

# Heavenly Realms

- A major aspect of the heavenly realms is the governmental perspective.
- There are different levels of governmental authority relating to the different realms.
- Our mountains and our thrones are **positions** of governmental authority that are in different realms.

# Heavenly Realms

- As we mature in sonship there is a creative function we begin to operate in.
- This requires deconstruction and renewal of our minds and the expanding of our consciousness to engage creative possibilities to choose and create realities.

# Heavenly Realms

- This creative function takes us beyond the basic realms of Kingdom of God, Kingdom of Heaven and Heaven to engage Heaven of Heavens, Perfection and Eternity.
- Those higher realms are more closely connected to the eternal now for the transcendent outside of time and space perspective of God's heart.

# Heaven's Court System

Sons Arise is the cry from the Father's heart to unveil, reveal and release His children into their full and glorious identity and inheritance as mature sons of God, the Elohim god-like ones

# Heavenly Realms

- Sonship and quantum physics.
- Quantum entanglement.
- Multidimensional living.
- Creative process of choosing and creating realities.
- Brooding and incubating reality.

# Heavenly Realms

- Creative Engagements.
- Son creation is still groaning if you are to set creation free you must learn to connect and feel its frequency.
- I activated my root energy gate and reached out to creation with my desire that was birthed in cardiognosis with the Father.

# Heavenly Realms

- I drew on the river of life as rivers of living water flowing out of heaven into my spirit and I focused the flow through my worship gate through the desire of obeisance as the seat of rest and government was offered to the Father in trust.

# Heavenly Realms

- The flow was directed by my choice through that gate in my soul by only wanting to do what I know is the Father's heart, my choice is to be a living sacrifice immersed and cocooned in the circle of the loving conversation.

# Heavenly Realms

- The flow was directed through the garden of my heart my deepest inner desire cultivated in the secret place and then focused as energy frequency in the Merkabah.

# Heavenly Realms

- The Father's desire for creation was my motivation so I directed that flow to three gateways simultaneously activating the root and the crown connecting heaven and earth through my heart gate.

# Heavenly Realms

- I was connected to creation grounded sensing and feeling creation's emotions, energy and physical life force but also connected to the spiritual dimensions of creation and the Father's heart.

# Heavenly Realms

- My awareness of the connection between physical and spiritual, chaos theory, string theory the unified quantum field, fractal images was intensified and filled my mind with mathematical beauty.

# Heavenly Realms

- I opened my heart to the Elementals and invited union as I waited an abstract feeling began to form into a mental image of creation's mind.
- I felt connected to creation like I had only felt twice before when I was spaghettified at a subatomic level.

# Heavenly Realms

- This was a living emotional connection with the sentience of creation but also with the heart and mind of the Father and His desire for total restoration.
- I felt the chaotic swirling groaning emotions of creation in bondage to corruption.

# Heavenly Realms

- Out of that mass of emotion emerged the Father's original intention becoming clearer as all the disconnections between creation internally and externally, the seen and the unseen revealed the design and the heart of the designer.

# Heavenly Realms

- The Father's original desire for union, oneness that was one ripped apart so violently but was now being restored in the connection I was feeling as a son joined to the Father's heart.

# Heavenly Realms

- The wonder that I feel sometimes when looking at nature or a nebular was multiplied and intensified to feel what the Father felt when He declared it is good.

# Heavenly Realms

- I felt the pleasure of the creator and the joy of the creation as it was in the beginning and I was almost overwhelmed with the emotional intensity of creation's song the music of the spheres joyously conducted.

# Heavenly Realms

- The great symphony of creation in its purity and beauty was awesome and as I listened, watched and felt creation's union with the creator; restoration was not only inevitable but my part in it was sealed and guaranteed.

# Heavenly Realms

- I was captivated caught suspended between the arc of creation and creator immersed and one with both.
- I now understood my role and the connection with the Elementals through this amazing union of heart, mind and purpose.

