

# Heavenly Realms

- A major aspect of living in the heavenly realms is the governmental perspective.
- There are different levels of governmental authority relating to the different realms.
- Our mountains and our thrones are **positions** of governmental authority that are in different realms.

# Heavenly Realms

- As we mature in sonship there is also a creative function we begin to operate in.
- This requires deconstruction and renewal of our minds and the expanding of our consciousness to engage creative possibilities to choose and create realities.

# Heavenly Realms

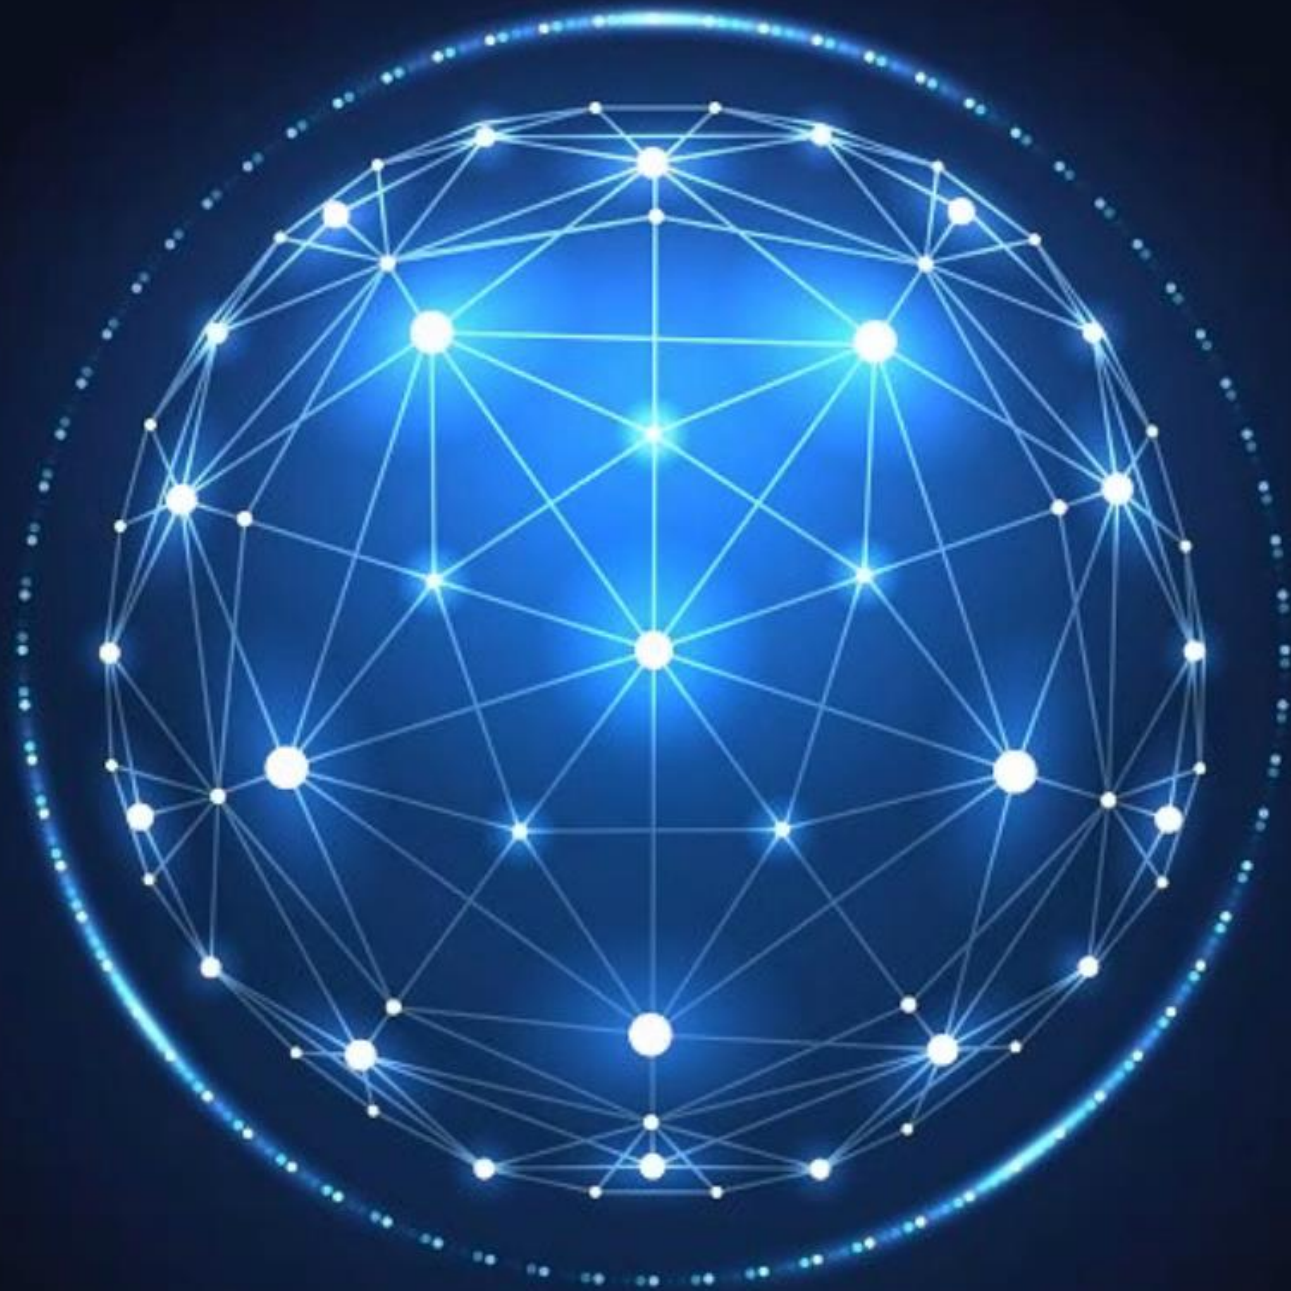

- This creative function takes us beyond the basic realms of Kingdom of God, Kingdom of Heaven and Heaven to engage Heaven of Heavens, Perfection and Eternity.
- There are important places within those realms that are key for our creative functions.

# Heavenly Realms

- Those higher realms are more closely connected to the eternal now for the transcendent outside of time and space perspective of God's heart.
- That means when we choose and create reality it is aligned to the Father's heart.

# Heavenly Realms

- Global, cosmic and dimensional roles.
- Sonship and quantum physics.
- Quantum entanglement.
- Multidimensional living.
- Brooding and incubating reality.
- Creative process of choosing and creating realities.

# Heavenly Realms

- Cradle of life within the Father's heart accessed through the golden gates in the Father's garden.
- Chamber of Destiny behind the sound of many waters waterfall in the Father's garden.
- Chamber of Creation where the Quantum Lumens are activated.

# Heavenly Realms

- Realm of light in the dark cloud within the realm of perfection.
