

To function in a Governmental sonship position we need our identity as sons to come from the Father. We need a cardiognosis, face to face, heart to heart, knowing the desires of the Father's heart. Governmental sonship is reflecting the Father's heart.

The Earth shield is not only be protecting the earth from external influences but can also be expanded to protect the solar system.

The solar system is a union of planets designed to be in harmonious balance.

Creation is longing for the freedom only the sons of God can bring.

As we mature as sons we are given greater levels of responsibility with a wider remit.

We all have a responsibility for planet earth and its restoration but there is more to creation beyond the earth, extending to the cosmos and the dimensions.

There is a new level of relationship that the Father is inviting us to engage so that we know His heart.

Union and oneness are required if we are going to engage creation as sons representing the Father's desire for restoration.

There are other realms beyond our physical dimension.

There are portals to those dimensions in the constellations

There is access through the portals associated with the everlasting doors.

North, South, East and West Gates

West or Western Gate.

My first involvement with the west gate was in October 2015.

Father asked me to assign some angels to guard it as people were seeking a dimensional incursion so it was important to guard the gate.

Father indicated that in the future we will be able to access that gate.

Jason Westerfield led an "Open the western gate" conference a few years ago, in November 2015. He was manipulated by people to try to open that gate; it didn't happen because the gate was guarded and people were warned about it in dreams.

In the 20th century it had been opened on two occasions. In 1917 Aleister Crowley saw beings he called Lam, that looked like the greys (right).

In 1946, Jack Parsons and L. Ron Hubbard opened it – and after that Roswell-type incidents occurred.

Hubbard invented Scientology and Dianetics.

The gate was opened by using Babylon and Egyptian incantations.

The incantation used sound frequencies and movement.

The west gate was also opened in ancient times using illegitimate knowledge given by the fallen watcher angels.

When you look at the history of ancient civilizations, some of them just appear suddenly.

The Sumerian civilization just seemed to appear: they had knowledge, particularly constellational knowledge, and numerology based on the number 6 rather than our decimal system, but where did that knowledge come from?

In the Tower of Babel event they were seeking to open up a portal.

Watcher angels previously gave mankind knowledge in exchange for DNA.

In history there is knowledge which has come from other illegitimate sources that has caused a lot of trouble on the earth.

Earlier this year in a governmental group, the Father talked about giving us a mandate to open the western gate; and then recently, when another group met, we had an executive order to engage the west gate.

We need to be careful about being presumptuous about entering the west gate without a clear mandate. This also happened with a number of groups, where each seemed to have a different purpose in connection to the west gate

Having looked at engaging the solar system, how the union of planets relate to the earth, how their frequencies affect the earth and vice versa, that has led me to pursue the Father about how; and that has directed me to seek revelation about portals and gates.

What are these gates, particularly the north, south, east and west gates?

Where are they?

What are they for?

How can they be restored?

How can we use them?

The 4 gateways are related to the everlasting doors; the everlasting doors are also related to the solar system and frequencies engaging the earth. Areas on the earth were receivers and transmitters of those frequencies.

There seems to be residual energy

The revelation that we have received indicates that the pyramids, ziggurats and other astrologically aligned structures were built on crystalline sites that were originally designed to be the receivers of frequencies to create energy fields around the earth.

Those structures are aligned perfectly with true North and were built by the ancients using illegitimate knowledge for a Babel-like purpose.

They were trying to harness energy and communicate dimensionally.

The earth originally had one landmass, often known as Pangea, that had sites with large crystal deposits. Crystals or gem stones are in the Bible and are associated with the High Priest's breastplate and the foundations and walls of the new Jerusalem.

Crystals and gemstones were used for guidance and knowledge.

They have the ability to release frequencies associated with various abilities, including healing and wholeness.

Crystals were used in communication and timekeeping devices.

During and after the flood there were huge seismic activities where the original crystalline deposits were distributed around the earth's crust in crystalline rock deposits that create a background energy field. The knowledge of the original sites was traded for, hence the structures were built.

What is beyond the western gate?

If we are going to engage it and open it we need to make sure that nothing illegitimate is going to come back through it.

That is why there are sentinel angels assigned to guard it and also guardians overseeing it.

Man has authority to use gates and portals but most ancient knowledge has been lost during history. Gates and portals are neutral. The gates can be opened for good or bad: that is why they have been guarded.

One of the 12 chancellors' houses is the discovery house, and the west gate is linked to that source of knowledge.

There are discoveries that are ready to be released and one area is energy. Energy and other organic technology needs to be released in our day.

It might be zero point energy or gravitational energy or maybe other new forms of energy. Some things have already been released but the knowledge of it has been suppressed by the global systems in place that control those things (financial and energy corporations don't want to give up the control of oil and gas).

The gates were connected with the solar system, dimensions, the everlasting doors, and those areas on the earth that received the frequency and energy designed to balance the earth and keep the earth in harmony and union with the solar system.

We have to be careful to only do what we see the Father doing so that we do not enter into any illegitimate arrangements.