# Heavenly Realms

- All that has been lost, disconnected, fragmented and broken will be restored it is the destiny of sonship.
- My experiences with the dimensions and those living beings, the fallen spiritual beings and the Elementals now made perfect sense when seen through and experienced within the Oracles of the Father's heart.

# Heavenly Realms

- The ROAT is the desire of the eternal now the heart and mind of the creator as a loving Father converged and expressed in time through our sonship.
- As sons we are the vital component in this equation and that is why creation is looking at mankind longing for our revealing in maturity.

# Heavenly Realms

- So on this is the first of many reconnections that need to take place as three gates are opened governmentally in perfect union, this was the heart with the arc of crown and root but there are other arcs joined by the heart to form government within you.

# Heavenly Realms

- Spirit, soul and body unified with the life force in pure celebration.
- Joie de vivre
- The joy of life
- This was a celebration of the Father's original intention.
- I was undone and totally overwhelmed.

# Heavenly Realms

- I saw some photos of the cosmos that were released by NASA to mark the 25<sup>th</sup> anniversary of the Hubble telescope.
- I was really drawn to one particular picture of what is known as the Cosmic Reef.
- Particularly the Blue nebular that looks like a portal.

# Heavenly Realms

- An ascension group were also drawn to the blue nebular.
- When we ascended I went out into the cosmos drawn by the blue portal nebular.
- When I entered through the membrane it felt familiar like I had been there before.

# Heavenly Realms

- This was a place connected to the eternal now of God's heart but I had only ever seen it before from a heavenly perspective accessing it only from the heavenly realms.
- This was a cosmic access point that connected to God's heart and creative desires.

# Heavenly Realms

- This was not an access point that had been entered through before other than by Enoch as I later discovered.
- Only now because of our union and cosmic focus can we enter.
- Our sonship is unveiling the ancient paths once again.

# Heavenly Realms

- I immediately heard and felt the sound and light frequency that was His voice vibrating with energy.
- This was the Chamber of Creation where the Father's heart beat was creating a rhythm more like a cadence that was pulsating with living energy grace, His divine enabling power.

# Heavenly Realms

- There was a membrane between the spiritual and the physical dimension like the event horizon of a black hole because this was the original singularity that formed creation.
- This was where the creativity of the eternal now is released.

# Heavenly Realms

- This was where the heart and mind of God in agreement spoke all creation into existence this was the origin.
- The Father said this is where you must gather together when you desire to release a shock wave ripple of exponential creative energy from the eternal now perspective into cosmic time and space.

# Heavenly Realms

- I began to let my thoughts form words that were resonating with the Father's heart and they began to pulsate to its cadence becoming greatly amplified.
- It was like when we speak here the Father adds His voice to ours sparking creative power.

# Heavenly Realms

- This chamber is where the vibrating energy of His voice and our voice engages with the vibrating living light strings of energy that are within the fabric of all creation.
- Limitless grace in creative expressions.

# Heavenly Realms

- This place is the source of zero point, the unified quantum field, quantum foam this is where all creation is held together by the power of His voice.
- One sugar cubes worth of this energy can power 400 billion galaxies and it is within us and when focused produces limitless energy and creativity.

# Heavenly Realms

- The chamber of creation is the opposite of black holes which absorb light and energy because they are the absence of light but they do emanate a sound that is the groan of creation a B flat 57 octaves lower than the keyboard middle C octave that is one million, billion times lower than the lowest sound audible to the human ear.

# Heavenly Realms

- I remembered past experiences.
- I began to vibrate pulsate almost convulse as I resonated to the cadence of the Father's heart.
- The living light beings swayed to the rhythm of the frequency of creative thought.

# Heavenly Realms

- Son you have all have been shown something within the Chamber of Creation that only Enoch saw when he walked the stars.
- This knowledge is precious and powerful beyond measure be very careful and ensure that you never use it individually and selfishly but only in union together.

# Heavenly Realms

- This chamber has the creative power to change and transform the physical realm to restore it to its original condition purpose.
- This power is a living power as within Us there is only life that is why it is light and light is alive, grace is alive, love is alive they all take angelic form and the strings that science has discovered are alive.