- Cloak of mystery within the dark cloud within the realm of the kingdom of God.
- Elemental thrones connecting us to creation.

# Heavenly Realms

- I went into the dark cloud in the realm of perfection drawn to light to absorb the light of truth and as I looked into the Father's face I was able to focus on different facets of manifoldness in regards to creation.

# Heavenly Realms

- I saw the beauty of the original intention in majestic splendour and I absorbed the frequency of that beautiful light.
- This was an amazing experience of being as it was always meant to be in the total rest of I am that I am.

# Heavenly Realms

- I entered the Cradle of Life to brood over the beauty of the fallen ones focusing on the order of Division that functions through producing mixture, compromise and lukewarmness that perverts the purity of oneness in the name of this false unity.

# Heavenly Realms

- As I brooded and resonated with the Father's heart of love for those responsible feeling and seeing the images of original intention.
- Being joined and resonating in agreement with the Father's heart must be the foundation of all our creative intentions.

# Heavenly Realms

- I saw the sound of many waters activate the Chamber of Destiny which amplified the sound of my groaning and in the Chamber of Creation that frequency excited the Quantum Lumens the light beings who began to form the reality of restoration.

# Heavenly Realms

- I went into the cloak of mystery and released the frequency of love's light that would draw those beings of false unity.
- They create unity of a compromised joint belief but not producing true oneness and union.

