.

The fire stone within the core of each planet is encoded with the truth of original identity and destiny and it was my goal to reveal it to each planet.

I continued to brood until the hope that I felt was filled with the oracles of the Father's heart for each planet.

I became consumed with passion and burning desire that each planet would discover the truth of who it is and how its purpose relates to the earth.

The experience of engaging each of the planets filled my mind and my heart and I began to feel even deeper emotions of lovingkindness that I had only previously felt towards people.

There was such kindness and gentleness within the emotions I was feeling towards what most would consider inanimate objects.

Son, what you are just beginning to feel is what a Father feels for that which He has created, so you are connecting with Our emotions.

Let these emotions empower you so I continued to brood and incubate those emotions until I was resonating and vibrating with the energy of desire.

The transformation was taking place and I was transitioning to become the sound of His voice an oracle for the restoration of the union of planets.

I felt honoured to feel what I was feeling towards creation; and as I engaged the waterfall of the sound of many waters, I was powerfully motivated to choose that reality.

I engaged the chamber of destiny and the feelings and sound were amplified even more, until there was a roaring of sound energy that I followed into the chamber of creation.

The quantum lumens were immediately activated in a way that I had not experienced before, frantically moving in rhythm with the roaring sound of the desire of the Father's heart that had incubated in me.

Amazed by what I was observing, I heard the Father's voice at the heart of it all.

Son, there must be many other sons in a union of heart and mind that feel what We feel to be able to create this restorational reality.

So in that creative moment I reached out with my spirit to find kindred spirits willing to engage creation with the passion and lovingkindness that I was feeling.

## Vision Destiny 2022 – Session Twenty-Seven

I sent out the blue light call with all the energy I had and watched as I saw the frequencies of my intentions rippling out through the earth shield and into the earth itself.

I so wanted others to awaken to the desire that I felt towards creation at that moment and specifically for the union of our planets.

16th August 2021

I engaged the realm of light and just gazed into the eyes of the Father until I was drawn deeper into the light of love and truth.

The light cocooned me and penetrated deep within me, filling every particle of my being with light, love and truth.

The light matrix of the Father's intentions formed around me, conforming me to His desires; and I began to be moved by His lovingkindness from that state of being that I now was.

Thoughts of creation's restoration to union and its freedom to become one filled my mind and moved me emotionally with deep compassion.

I began to brood, consumed by those thoughts and intentions, until I was God's voice, vibrating with the energy of love's light, ready to speak the truth as the sound of many waters.

As I engaged the waterfall I paused as torrents of the Father's love for creation in all its multifaceted forms poured over me until I knew that there is no other choice but to fully embrace that restoration reality.

As I entered the chamber of destiny behind the waterfall there was Enoch, smiling and glowing in luminescent multi-coloured light as if he was a representative of creation.

Many times I had met Enoch in this place and received quests that challenged me, so I was filled with anticipation about what was going to happen.

Enoch embraced me and I began to be transformed by the light, until I was glowing with the same luminescence; and I felt changed, somehow even more passionate for the restoration of the whole of creation.

Enoch ushered me into the chamber of creation where the quantum lumens were already excited by the frequency of my being, as I was the voice an oracle of pure light and love.

This was another state of being, like no other I had ever experienced before: I was one with the creative light, my whole being was no longer separate; this was true oneness.

I was in union and oneness with the living grace of creative light, the particles that form all reality, and I was all the possibilities at that moment.

This was similar to how I felt in the eternal now of God's heart and mind, but now I had a conscious awareness of that nonlinear state of being.

## Vision Destiny 2022 – Session Twenty-Seven

I was moving as the light that danced possibilities and moved and swayed, but the patterns of light were not random as I had previously thought when observing it.

The light that I was now part of was forming those infinite creative realities and as just one particle changed position I was aware of another possible reality.

It was like being part of a cosmic murmuration of living light that swirled and moved, constantly forming possibilities of restorative reality.

I suddenly thought, who would choose which possibility to collapse the wave function into a reality that would become actualised?

No sooner as that thought formed I heard the Father's voice and felt comforted as He spoke.

Son, that is why We made mankind in Our creative image, so that in union and oneness with Us and the living light, with one mind, they could choose reality.

That is why the choice to become independent has had such a devastating effect on the present reality: because each person chooses in independence of Us and each other and there is little coherence.

Whenever there has been any form of union where We have not been included, another independent empire forms in the image of 'I will'.

Whenever Our sons function in oneness of heart, mind and purpose in union with Us, love creates the antidote to bring a counterbalance to ensure that the hope for restoration remains as a light in the darkness.

The light of love expressed in oneness is rising and shining and the darkness of the great deception is being exposed, so more of Our children are following the light into oneness.

Son, the balance is tipping, as light carries infinitely more weight and energy than the illusion of darkness.

Creation is made of light, not darkness; only deception keeps what is known as dark matter and energy from being what it truly is.

As the sons of God come together in that union of oneness, the hidden light of creation is being released and the energy that powers restoration is increasing.

That creative energy is not dark and has been reserved for the sons of God alone.

When all the hidden light is revealed in sonship there will no longer be any darkness or deception; and creation will be free from its bondage to the darkness.

Let the sons of God arise and shine with love's light and truth, so all darkness can be absorbed into the light and become one.

Rest is the key to restoration, revelation and creativity.

Start to focus on your breathing, slowing it down; and start thinking of the name of God, YHVH.

Breathe in deeply the unconditional love of the Father.

Be still and feel loved.

## Vision Destiny 2022 – Session Twenty-Seven

Be still and know that I am God.

I am love, I am joy, I am peace, I am truth, I am limitless grace, I am triumphant mercy.

Invite love, joy and peace to flow in you and through you to create an atmosphere of rest around you.

You are in a safe place

Start to think of an open heaven and set your desire upon engaging the Father's heart.

Engage the realm of light to experience the light of love and truth at deeper levels of being.
