

I am going to review some of the things that were key in 2021

I will share my journals that will include:

What God said in 2021

What God did in 2021

What does that mean for 2022?

Key themes 2021

Realm of light

Unconditional love, limitless grace and triumphant mercy.

Exposing the great deception of the DIY tree path.

Time and cosmic dimensions.

Ascension group encounter.

I looked into Father's eyes and saw fire. It was refining fire. Beyond that I saw water flowing peacefully.

Then, I found myself looking over the earth shield. There were spirits of people from all over the world.

Each were connected.

As we opened our mouths to speak as one, a liquid gold poured over the shield.

Each time we spoke, liquid gold flowed out.

Then Jesus made a ball of fire in His hands.

He hurled the ball of fire over the shield.

It exploded in what was like a fireworks display as it connected with the shield, and I saw fear being consumed.

I saw the grid over the earth that has all those connecting places.

At the nodal points, there's a Morse-code type of signal going out. As it went higher, the signal goes out into the cosmos.

I sensed partially it was a distress signal, meant to communicate with others at the nodal points, but the frequency also went to the cosmos.

There were a mixture of messages coming from the nodes.

I could see many more layers above that; and as we went higher, the Morse code dissipated as it was swallowed up into a dark cloud.

It was like this dark cloud collected everything and put it into a place like a cocoon where it becomes something else. It's not time yet for this thing to "hatch" or come out.

I saw how the Universe is held together.

The Lord said, "The same way your body cells are held together, it's done by the intent of your will."

There is a beautiful design of Kintsugi holding the universe together... his grace, glory, love, etc.

I've been too aware of the negative things going on in the earth but Father is saying, "It's OK."

I engaged the light realm, face to face with the Father, where I connected to His heart.

A matrix of light formed around me, and I aligned and came into agreement with it as it conformed me to its intention, represented by a sacred geometric shape.

Vision Destiny 2022 – Session Twenty-Nine

I was totally just being; and light came from the Father's face: not as beams, but they were more like filaments of light, like a mycelial network.

Each filament carried the message of union that was infiltrating and touching creation.

It is an invitation to come into union.

I felt a very strong desire for union that will counteract the fractures and divisions I see.

Union and Limitless came in agreement with the desire for union.

I felt several words - communion, cosmic union, co-union - and they all began to form around me.

It felt like the light invitation touched different aspects of creation.

I listened for a response. I felt a sigh as the invitation was received that could have been a sigh of relief or anticipation.

I thought, what do we do with that?

Then I found myself in a room which I had only ever seen once before, which was in another group ascension.

The room had a big oval table or bench and the Father was sitting at it and was very focused.

There were piles of papers and He was picking a paper and authorizing it by giving it a big tick and then handing it out to those who were there.

It felt like these were executive orders that the Father was making and giving as assignments.

Then four angels came, Union, Covenant, Peacemaker and Family, and they were each given an executive order.

I wasn't given one but I felt I could have been if I wanted one, and I knew I could come back here.

I thought about the earth shield and we all went there. It was buzzing, pulsating, and humming with light.

There was light going so fast around the earth that it looked like time-lapse photography.

They were so excited, they were buzzing; the whole earth shield was pulsating with excitement about the Father's heart for union.

The desire for union, co-union, communion and cosmic union was encoded in the light.

The light of the light shield was like a ring of light; it was energized and went up and down and to and fro around the whole earth.

There was so much energy that the whole shield was pulsating.

There were other groups of angels that connected together to participate in the Father's desire for union.

Union was the common unifying factor in those groups.

Union, Liberty, Limitless and Blessing were another group.

Vision Destiny 2022 – Session Twenty-Nine

There was great excitement but the angels in the earth shield were still waiting.
Union was the energy of the light but I thought, where should that energy be directed?
Did we direct it, or did the angels already know?

The different groups of angelic beings, even though they had been given executive orders, seemed to be still waiting on us.

I felt that we can give direction to them for those executive orders, and we can go and get executive orders if we feel led to go in and engage it.

Those four angels who have this authorisation; so we can authorise them to give an invitation to their opposites, to those who are in opposition to them, to those who are operating in total contradiction to God's purposes for Union.

Those opposites are division, competition, conflict or warmongering, and tribalism; and the 4 angelic orders can go and engage them with a mandate for restoration and give an invitation to their opposites to be restored.

They can go in the opposite spirit to dampen down what the opposition is doing in the earth and bring about union, covenant, peacemaking and family.

So we just authorise you to take your executive orders into the atmosphere, into the spiritual realm that division and conflict is taking place in.

To go into the religious arena, into the church arena into the world arena wherever there is division, wherever there is competition and conflict and tribalism; and to where this is creating separation, brokenness and fragmentation in the earth and out into the cosmos.

So we release you into the earth, release you into the cosmos; we release you into the solar system. We release you out into the whole of creation to be a brotherhood where light would begin to penetrate the darkness, penetrate the divisiveness and division, and any conflict and warmongering that's going on.

We give you the permission to take that invitation, to take that message, to take the light and truth of the love of God and the Father's desire for Union.

There are sons who are vibrating as one within the earth shield. As people wake up, that frequency is added into the atmosphere and into the oneness.

The more we come into love, the more fear has to abate.

The greatest strategy the enemy has is to stop people receiving love through damage and hurt so they shield themselves from emotions.

This all stops people from experiencing the unconditional love that the Father is, and wants them to receive.