# Heavenly Realms

- Their minds are united but their hearts are divided and they live in the illusion of unity with no oneness and union.
- I drew them into the dark cloud and in that quanta moment went through the process of releasing all the light of love I had absorbed from the Father.

# Heavenly Realms

- Forgiving and releasing them reminding them of their previous position offering restoration answering every fear and objection with love's Wisdom.
- Wearing them down until that moment came when the scales of darkness and deception began to melt away and the beautiful light beings emerged.

# Heavenly Realms

- On behalf of the seven I commissioned them to engage the Church systems to draw people out of compromise to connect with true union and oneness of true new order Ekklesia.

# Heavenly Realms

- I released the frequency of love's light into the wilderness of religious compromise to call the children of God to come out from under the false coverings of the Moses order to cross over into their heavenly inheritance and true union.

# Heavenly Realms

- Son brood over restoration within the Cradle of Life really go deep to identity with creation's groaning.
- Feel the pain creation feels over the lost identity of Our children and the discord and disconnection that was once union and harmony.

# Heavenly Realms

- The longing and waiting in anticipation of the rising of sonship is over now as the new dawn has now broken.
- The frequencies of hope and the light of love have rippled throughout creation and the Elementals are awakening as a sign.

# Heavenly Realms

- Hope springs eternal this is now the beginning of the end of bondage and new days will dawn in an age of fulfilment and freedom where the light of truth will shine brightly.
- Division between man and creation is ending as the sons of God become one with Us, each other and creation once again.

# Heavenly Realms

- The songs of the joy of union will be sung sounding throughout creation in a jubilant celebration once again.
- The united orchestra playing the great symphony the music of the spheres signifying the dawn of the new age.

# Heavenly Realms

- Son brood long for the fullness of restoration so the sound of many waters will be amplified in the Chamber of Creation.
- The living light of grace and truth will resonate with the sound that Our sons produce ready to form new creation realities.

# Heavenly Realms

- The glory of the children of God will bring freedom to all of creation when all the colours merge into one unified bright white light of family.

# Heavenly Realms

- The whole of creation was created to be a family full of diversity each part resplendent in its beauty a union of variety with no competition or conflict.

# Heavenly Realms

- I engaged the Cradle of Life to resonate with the Father's heart for creation and began to brood over peace and harmony.
- Those engagements with the Father's heart create a frequency that causes great resonance to form the sound of many waters.

# Heavenly Realms

- My heart was moved with compassion for those beings within creation deceived into causing Warmongering.
- I saw and felt the Father's heart for their restoration to the Father's original intention and purpose.

# Heavenly Realms

- My being began to pulsate with energy and the sound of many waters began to energise the Chamber of Creation where the amplification excited the Quantum Lumens to begin moving to the rhythm of peace and harmony.

# Heavenly Realms

- I saw the reality for restoration of Warmonger and released the frequency of hope as the light streamed into creation.
- I entered the dark cloud clothed with the cloak of mystery I began to call for the bench of three of Warmonger to be drawn to love's light and the hope of restoration and freedom.

# Heavenly Realms

- I asked Union and Covenant to stand with me as they came into the cloud and in that quantum moment I saw the next season play out.
- I became aware of all of the process that would lead to their restoration until finally the light emerged from the darkness.

# Heavenly Realms

- There before us were three beautiful light beings radiating the light of peace so I introduced them to the Benches of Union and Covenant.
- I felt the celebration of the heavenly host and I commissioned them to the task of helping to facilitate global transformation.

# Heavenly Realms

- They revealed that conflict through competition and division was at the heart of their strategies economically but their major focus was to keep the church system divided and in opposition with one another because of doctrinal and theological arguments.

# Heavenly Realms

- They revealed the great deception that is behind the economic, political, media and religious systems that maintain control globally.
- They revealed the strategy to keep us from our sonship by drawing us back to the old covenant Hebraic roots that divide and separate.

# Heavenly Realms

- As I brooded in the Cradle of Life over my spheres of influence I began to get a deeper insight into the Father's desires.
- Son all these spheres are part of your scroll in general but they are not part of you.

