

A mind without limitations

Mike Parsons
with Waltraut Reimer

As sons of God we are to live in dual realms, heaven and earth, and to bring freedom to creation and restore the whole cosmos to its original design. That is why we need the limitations of our mind and consciousness removed and to come into true sonship.

Our mind is our ability to think, to feel, to reason and to be aware of the world from a human perspective.

God wants us to advance beyond being just human into the eternal spirit being which He created us to be. Through our consciousness we are aware of and respond to our surroundings. Because our awareness is linked to past experience and beliefs it has to be expanded if we want to go beyond where we are right now.

How does the mind work?

A part of our brain called the Hippocampus filters the things that go through it. It stores that which it thinks is important and rejects everything else. All of us have billions of pieces of information going into our mind every day. Some get stored in our memory banks. That storage comes from repetition, meditation, agreement and confession. Included in that is everything we say or believe or things other people say to us or about us. We end up believing all those things that are not just a one off.

Our mind-sets, world views and strongholds can all be filters and veils over our mind that obstruct and filter how we process reality. The constructs that exist within our mind and consciousness frame our world, what we believe and how we interact with it. We see God, the world and everything else through the lens of our own understanding. We believe that as truth because our mind tells us so; we don't realise that it is a false reality.

The mind interprets everything we hear or see according to what we already believe. But where did what we already believe come from? Did it come from personal encounters with God Himself, who is the Truth, or did we just accept and believe what others said or told us, what others taught us? If it did not come from God it is second-hand knowledge. God Himself is the only reality we can truly trust.

God is wooing us to deeper levels of intimacy with Him. He longs for us to know Him in a more real way, getting rid of the distorted image we have of Him. We can actually have the mind of Christ. If we agree to the process, then we will have the restored and equipped mind of a son of God. Jesus was *the* Son of God and we are called to be His brothers. We will be able to think the way God thinks and have our mind function the way God's mind functions.

At the beginning of last year, 2016, God called me to make some legislative documents, laws and decrees. I did that without knowing that He would use them first of all on me. These were His words which inspired me to make those decrees: "The mists around the closed and clouded minds must be dissipated. The hindrances and entanglement must be removed so that the limitations of minds that are stuck in what has been can become free to embrace what can be so it can become what will be.

The veils must be removed and restrictions lifted to embrace the limitless potential of My reality. The Way, Truth and Life are to be experienced, not conceptualised and contained. The limits over what is possible must be removed for my purpose to be achieved. You must begin to entertain limitless grace and mercy to be able to grasp what is the true reality beyond all expectations."

Even though I did not fully understand everything, I made declarations and I decreed the removal of limitations and then God used my own words to get me first. It was a huge challenge. After that the process of deconstruction and renewal began in earnest in my life. For a whole year I went through a process of God deconstructing what I thought I knew.

The frameworks of our mind were constructed by following the pathway of the knowledge of good and evil. My own mind had those frameworks as well, and God showed me what they were. I saw this framework as a construction with nine pillars

holding it all up. It was like a grid with cross-connected members and they were bolted onto these pillars. God walked with me in my mind and He started to shine His spotlight onto the pillars showing me what they were, naming each one.

Evangelicalism, Sola Scriptura, Greek Thought, Hebrew Thought, Augustinianism and Protestantism were the framework for my religious belief systems, even though I did not know I had them. I would have sworn that I did not have them, but I did.

Until God confronted them; they were just in the background shaping how I saw the world. Alongside those I had three others that formed my world views: Scientific Rationalism, Cultural Relativism and Humanism. These nine pillars actually

constructed how I thought. They framed and limited what I could see in my own mind; they determined my paradigms and my whole world view.

God started to challenge those things; He basically exploded and changed the way I viewed everything and I ended up with a “head explosion”.

Once the first pillar was removed, which was evangelicalism, the whole theological belief system that I had begun to crumble. That was quite difficult at the time but it was also extremely good. All the doctrines, the theological positions not reflecting God’s love began to be exposed as lies by the light of truth.