Pain makes it hard to contemplate unconditional love and most people see love as a reward.

We need a global awakening to the reality of love which is the true nature of God. Love is not what the religious systems have told them.

I'm sensing like warrior angels or angels that were guarding a portal; these were guardians, sentinel angels.

I really feel that we need an executive order to enter the portal they are guarding.

I am aware of guardians who are guarding various types of portals

I feel this portal is a significant one and I believe we can go and get executive orders to go and investigate it.

So I am going before the oval table with the Father, and presenting my heart and presenting what He has already shown me.

The Father has just given me, on behalf of this group, some papers, executive orders.

This is the authorisation to access and enter the West Gate.

The Father said to me that this year we will have permission to enter it.

The West Gate is a gate that has been opened a number of times in history in a negative way: 1917 and 1946 in modern history.

It is currently guarded and protected by those warrior sentinel angels to ensure that it is not opened to allow negative things through.

But we can now open it next time we gather as we now have an invitation, we have the authorisation of the executive order to open the Western gate, and to go through it and explore what is beyond the Western gate.

This gate is connected to the four corners of the earth and the everlasting doors. It is one of the four dimensional gateways.

So I believe this is really important it is exciting and next time I think we can access it as we already have a mandate.

8th September 2021

Son, come deeper into who We are.

So I set the desire of my heart on drawing closer and going deeper and my whole consciousness became submerged into I am.

As I went deeper, it felt like I was going through all the stages and levels of my journey so far: perhaps it was a recap before something new.

Everything just came to my mind in that moment.

Then I went beyond where I had been before, beyond unconditional love, limitless grace and triumphant mercy, to be at one with everything.

I was able to feel the emotions and thoughts of all things for a moment and I felt connected in a way I had never done before.

This state of being was beyond union and oneness of heart and mind where I had been before, to a new state of existence that was what had always been intended for but was not possible because of independence.

Son, you are now lost in this state, swimming in a vast ocean of being one with all things: so you can now appreciate what is possible when restoration of all things is complete.

What you are feeling is a fellowship with all things at a level that goes beyond what was in the beginning to a new level because of your ascension to maturity as Our precious son.

This is where the whole of humanity must go so that mankind can flourish and blossom along with all creation in a union that is beyond.

I realised that I was not just connected to feel and think with creation but I was it and it was me. There was a harmony of oneness that had no separation of identity, all was me and I was all.

The feelings and emotions at that moment far surpassed even the depth of the oracles of the Father's heart I had previously encountered.

Son, you know by now that there is always going to be a beyond your present state of being and becoming is what is next, beyond just being in a state of rest to become rest itself.

You must go beyond being connected to creation in emotions and thoughts to become creation, with no separation of identity; then the next stage of your journey can begin.

Son, there are many seasons ahead and many roads to travel on the journey to become, so let this experience be the catalyst that prepares you for being beyond.

Being beyond is far more than going beyond, as you will discover as you continue to become all you are. Son, you cannot describe this journey for others, they must discover it for themselves: so this must be your last Vision Destiny series.

You have known this time was approaching and it is now here, so this new season will be an end and a new beginning for you.

You can produce a series of books that catalogue your journey to this point and you can share your group encounters, but no more journals of Our conversations and experiences.

Heaven is about to enter the season of rest beyond mercy, and so must you; so be ready for the withdrawal symptoms you will feel as you begin this new period.

Son, you have gone from leading a church on this journey in a corporate way to finding the individual path to enlightenment that all must follow to know their true identity.

This has enabled you to equip those who are willing to persevere in the engaging God community to be able to follow their own path to enlightenment.

Once individual identity is discovered, then corporate identity can be found: but not just as church, but with creation.

Son, this is why We are drawing Our children out of the false security of groups into the wilderness of discovering true self, so that they can all become one with all things.

Son, enjoy the rest of becoming and there will be more beyonds for you; but you cannot share them with others as they must discover them on their own journey.

Vision Destiny 2022 – Session Twenty-Nine

There is a beyond to helping Our children to find and fulfil their destiny that they can only discover for themselves in their own beyond beyond.

8th of September was when I had my first encounter in heaven in 2008 and now this is the date when I will stop sharing my journals.

This does not mean my journey is over of course, or that I will stop journaling, but I will not be sharing them as a Vision Destiny series.

The end is always a new beginning, so I encourage you to complete you own journey. Never give up, keep persevering, and be willing to step out of the boat of the security systems you have in your life.

We have gone through, and are still going through, individual and corporate deconstruction of our beliefs and our identity to discover who we are on our own so we can truly become one with each other and with the all things of creation.

This has been a fourteen year journey that has taken me beyond beyond again and again.

Thank you for walking with me for part of the way and allowing me to walk with you.

Thank you for all your support and encouragement along the way.

The journey to your true individual and oneness identity lies beyond where I can take you, so continue to boldly go beyond your own beyond.

Rest is the key to restoration, revelation and creativity.

Start to focus on your breathing, slowing it down; and start thinking of the name of God, YHVH.

Breathe in deeply the unconditional love of the Father.

Be still and feel loved.

Be still and know that I am God.

I am love, I am joy, I am peace, I am truth, I am limitless grace, I am triumphant mercy.

Invite love, joy and peace to flow in you and through you to create an atmosphere of rest around you.

You are in a safe place

Start to think of an open heaven and set your desire upon engaging the Father's heart.

Engage the realm of light to experience the light of love and truth at deeper levels of being.