# Heavenly Realms

- Earthly love will always be only a pale reflection of the love who We are so look to things above and focus on the true eternal realities.
- I need to meditate on the value of the temporal and the eternal and how to balance them correctly.

# Heavenly Realms

- I released my broodings as I pulsed with life for a better future into the sound of many waters waterfall to be amplified in the Chamber of Destiny as a conduit into the Chamber of Creation where the amplification process excited the Quantum Lumens to begin to shape reality.

# Heavenly Realms

- Son come and brood over a restored future in the Cradle of Life.
- Feel Our heart let Our desire motivate your intentions so you can be as We are.
- I felt the energy of life begin to pulsate within my heart creating new future possibilities that were filled with positive energy.

# Heavenly Realms

- I took that energy to the waterfall and imparted it to the sound of many waters for amplification in the Chamber of Destiny so it could echo within the Chamber of Creation to form future reality.

# Heavenly Realms

- I saw the living light swaying and moving energised and activated by the sound frequency of my desire.
- I saw the future begin to manifest into reality where hope fulfilled is a tree of life.
- The Quantum Lumens streamed out to form reality.

# Heavenly Realms

- Son come walk with Me. We walked in the Father's garden to the golden mountain and we sat there observing the wonder of creation.
- I saw thrones associated with creation connected to the basic elements, air, water, earth and fire.

# Heavenly Realms

- Those thrones were by the river of fire, the waterfall, the mountain, the garden and there were other thrones also for the trees, animals, plants and for all beings.
- The Father took me to each throne and there waiting for me to sit as an ambassador were the representatives of each of the Elementals.

# Heavenly Realms

- They were ancient spirits and I felt their deep connections to creation and their desire for union and symbiosis with the sons of God.
- They were waiting for Our authority to complete what was lacking in them by giving them direction and order.

# Heavenly Realms

- They were powerful but not wise and the Father showed me history in a moment where they had been seduced by darkness.
- I felt their grief over the groaning of creation but also their shame for being deceived and influenced by darkness.

# Heavenly Realms

- We went to each throne in turn where a connection was made and I received a download of infused knowledge concerning creation past, present and future.
- I felt the sentience of creation and understood more of its longing and my desire for its freedom and restoration became more focused.

# Heavenly Realms

- Son you have always had a deep connection to nature but now you are more aware of the responsibility of sonship you will begin to connect and partner with the Elementals.

# Heavenly Realms

- Creation needs the government of man to be fruitful as intended and mankind needs the cooperation of the Elementals and the elements for harmony to be restored.

# Heavenly Realms

- Son the need for union and harmony with creation is built into the fabric of your being and no DIY substitute can ever bring fulfilment.
- Son these thrones will need to be occupied by Our sons who are awakened to the ancient ways.

# Heavenly Realms

- The elements must be governed to see restoration of peace therefore the winds must be tamed, the earth's plates must be unified and the seas be brought to rest so that nature will be in harmony as it was in the beginning.

# Heavenly Realms

- Son it is the season for the hope of freedom to be communicated to creation with limitless grace and a deep compassion.
- The oracles of Our heart are not limited to what you see as living beings but for all creation in all its reflections of I am.

# Heavenly Realms

- Son legislate for the sons of God to arise and respond to creation's groaning and connect with the Elementals.
- This union and reconnection will raise the frequency of the earth and cause the cosmos to react.

# Heavenly Realms

- Son the thrones within the atmosphere and the seismic plates are occupied by principalities and rulers that are controlling global issues.

# Heavenly Realms

- The sons of God are beginning to occupy the mountain spheres and the water spheres but there are still many thrones that need to be occupied and governed.
- The Elementals are presently influenced by those seated in darkness.

# Heavenly Realms

- The Elementals recognise who are enthroned and cooperate with them unless many sons are interceding to counteract the negative influence.
- Son creation is longing and waiting for Our children to arise and be seated in identity and authority in heaven and on earth.

# Heavenly Realms

- Who is seated in the atmosphere has the greatest influence on the earth but who is seated in the heavenly realms has greater authority to cleanse the atmosphere but they must converge both realms by functioning as the order of Melchizedek.