You will have pillars in your mind too but they are different from mine. You need to identify yours, which means you need to invite God to come and walk in your mind. We all have a choice, we can hold on to that construction or let God deconstruct it and replace it with something that is not a man-made DIY construct. If you allow God to deconstruct the framework of your mind, it will be replaced with life flowing from the tree of life and the mind of God into yours. When that happened to me I could literally feel a new root system of truth begin to form deep in my mind. I sensed that something was changing in the way my mind worked. From then on I could see things from a different perspective and a different reality. Not that I didn’t want to see it before but I just couldn’t with these constructs still in place.

Ezekiel 28:11 talks about the origin of those nine pillars. We read there about Lucifer who was in the garden of God and had nine stones covering his body. Those nine stones were designed to reflect God outwards because he was placed as a covering cherub on God’s holy mountain. He walked among the firestones, which are places of encounter to get deep revelation. Lucifer was supposed to actually shine that light out but he fell into I, ego, and self and ended up following the wrong path and consequently led all of us on that wrong path.

So those nine stones, which should have been a reflection, became a counterfeit and were perverted into nine veils within our minds. That is why there are nine. Those nine stones reflect the nine aspects of Father, Son and Spirit, three each, which are the full representation of God. They are supposed to join with our 3 to make 12 which is the fullness of kingdom government. God does not want to govern and rule on his own. He wants to include us in creation and its restoration.

Each veil/pillar in our mind filters the light of God and distorts God’s image, as well as our own image. Each one of those constructs in my own mind held up by those nine pillars did that. They distorted the way I saw God as well as myself. I could not see myself the way God saw me. We absolutely need to get our conscious understanding of who we are and what is possible expanded. The limits of religion and other things that have been put on us need to be taken off us so we can expand into true sonship.

Why is this deconstruction and renewal so important? In Acts 3:20 we read: ...*that He may send Jesus, the Christ, appointed for you, whom heaven must receive until the period of restoration of all things about which God spoke by the mouth of his prophets in ancient time.*

God wants to restore all things back to its original blueprint design. We, the sons of God, will do the restoring, but it will be impossible for us if we see things the way we have always seen them. If we are tasked with being part of that restoration as co-heirs in the kingdom we need to get rid of the limitations that exist in our thinking and consciousness. That is why God wants to renew our minds to come from a completely new perspective, so we will not fix the problems with the same 'Do It Yourself' methods that created them.

For example, we will not build the embassies of heaven on earth, the cities of refuge, like they did in building the Tower of Babel, with man-made bricks and tar etc. God wants us to go beyond what is already there into things which are not there at the moment. We will have the ability to construct things with "organic technology", if I can put it that way. We will be using quantum reality, being able to call things that are not into existence.

We as His sons have been given the responsibility of restoring all of creation. That is why it is really important that we grow up into true sonship. God is not going to do the job for us, He will do it with us but not for us. We are co-heirs and work with Him so we need to come to a place where we actually see and accept our responsibility for the whole creation, the whole cosmos.

We all can get rid of the limitations of our mind and consciousness, we can allow God to deconstruct those pillars, and we can come to realise who we are, seeing the limitless potential He created us with. We can be redeemed from following the wrong path and come into our true identity of being creative sons of God, made in His image to do the same things He does.

When we start to choose another future, see another reality, see our freedom and our destiny from a God perspective, things will begin to change. We will realise that our conscious thought has quantum power and that the whole universe responds to the focus of our consciousness. Quantum observation, quantum entanglement, quantum tunnelling, and quantum faith: all these things do exist, God made them and we just have to start using them.

Let us be creative sons of God, not limited by our 'Do It Yourself' past, to create a better future for us and for this whole created order, bringing it back into its original design. All of creation has its eyes fixed, looking for true sons to be revealed. They are looking at us! Everything is looking at us, waiting.

Will you be one of those sons? Will you accept this call? Will you allow God to deconstruct and renew your mind? Will you embrace your destiny? Will you accept

His yoke which is easy and his burden which is light and learn from Him, the Truth,
to be gentle and humble in heart?
He`s calling the sons of God to arise. Are you going to respond?

Learn more about this and how you can operate in the dual realms of heaven and
earth with our online program “Engaging God”. Sign up and get two weeks FREE at