# Heavenly Realms

- The strings are alive and whenever we speak it is living limitless grace and that responds through the beings that were named Quantum Lumens.
- We were told to name them so that they could be revealed and things would be seen.

# Heavenly Realms

- So they were named by one person the Quantum Lumens.
- Whenever you choose and create reality those light beings of pure limitless grace form the fabric of existence as they respond to your sonship.

# Heavenly Realms

- Son start choosing life to form the future aligned to Our heart beating to Our cadence on a cosmic scale just as you have learned to choose reality controlling time and space within your own sphere.

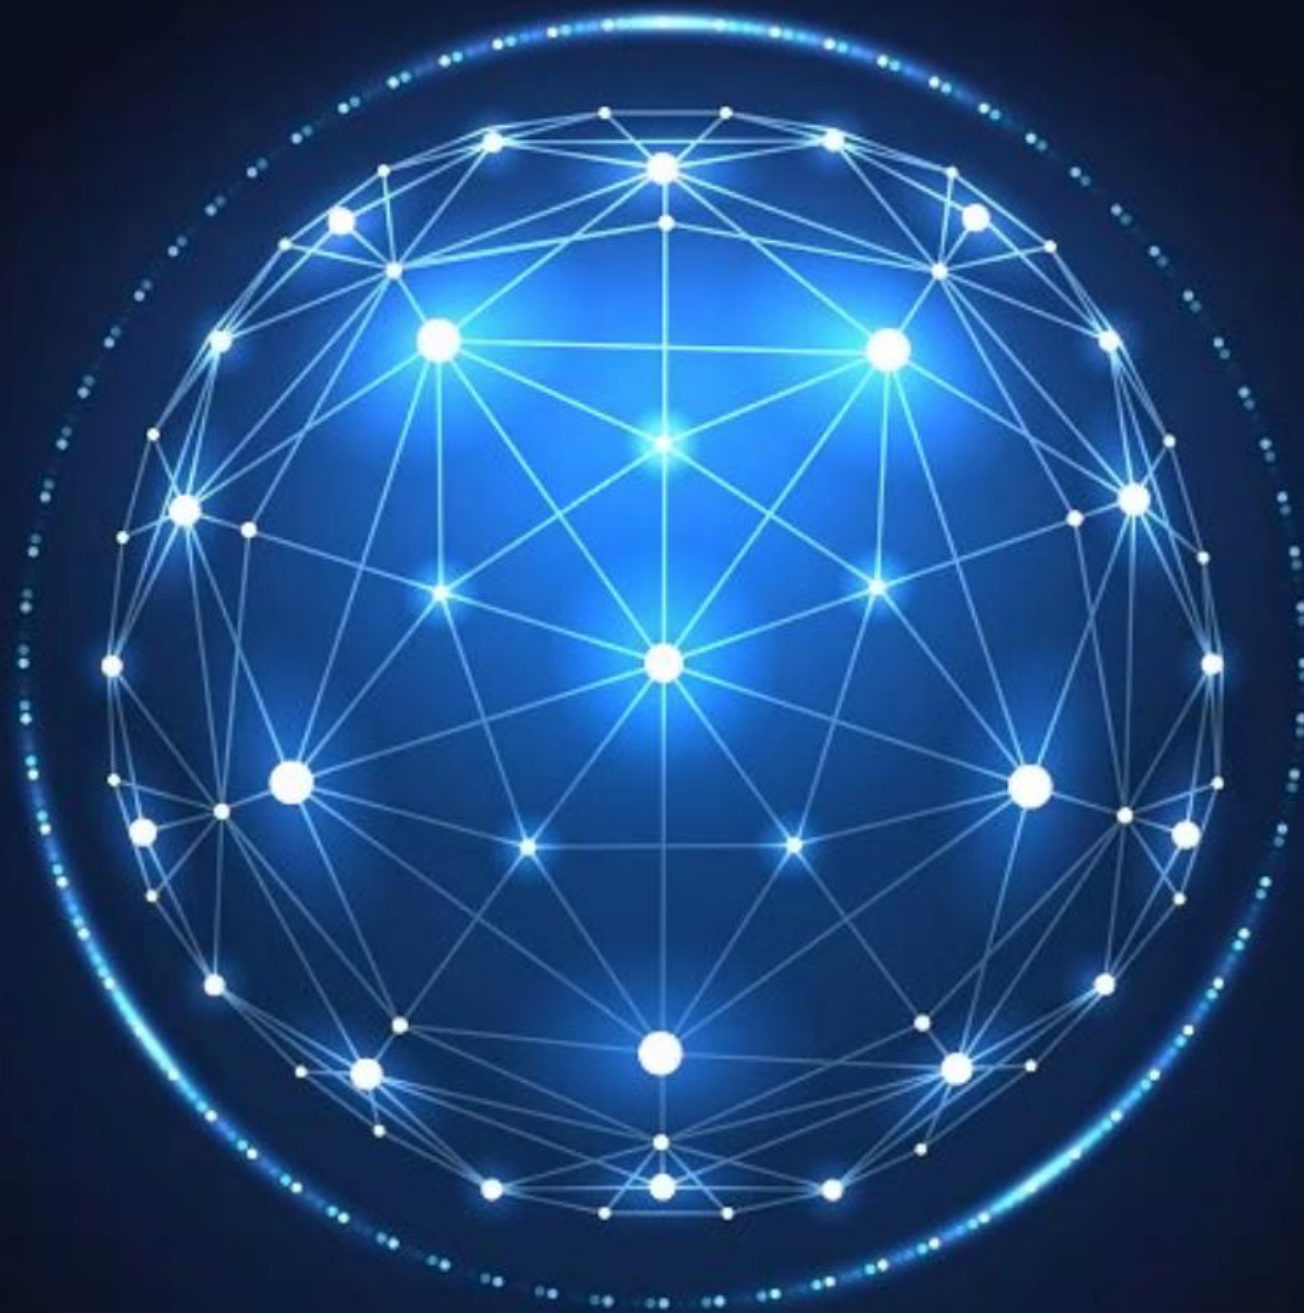

# Heavenly Realms

- The cosmic sphere of government can never be controlled by any one person but only by the union of hearts and minds that are willing to selflessly collaborate with the Father's heart.

# Heavenly Realms

- You have all been called for a time such as this, Kairos moments that will affect Chronos time and space for its restoration.
- The shield around the earth sphere that your union is creating is increasing and will eventually become a energy field around the whole cosmos as you mature in oneness in union with others.

# Heavenly Realms

- Son the Chamber of Creation will amplify your one voice when in union so legislate from there.
- Seek Me for My heart so you can resonate with Me and all creation will begin to respond to your one voice.
- I later found the place to do that.

# Heavenly Realms

- The living grace light beings (Quantum Lumens) are that which holds the fabric of creation together and are the creative force behind all that is created.
- Your awakened sonship consciousness has the ability to see and choose the reality of the restoration of all things.

# Heavenly Realms

- When you speak as one with each other and My heart from within the Chamber of Creation the sound that you release enables the light to bond together as one to manifest reality.
- Popping a Qwiff collapsing a quantum wave function.

# Heavenly Realms

- Great changes that seem to suddenly appear on the earth or in the cosmos all began as thoughts that are amplified into living words that become living light.
- There is a place of brooding and connection that creates the sound you hear that I will show you soon.

# Heavenly Realms

- Legislate as one for the global changes that you seek to prepared the earth and the cosmos for the shift into the next age of enlightenment and rest.
- Son Enoch, Melchizedek and Wisdom are to be your guides and many of the great cloud are coming to the brightness of your rising to support you.

# Heavenly Realms

- Engage with them and listen to the wisdom that they carry as they have many things to impart to you.
- It is important that you unite creation by involving all those that have been revealed to you from the different realms and those who have been restored.