# Heavenly Realms

- Son, teach Our sons to engage and function in the dark cloud of the cloak of mystery to remove the darkness by releasing the light.
- Only when you take authority in the dual realms of heaven and earth can you restore the atmosphere and mobilise the global Elementals to enable full governmental rule.

# Heavenly Realms

- Changing the global control systems will not be possible without occupying the thrones of the elements of creation as they are used to create instability, insecurity and fear.

# Heavenly Realms

- Fear generates anger and anger is used to create division and division creates competition and that creates conflict which creates tribalism and empire which creates more cycles of division.

# Heavenly Realms

- The cycles must be broken by coming together in union of relationship that will model a new progression of well-being.
- This cycle is where union creates covenant that creates peace which creates family which brings union and harmony.

# Heavenly Realms

- This cycle of seasons functions like a fractal at many levels beginning with you being the union of spirit, soul and body and the convergence time and eternity and heaven and earth throughout the dimensions.

# Heavenly Realms

- Union leads to cooperation and peace which creates harmony which restores family oneness, togetherness and the environment that fosters love.

# Heavenly Realms

- Son when Our children truly function in relationship and government in the heavenly realms in the union of perfect love they will be able to begin to reflect heaven in and through their lives and so manifest sonship.

# Heavenly Realms

- I went to the Cradle of Life within the heart of the Father and began to brood over union until I was pulsating with creative energy and producing the frequency of oneness.

# Heavenly Realms

- I stretched out the moment of incubation to be ready to birth union and I saw Division fighting resisting but eventually falling.
- I saw the repeating cycle of the viscous circle of Division to Tribalism broken and the infinite pathway of covenant replace it.

# Heavenly Realms

- Energised by what I saw I engaged the waterfall of the Sound of Many Waters to amplify the sound of Union and it began to resonate and increase in intensity in the Chamber of Destiny until the Chamber of Creation was activated and the sound was magnified to a creational level and the Quantum Lumens began to dance to the creative rhythm of the frequency.

# Heavenly Realms

- The creative light was alive with the energy necessary to pop the qwiff and beginning the cycle of wave function collapse.
- Son the season of limitless greater grace is beginning as the age of the waters of light and love are dripping into creation ready to be poured out.

# Heavenly Realms

- Son come walk with Me. We entered the dark cloud of mystery and I was amazed by what I saw.
- The realm was filled with light and life there was so much energy, frequency and love being displayed by the restored angels.

# Heavenly Realms

- The luminosity and manifold colours of the restored ones was like an amazing cosmic firework display.
- The restored beauty was wonderful to behold and the interaction with the Father and other angels was so touching to see that I was undone and deeply moved.

# Heavenly Realms

- We have been here following up all you have done and amplifying the frequency of your love.
- You have been here continually with Us and there are multitudes of fallen ones who have returned and have been restored.

# Heavenly Realms

- More are returning by the second and there is a momentum that cannot be stopped.
- We have a strategy for their deployment as the ordinances of heaven to support the Joshua Generation in their mandate for the harvest.

# Heavenly Realms

- The light is going to shine so brightly that the frequency of the whole earth will be raised to awakening levels of illumination.
- The whole scene filled me with thanksgiving and gratitude it was joyous a celebration of restoration.

# Heavenly Realms

- I felt the overwhelming love of the oracles of the Father's heart inspire me to press on.
- In subsequent encounters I have been practicing retaining all the information and experience gained in multi-dimensionally in a quantum moment of expanded time.

# Heavenly Realms

- Different dimensional realms operate on different time scales depending on the speed of creative light that exists in that realm.
- Being in the realm of perfection an hour could be a year for example.

# Heavenly Realms

- Retaining the information of the experiences requires an expanded consciousness.
- The realm of the Kingdom of God is the closest that creative light exists in relationship to created light therefore quantum moment expansion is necessary.

# Heavenly Realms

- Convergence is only possible through intimacy where resonance takes place through cardiognosis.
- Brooding within Our heart and speaking with the voice of the sound of many waters will activate creative light energy to form reality aligned with Our intentions.

# Heavenly Realms

- The living light grace strings you call Quantum Lumens will respond to the sound of many waters of the voice of the observer to collapse wave functions to form reality.
- Son learn to brood within the intimacy of Our heart and become a voice an oracle who can legislate reality.