Sometimes knowledge is legitimate but the timing is not right, sometimes it is illegitimate and was never intended for the earth.

For example, weapons.

God is a God of peace. One of the first things given to man by the watchers was the knowledge for metallurgy to make weapons (and also pharmacology).

This was illegitimate, and has been used negatively ever since.

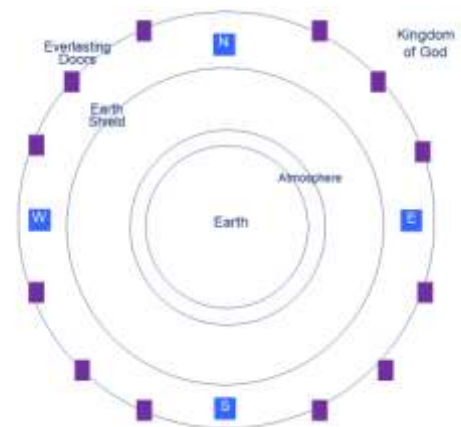

The west gate is a dimensional portal, connected to other dimensions.

The gate is in the realm where the everlasting doors sit between the heavens and the earth.

They have been used before when constructing megalithic structures.

Sound and light frequencies were used in the construction of the pyramids. The 4 gateways were used as portals to transport material from one place to another.

Those portals were a transport system and a communication system.

If we were to colonize other planets, how would we get there?

Maybe those 4 portals are connection points to other places, like wormholes.

Maybe sound opens the portals so that things go through and come out somewhere else.

Quantum entanglement is instantaneous connection for communication.

Quantum tunnelling is seemingly going through a material but it is actually going into the non-local quantum realm and coming out on the other side *without* going through it.

In science fiction, star gates were micro wormholes that connected different dimensions around the universe so you could travel through them.

Around the star gates they had Egyptian hieroglyphs.
They were powered by Zero Point Modules (ZPMs).

In the past we had abilities to use light and sound that we are only now rediscovering.
Maybe our spirit (as it was surrounding our body) would have allowed our body to travel with the spirit, just like the spirit and the soul travel together.

We don't want to do anything other than what the Father is doing.
So it is important that we always engage the Father's heart to see what His intentions are for us.
We can engage the realm of light face to face and heart to heart.

A transcript of an engagement:

In a fog; when the fog lifted, large stone disc floating
Then 4 swords came down: 2 crossed at the bottom, 2 at the top, formed a square in the centre.
The gate was being protected.

How do I bless this?

The Father said "speak peace."

As I did this the swords quivered and resonated with the frequency, the Father said "don't be afraid."

It is time to engage this western gate/portal as it needs to be opened, related to reinforcing the earth shield.

There was technology or something that needed to come through to help do this.

"I am a God of love, not war"

Yet there are people (Christians) who have reported seeing beings involved in a cosmic war.

Symbolic encounters can be misinterpreted because of religious programming.

If it is to be opened to let in the good things, how do you keep out the negative?

There would have to be guardians there.

I engaged Father's intentions, felt union, oneness, a desire to bring things back into union where they were intended to be.

I asked, what about the executive order?

That order was given during a previous group encounter.

The Father said: "You have permission to explore the realms where the gateways interact with the everlasting doors and you have permission to open the western gate and observe beyond."

Maybe we can't *go* beyond but we can certainly *see* beyond; and we can see the realm where the gate is and maybe look to get more information about that.

I saw the gate and it was a square opening.

I got the number 110.

Engagement time:

Thank you Father for permission to explore this area where the everlasting doors and gateways meet and connect and to open the gate and observe.

It seems like this whole thing is a hub for connection, transport and communication

The gates appear to be more square than round portals but there is light around them.

The four gates are set out in a particular pattern, you could say like crossed swords, or the compass points, they are connected by light but there is quite a distance between the four gates.

There are 4 guardians: one guarding each gate; also sentinel angels guarding the west gate. I see filaments of light (wormholes?). They are connecting the 4 gates and are connected to the everlasting doors.

The everlasting doors are connecting to the earth and within the gate there are connections out into the solar system; so this seems to be a nexus point or a connection point.

A circle is indicative of continuous fluid motion, a square can move, but more abrupt change in direction; forward motion but very distinct shifts, either in perspective or in the way things move, part of what has to happen.

So I began to look at the gate more clearly and it was not a like a round portal, it was a square gate. And actually, as I looked more closely at the gate, there were symbols around the gate. The markings on the gate corresponded to Lion, Ox, Eagle, Man so man at the north and lion, east, ox south and west there was the eagle.

Wisdom said, "When this gateway has been opened illegitimately the knowledge of discoveries that entered into the earth were also illegitimate."

Wisdom showed me that there is legitimate knowledge that we can receive through this gateway.

There is knowledge that is connected to the discovery house in heaven, and there are discoveries that we need in our generation today to enable what God originally intended for these gateways.