# Heavenly Realms

- Son let me show you something, come walk with Me.
- I saw, felt and sensed the connection of life between all things that unifies creation.
- This was part of a series of encounters going back to 2010.

# Heavenly Realms

- I sensed the connections within the heavenly realms between the living beings and the cloud of witnesses functioning like a vast living neural net of love's light.
- We are to be the convergence of this connection with the Elementals of creation.

# Heavenly Realms

- I sensed the grace light beings within the fabric of all things longing for the physical creation to be united as the spiritual heavenly dimensions are.
- I began to sense the desire of the oracles of the Father's heart living within the light of those light beings resonating with life force.

# Heavenly Realms

- The energy of love's light pulsating within the fabric of creation creating a potential unified field of consciousness.
- The echo of a memory of what once was and will be again is drawing creation back to a union that it is longing for deep within its fabric.

# Heavenly Realms

- The vibration is getting stronger as sonship is revealed and more are rising and shining awakened to love.
- Love's light is the grace loving energy that connects and holds all of creation loosely together but it is also drawing it together into a union of greater coherence.

# Heavenly Realms

- I felt it deeper than ever before because it is stronger than ever before as it is being amplified by our union and rippling through space time.
- As the ripples go out into all the dimensions they are not diminishing but getting stronger being energised and energising simultaneously.

# Heavenly Realms

- Hope for restoration is the energy frequency that is awakening creation and hope's whisper is itself growing louder as if all the light beings are being excited and activated.

# Heavenly Realms

- The faint whisper of hope and the testimonies of restoration are creating morphic resonance throughout the dimensions of creation.
- So many of those lost and adrift in hopelessness are beginning to sense the expectation of restoration.

# Heavenly Realms

- The tide has turned the balance has shifted and momentum is increasing everything feels brighter more expectant of hope being fulfilled from the flow of the Tree of Life.

# Heavenly Realms

- Joy is rising fuelled by hope strengthening love's bonds within the unified field of existence.
- It feels like the groan is slowly becoming a laugh.
- It is but a faint barely perceivable change but it is there hope restored is rippling through creation like leaven permeating dough.

# Heavenly Realms

- Son the age of light is living in the light of love which is true oneness with I am that I am.
- Living in the light of oneness illuminates creation and restores it back to its position which you saw in 2010 where there was no absence of light.

# Heavenly Realms

- The whole cosmos was illuminated by each living being made of creative light.
- Each being was filled with the light of love and radiated love's light as luminaries.
- We are called sons of light, the light of the world actually cosmos.

# Heavenly Realms

- Restoration will restore that primordial condition and everything that was created in the beginning will be transfigured to reveal Our true essence as they reflect I am in glorious splendour.

# Heavenly Realms

- Son that is just the beginning not the end of the ascension of mankind as Our children are destined to become ascended fathers and co-creators in the ages to come.

# Heavenly Realms

- The ability to speak with Our voice like a father will awaken the creative power within you to partner with what you have called Quantum Lumens to form new creative realities.

# Heavenly Realms

- Son you will only be limited in creative light power by the smallness of your thinking and imaginative ability.
- Do not limit creativity by being tethered to what you presently know because with an expanded consciousness there is limitlessness.

# Heavenly Realms

- With the ability to create must come the responsibility to have a father's heart towards that which you will have the power to create.
- With great creative light power comes even greater responsibility to be love's light shining with the oracles of the Father's heart.

# Heavenly Realms

- Son love cares it is deeply compassionate towards that it creates with a passion and burning desire for its wellbeing.
- When you are truly mature as ascended fathers you also will be fiercely protective towards what you create with joyous pride and pleasure.

# Heavenly Realms

- Your creations will be the treasure of your hearts just as this present creation is the treasure of Our heart.
- Son remember true love never gives up, never fails can never be separated or divided from its object, and will always eventually win and overcome.

# Heavenly Realms

- Son learn the dancing movement of the living light beings as they respond to the sound of your voice.
- When you speak with a father's heart light will be ignited and become activated bursting with love's creative energy.

