

## Instructions - How to start using the *Engaging God* Manual

Navigate to [http://freedomtrust.org.uk/AR/?page\\_id=2260](http://freedomtrust.org.uk/AR/?page_id=2260) and choose one of the versions of the manual.

Don't use your browser 'back' button while you are in the manual.

On page 1, click 'Index'

Work through all the sections on the Index page until you get to Main Menu.

**Please do not skip this!**

**Once you have worked through all those sections**, click 'Main Menu'.

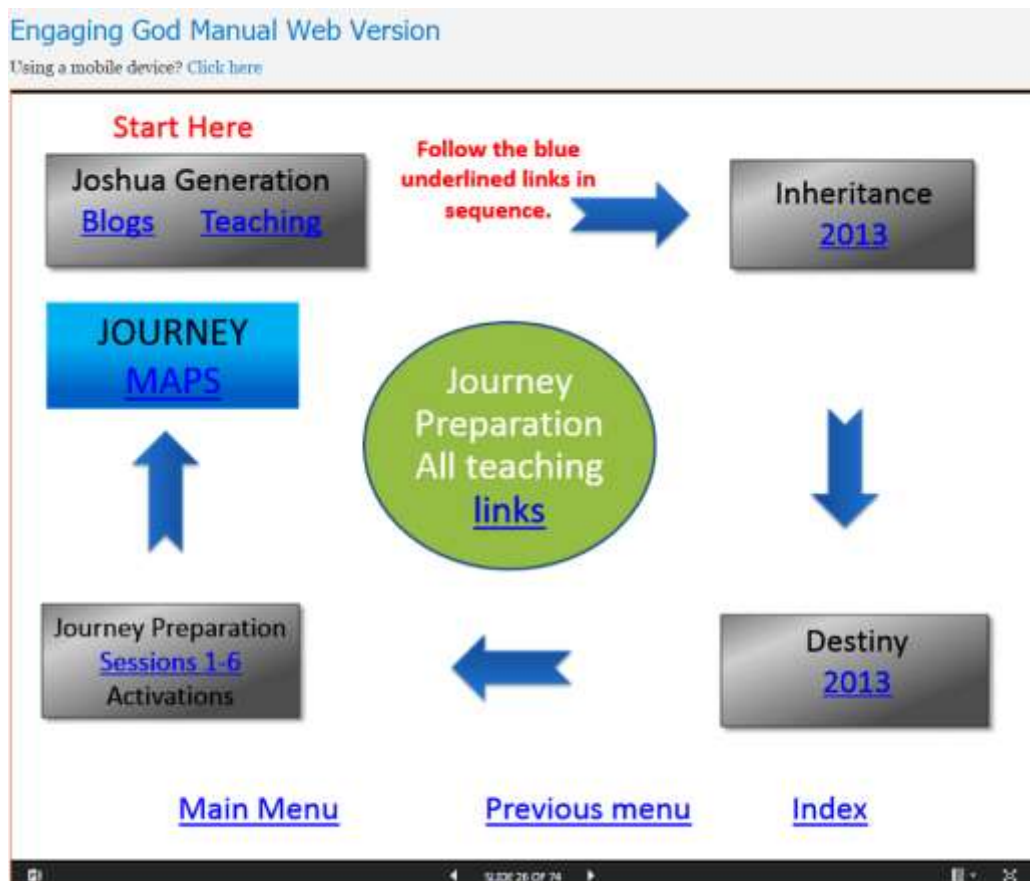

Click Module 1 Journey Preparation.

Watch the Introduction video (opens in a new tab/window)

Go back to the original tab/window.

Click Journey Preparation Resources Menu.

This opens a page which looks like this:

Start top left, and follow the arrows around the page, interacting with the audio and written materials as you go.

If you want to download all the materials (for the whole programme produced so far) you can click on the green oval in the centre and download them from there.

When you have finished all the material in Module 1 (it ends with the 'Journey Maps' in the blue rectangle) click on 'Main Menu'

Click on Module 2 Base Camp Introduction. Select a version of the Introduction from the menu (opens in a new tab/window).

When you have finished with the introduction, go back to your original tab/window and from the list click on 'Base Camp Module Menu'

This opens a flow diagram similar to the 'Journey Preparation' one above.

Work around it in exactly the same way. When you have finished, return to the Main Menu.

Click on 'Pathway of relationship'. This opens up further modules which have similar flow diagrams to work around.

The link to 'Pathway of responsibility' will be opened when further modules are made available.

### **Checklist**

We have created a [Checklist](#) which you can print and check each item off to make sure you have covered everything... but please do not try to use it in place of the manual!