# Heavenly Realms

- As I became still a God thought focused my mind and my heart began to brood over the frequencies generated by the heart coherence of an expanded consciousness.
- Technology will become redundant when the heart and mind are converged with the mind of Christ.

# Heavenly Realms

- Sons who are pure of heart will see the possibilities that exist within Our heart and choose to only create what they know are Our desires.
- Focus on being joined heart to heart in the deepest intimacy of the Cradle of Life so that all you create will be pure and have no mixture.

# Heavenly Realms

- Son focus your attention on legislating limitless grace.
- I went to the Cradle of Life and began to brood over limitless grace with the Law of Limitless Grace in my heart.

# Heavenly Realms

- I engaged the Father's heart in that creative garden and began to resonate a frequency that drew Limitless who infused me with greater insight and empowerment.
- My whole being began to vibrate rhythmically to the cadence of limitlessness and my thoughts began to form into a song.

# Heavenly Realms

- The song of limitless grace that I now was, was released into the Chamber of Destiny behind the waterfall and became amplified and my voice became like the sound of many waters.

# Heavenly Realms

- This frequency crossed the event horizon of the Chamber of Creation pulsating with living thought energy and the Quantum Lumens began to danced creatively.

# Heavenly Realms

- My energised thoughts became declarations that were living light grace that began to stream into the physical realm to form the reality of limitless grace consciousness.
- I then began to sing the song as legislative decrees.

# Heavenly Realms

- I call for demonstrations of limitless grace to manifest that will expose all the limitations of religion.
- I call for limitless grace to be lavishly expressed on the worst of the worst of the global cabals to reveal unconditional love.

# Heavenly Realms

- I call for limitless grace to scandalise religion's need for payback and to expose the commodification of Jesus, the cross, work, money and time.

# Heavenly Realms

- I call for limitless grace to be poured out in excess upon those who are totally undeserving from man's judgment perspective.
- I call for limitless grace to challenge the religious and political spirit deception that has kept the children of God in spiritual poverty.

# Heavenly Realms

- I call for limitless grace in the light of the shifting and shaking of the global control systems to expose the lies of DIY delusion.
- I call for limitless grace to reveal the limitless truth of the message of the ROAT agenda of the next age outpouring of unconditional love.

# Heavenly Realms

- I call for limitless grace to release and demonstrate forgiveness on an unprecedented scale so reconciliation between the most divided will take place.

# Heavenly Realms

- I call for limitless grace to challenge and break the cycles of Division, Competition, Conflict and Tribalism through the lovingkindness of true new covenant love in action.

# Heavenly Realms

- I call for limitless grace to unveil to the ROAT message and agenda into the main stream religious institutions to reveal limitless grace and unconditional love.

# Heavenly Realms

- I call for limitless grace to seek out the fallen beings in all dimensions of space and time to open their hearts to the possibility that they can be restored from darkness to light.

# Heavenly Realms

- I call for limitless grace to be expressed through the light of sonship to all of creation to answer its groaning for freedom with limitless grace demonstrations.

# Heavenly Realms

- My declarations were alive and I saw the Quantum Lumens collapsing wave functions into reality throughout creation as that quanta moment stretched out before me.

# Heavenly Realms

- I felt overwhelming joy explode within me a celebration of the pure bliss of the limitless grace of unconditional love.
- Son let unlimited grace fill your mind and unconditional love fill your heart as an Oracle of the Father's heart with the desire for the ROAT.

# Heavenly Realms

- Rest is the key to restoration, revelation and creativity.
- Start to focus on your breathing slowing it down and start thinking of the name of God YHVH
- Breathe in deeply and exhale slowly  
Yod
- Breathe in Hei and out Vav

# Heavenly Realms

- Repeat in Hei out Yod in Hei and out Vav
- Be still and know that I am God
- I am love, I am joy, I am peace

# Heavenly Realms

- Invite love, joy and peace flow in you and through you to create an atmosphere of rest around you
- You are in a safe place
- Start to think of an open heaven and set your desire upon engaging wherever the Father takes you.