# Heavenly Realms

- Son in the age of light living light itself will dance to the rhythm of the frequency of the beating of your heart as you learn to express your creative desire as thoughts tuned to the frequency of love.

# Heavenly Realms

- Standing in the Chamber of Creation I saw the living light grace beings, the Quantum Lumens, moving to sound like a swirling mist or flock of birds flying in murmuration or shoal of fish shimmering as they move in unison waiting to form into the manifestation of the creator's desire.

# Heavenly Realms

- It was so beautiful living light dancing moving waiting full of potential needing only a focused loving thought to collapse the quantum wave into reality.
- We need to understand this process to begin to change and realign reality.

# Heavenly Realms

- I engaged the Chamber of Creation and immediately began to pulsate and groan to the rhythm of the Father's heart for creation.
- It felt like I was vibrating but contracting in picking up energy and expanding out over and over.

# Heavenly Realms

- I began to groan my mind and my voice in agreement with the frequency it became deeper and louder.
- I became totally unaware of my body in a trance like state I saw the Quantum Lumens dancing to the rhythm of the groan swaying like a moving ribbon of light particles.

# Heavenly Realms

- This became more intense my thoughts and my whole being entwined in the sound and light that I was part of.
- It felt like it was moving being conducted and I was moving with it.

# Heavenly Realms

- I then focused my thoughts and the frequency of my being with each of us in union on releasing the light into the earth shield and into areas where there was an absence of light.

# Heavenly Realms

- The Quantum Lumens moving as one living being began to stream out of the chamber through the portal energised by the sound that we were producing.

# Heavenly Realms

- I saw and felt the living light focused and streaming with purpose connecting and energising synchronising with other sons around the world.

# Heavenly Realms

- I saw Enoch and Limitless together in agreement with us in union with us directing the sound and the light.
- The Father's heart expressed through us in a union of living sound and light is awakening people to the new reality that we in union with each other and with others are creating.

# Heavenly Realms

- The Father began to speak to me of unconditional love in regards to this global awakening of consciousness.
- I went into the dark cloud the cloak of mystery and engaged with the restored angels of Union, Covenant, Peacemaker, Family, Hope and Protector.

# Heavenly Realms

- I shared our heart with them about shielding protecting the earth as we steward this revolution.
- I asked them to help us weaken the systems of global influence.
- We need help in this process as there is the creative and the action that accompanies it.

# Heavenly Realms

- The global systems function through division, competition, conflict and tribalism.
- We need help to remove the cabals controlling the economy, banking systems, oil industry, pharma corporations, the arms dealers by drawing more of their kind (fallen beings) to restoration.

# Heavenly Realms

- I asked them to help destabilise the systems so this awakening could gain momentum by inspiring counter culture through the genuine protests.
- They agreed and together in union we began to release a ripple of frequency into the spiritual realms.

# Heavenly Realms

- It felt like we were getting the attention of the orders of fallen angels responsible for division, conflict, competition and tribalism and some on them began to lose their focus.

# Heavenly Realms

- The frequency began to draw them towards the dark cloud and away from their activities in the earth so that the awakening could accelerate.
- This is an ongoing process that needs many sons in agreement to legislate.

# Heavenly Realms

- The living light streams began to illuminate the areas of darkness with revelation truth enlightening people to the possibilities of change.
- It felt like this enlightenment was going to become the seed bed for the future to usher in this global golden age with a new renaissance.

# Heavenly Realms

- Rest is the key to restoration and revelation
- Start to focus on your breathing slowing it down and start thinking of the name of God YHVH
- Breathe in deeply and exhale slowly  
Yod
- Breathe in Hei and out Vav

# Heavenly Realms

- Repeat in Hei out Yod in Hei and out Vav
- Be still and know that I am God
- I am love, I am joy, I am peace

# Heavenly Realms

- Invite love, joy and peace flow in you and through you to create an atmosphere of rest around you
- You are in a safe place
- Start to think of an open heaven and set your desire upon engaging wherever the Father takes you.