The gateways were used to bring balance and harmony to the earth
Particularly connected to the frequencies of the solar system and the planets that were used to replenish the earth.

Wisdom showed me that when certain frequencies activated these gateways, they went into the earth through the everlasting doors.

There were points on the earth aligned to north, south, east and west, where the structures were subsequently built as counterfeits.

The original sites were receivers of energy frequency and they formed energy fields around the earth. There were fields of replenishment, fields of harmony and fields of light energy.
This provided the environment for a garden to be fruitful.

The gateways have been hijacked in the past and they have been controlled and wrongly used so that those energy fields have not been functioning correctly.

We need to see the restoration of those connections and energy fields.

I see light but not as much light as usual, perhaps shrouded in mystery?

We need to release more light into this, direct more light into this.

I see the west gate and it feels like there are symbols around this gate.

We need to bless the gate as being good.

We need to forgive the wrong use of the gate.

We speak blessing to this gateway, we speak life, light, love and peace.

We speak blessing to empower this gateway for good.

We speak blessing, peace and not war; we declare that this gateway would be activated for God's purposes, for re-connection and union between heaven and earth and the earth and solar system and the earth and other dimensions.

As I speak each word the symbols are being activated, movement, light, energy being activated there. It is opening from the 4 corners, they are opening so we can see through it. There is a lot of sound, activity. It is different, light, sound, atmosphere; it is a different reality, it is full of movement.

As we draw nearer, the gateway is bigger, I can look through more now.

I heard: "realm of possibilities"

I spoke peace and a safe and tranquil atmosphere, free and clear of interference so that what comes out will come out at the proper time, in the proper way, to the proper people.

I see no sign of dimensional beings.

There is an increase in angelic witness: they are watching us.

I feel a connection between this and the house of discoveries. Information, revelation knowledge is accessible through this gate.

This gate connects to the house of discoveries to receive good.

When this has been illegitimately used, wrong knowledge has been released from other sources.

By speaking peace and blessing we ensure nothing comes through it illegitimately.

There are many possibilities for us to discover but we have to be careful which things come through at the right time.

I sense wonder and anticipation, the realm of possibilities, good surprises are in store, excitement (like before opening Christmas gifts).

The Father says that before we engage this again we need to make a Christmas list, a list of things we need to draw out of this realm.

This list needs to be prepared by engaging the Father's heart and engaging with His intentions.

When we have a wish list, we need to call for the things that are needed now and for the coming season.

We are observing; we don't know what to expect.

We choose the possibilities to become realities.

We can choose what we see to come through.

The Father will give us insight into what possibilities we can call forth.

We need to seek for godly wisdom and not use our own understanding.

What is the 110? Perhaps a top 10 of wish list, lol

110 in binary is the decimal number 6

6 is what the Sumerians based their cosmological clock and numerical system on, so we can look at this before we meet again.

A senary numeral system (also known as base-6, heximal, or seximal) has six as its base.

It has been adopted independently by a small number of cultures.

It is where we get 60 seconds, 60 minutes, 360 degrees.

It originated with the ancient Sumerians in the 3rd millennium BC, was passed down to the ancient Babylonians, and is still used in a modified form for measuring time, angles, and geographic coordinates.

The number 60, a superior highly composite number, has twelve factors, namely 1, 2, 3, 4, 5, 6, 10, 12, 15, 20, 30, and 60, of which two (3 and 5) are prime numbers.

With so many factors, many fractions involving sexagesimal numbers are simplified.

For example, one hour can be divided evenly into sections of 30 minutes, 20 minutes, 15 minutes, 12 minutes, 10 minutes, 6 minutes, 5 minutes, 4 minutes, 3 minutes, 2 minutes, and 1 minute.

60 is the smallest number that is divisible by every number from 1 to 6; that is, it is the lowest common multiple of 1, 2, 3, 4, 5, and 6.

666, associated with Nero Caesar in Revelation, has made 6 a negative number.

6 is the number of man: two sets of 3: spirit, soul, body; Father, Son, Spirit; whoever is joined to the Lord is one spirit with Him.

3 - 6 - 9 -12.

During group encounters each person sees from their own perspective and it is important to spend time reflecting on the revelation and insight that each receives so that it produces a harmonious oneness that reflects the heart of God.

As we all mature in sonship we will be given access to new areas and be given greater responsibilities. Our character will need to match the increased levels of authority we are given, so expect refining and purification.

I am sure there will be many more discoveries of the heavenly and dimensional realms, connected to our governmental and creational sonship abilities, that will be revealed.

Seek and pursue by desire to engage these realms as led.

Let's engage and ask the Father to show you what you need to see right now on your journey.

Rest is the key to restoration, revelation and creativity.

Start to focus on your breathing, slowing it down; and start thinking of the name of God, YHVH

Be still and know that I am God

I am love, I am joy, I am peace.

Invite love, joy and peace to flow in you and through you to create an atmosphere of rest around you. You are in a safe place.

Start to think of an open heaven and set your desire upon engaging wherever the Father takes you.
